SETUP

Initial Power On

To begin using your Lenovo V15 laptop, connect the power adapter to the laptop and a power outlet. Press the power button located on the keyboard deck.

Operating System Setup

Follow the on-screen prompts to complete the Windows 11 Pro setup. This includes selecting your region, connecting to a Wi-Fi network, and creating a user account.

Connecting Peripherals

Utilize the available ports to connect external devices such as a mouse, keyboard, or external monitor. The included DKZ Hub USB Port Expander provides additional USB connectivity.

MAINTENANCE

Software Updates

Regularly check for and install Windows updates and driver updates from the Lenovo support website to ensure optimal performance, security, and compatibility. Keeping your software up-to-date helps prevent issues and enhances system stability.

Cleaning Your Laptop

Use a soft, lint-free cloth slightly dampened with water or a screen cleaner to clean the display. For the exterior surfaces, use a similar cloth. Avoid harsh chemicals, abrasive materials, or excessive moisture. For the keyboard, use compressed air to remove dust and debris from between the keys.

TROUBLESHOOTING

Power Issues

- If the laptop does not power on, ensure the power adapter is securely connected to both the laptop and a functional power outlet.

- If the battery is not charging, check the power adapter and charging port for any visible damage. Try a different power outlet.

Display Problems

- If the screen is blank or flickering, try connecting an external monitor to check if the issue is with the laptop's internal display or the graphics card.
- Adjust display brightness using the function keys (usually Fn + F5/F6 or similar) or through Windows display settings.

Connectivity Issues

- For Wi-Fi problems, restart your wireless router and the laptop. Verify that Wi-Fi is enabled in Windows settings and that you are connected to the correct network.
- For Bluetooth issues, ensure Bluetooth is enabled in Windows settings and that your devices are in pairing mode. Try removing and re-pairing the device.

SPECIFICATIONS

Feature	Detail
Standing Screen Display Size	15.6 Inches
Max Screen Resolution	1920 x 1080 pixels
Processor	AMD Ryzen 7 7730U (2 GHz, up to 4.5 GHz)
RAM	40 GB DDR4 SO-DIMM
Hard Drive	512 GB PCIe NVMe SSD
Graphics Coprocessor	AMD Radeon Graphics
