Mirightone Queen Wood Bed Frame Instruction Manual

Model: B0D7SKWC35

Safety Information **Package Contents** **Setup & Assembly** **Usage** **Maintenance** **Troubleshooting** **Specifications** **Support**

Introduction

Thank you for choosing the Mirightone Queen Wood Bed Frame. This manual provides detailed instructions for the assembly, safe use, and maintenance of your new bed frame. Please read this manual thoroughly before beginning assembly and retain it for future reference.

Safety Information

WARNING: Failure to follow these safety instructions could result in injury or damage to the product.

- Do not exceed the maximum weight capacity of 400 pounds.
- Always assemble the bed frame according to the provided instructions to prevent tipping and ensure stability.
- Be cautious of sharp edges during assembly and use.
- Keep all small parts and packaging materials away from children during assembly.
- Ensure all bolts and screws are securely tightened before use and periodically check for tightness.

Package Contents

Before assembly, verify that all components are present. The package includes:

- Queen Bed Frame (1)
- All necessary tools for assembly
- Assembly manual
- All required hardware (screws, bolts, washers, etc.)

Note: Your bed frame may arrive in two separate boxes, which might be delivered on different dates.

Setup & Assembly

Follow these steps carefully to assemble your Mirightone Queen Wood Bed Frame. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches. Identify all parts against the included parts list in your separate assembly document.
2. **Assemble Headboard and Footboard:** Attach the side rails to the tall headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until the frame is fully assembled.
3. **Install Support Slats:** Position the 10 sturdy wood slats across the bed frame. These slats provide direct support for your mattress and eliminate the need for a box spring. Secure them according to the instructions in your assembly document.
4. **Attach Center Support Legs:** Ensure any center support legs are properly installed and reach the floor to provide adequate stability.
5. **Final Tightening:** Once all components are in place, carefully tighten all bolts and screws. Do not overtighten.

Usage

Your Mirightone Queen Wood Bed Frame is designed for comfort and practicality.

Mattress Compatibility

This platform bed frame does not require a box spring. It is designed to support your mattress directly on its sturdy wood slats. A mattress thickness of 8 inches or less is recommended for optimal headboard visibility and comfort.

Tall Headboard and Footboard

The 52.8-inch high paneled headboard provides comfortable backrest support, ideal for reading or using electronic devices in bed. The 20.3-inch tall footboard helps prevent mattress sliding, ensuring your bedding stays in place.

Under-Bed Storage

The bed frame offers approximately 11 inches of clearance underneath, providing ample space for storage boxes, luggage, or other items. This design also allows for easy cleaning by robotic vacuums.

Maintenance

To ensure the longevity and appearance of your Mirightone Wood Bed Frame, follow these maintenance guidelines:

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth to prevent buildup.
- **Tighten Hardware:** Periodically check all bolts and screws and tighten them as needed to maintain structural integrity and prevent squeaks.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause wood to fade or crack. Position your bed frame away from direct, intense sunlight if possible.
- **Protect from Moisture:** Avoid placing wet items directly on the wood surface. Promptly wipe up any spills.

Troubleshooting

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** If the bed frame develops squeaks, re-tighten all assembly hardware. Ensure all slats are properly seated and secured. Sometimes, applying a small amount of wax or lubricant to connection points can help.
- **Mattress Sliding:** The tall footboard is designed to minimize mattress sliding. If your mattress still slides, ensure it is correctly positioned within the frame. Anti-slip pads placed between the mattress and slats can also be used.
- **Uneven Support Legs:** If a middle support leg does not reach the floor, check that the frame is assembled correctly and on a level surface. Adjust the leg if it has an adjustable foot, or contact customer service if it appears to be a manufacturing defect.
- **Damaged Parts:** If any parts arrived damaged or become damaged during assembly, do not proceed with assembly. Contact customer service immediately for replacement parts.

Specifications

Feature	Detail
Brand	Mirightone
Model	B0D7SKWC35
Size	Queen
Product Dimensions (L x W x H)	83.7" x 64.9" x 52.8"
Color	Antique Brown
Material	Pinewood, Plywood, MDF
Finish Type	Stain
Weight Capacity	400 lbs
Headboard Height	52.8 inches
Footboard Height	20.3 inches
