2. SETUP

2.1 What's in the Box

Upon unboxing your DOOGEE U10 Tablet, please ensure all the following items are present:

- 1 x DOOGEE U10 Android 14 Tablet
- 1 x Type-C USB Cable
- 1 x Charger
- 1 x User Manual (this document)
- 1 x Warranty Card

2.2 Initial Charging

Before first use, it is recommended to fully charge your tablet. Connect the provided Type-C USB cable to the tablet's charging port and the charger to a power outlet. The charging indicator will show the charging status. A full charge typically takes a few

hours.

2.3 Powering On/Off

- **To Power On:** Press and hold the Power button (usually located on the side) until the DOOGEE logo appears on the screen.
- **To Power Off:** Press and hold the Power button until a power-off menu appears. Select "Power off" and confirm.
- **To Restart:** From the power-off menu, select "Restart".

2.4 Initial Configuration

Follow the on-screen prompts to complete the initial setup:

1. Select your preferred language.
2. Connect to a Wi-Fi network.
3. Accept the terms and conditions.
4. Sign in with your Google account or create a new one.
5. Set up screen lock (PIN, pattern, password, or Face ID).

3. OPERATING YOUR TABLET

3.1 Basic Navigation

The DOOGEE U10 Tablet uses touch gestures for navigation:

- **Tap:** To select an item or open an app.
- **Swipe:** To scroll through pages or lists.
- **Pinch:** To zoom in or out on images or web pages.
- **Long Press:** To access contextual menus or move icons.

3.2 Connectivity

Your tablet supports advanced connectivity options:

- **Wi-Fi 6:** For high-speed internet access. Go to Settings > Network & internet > Wi-Fi, then select your network and enter the password.
- **Bluetooth 5.0:** For connecting wireless headphones, speakers, or other Bluetooth devices. Go to Settings > Connected devices > Bluetooth, turn it on, and pair with your device.
- **OTG (On-The-Go):** Allows you to connect USB devices like flash drives, keyboards, or mice using a compatible OTG adapter (not included).

4. MAINTENANCE

4.1 Battery Care

To maximize the lifespan of your 5060mAh battery:

- Avoid extreme temperatures.
- Do not let the battery drain completely before recharging regularly.
- Use the provided charger for optimal charging.
- Enable power-saving modes when battery is low.

4.2 Cleaning Your Tablet

Use a soft, lint-free cloth to clean the screen and body of the tablet. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner. Avoid using harsh chemicals or abrasive materials.

4.3 Software Updates

Keep your tablet's software up to date to ensure optimal performance and security. Go to Settings > System > System update to check for and install available updates.

4.4 Storage Optimization

Regularly review your installed apps and files. Uninstall unused apps and delete unnecessary files to free up storage space and improve performance. Consider moving large media files to an external TF card.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your DOOGEE U10 Tablet. If the problem persists, please contact customer support.

Problem	Possible Cause	Solution
Tablet does not turn on or charge.	Battery is completely drained; faulty charger/cable; hardware issue.	Ensure the charger and cable are securely connected. Try a different power outlet. Allow the tablet to charge for at least 30 minutes before attempting to power on. If still unresponsive, perform a forced restart by holding the power button for 10-15 seconds.

Problem	Possible Cause	Solution
Wi-Fi connection is unstable or not connecting.	Incorrect password; router issue; interference.	Verify the Wi-Fi password. Restart your Wi-Fi router. Move closer to the router. Forget the network on your tablet and reconnect.
Tablet is slow or apps are freezing.	Too many apps running; low storage; outdated software.	Close background apps. Clear app caches (Settings > Apps > [App Name] > Storage & cache > Clear cache). Free up internal storage. Check for system updates. Restart the tablet.
Camera is not working.	App permissions; software glitch.	Check camera permissions for the Camera app (Settings > Apps > Camera > Permissions). Restart the tablet. Clear the Camera app's cache and data.
Screen display issues (e.g., flickering, incorrect colors).	Software glitch; hardware defect.	Restart the tablet. Ensure the TÜV Low Blue Light Eye Protection mode is not causing an unintended effect if you prefer standard display. If the issue persists, it may indicate a hardware problem.
