This image showcases the MEGUO A15PRO portable Bluetooth speaker in green, highlighting its vibrant LED light ring and its waterproof design with water splashing around it.

INTRODUCTION

Welcome to the user manual for your MEGUO A15PRO Bluetooth Speaker. This portable speaker is engineered to deliver powerful 20W sound with enhanced bass, making it ideal for various listening

environments. Its robust IPX7 waterproof design ensures durability for outdoor and wet conditions. The A15PRO also features True Wireless Stereo (TWS) pairing for an expanded sound experience and dynamic LED light modes to complement your audio.

PERFECT GIFT CHOICE

Let music in, make our life more wonderful.

Figure 4: Acoustic Design

This diagram illustrates the internal acoustic components of the MEGUO A15PRO speaker, highlighting its dual 10W powerful drivers and a symmetric passive radiator, which work together with DSP technology to produce high-quality, loud sound.

SETUP

Initial Charging:

Before using your MEGUO A15PRO speaker for the first time, it is recommended to fully charge it. Connect the provided Type-C charging cable to the speaker's charging port and plug the other end into a standard USB power source (e.g., a wall adapter, computer USB port). The charging indicator will illuminate during charging and turn off once the battery is full.

Powering On/Off:

To power on the speaker, press and hold the **Power Button** for approximately 2-3 seconds until you hear an audible prompt. To power off, press and hold the same button again for 2-3 seconds.

OPERATING INSTRUCTIONS

Bluetooth Pairing:

1. Ensure the speaker is powered on. It will automatically enter Bluetooth pairing mode, indicated by a flashing LED light.
2. On your Bluetooth-enabled device (e.g., smartphone, tablet, laptop), navigate to the Bluetooth settings and turn Bluetooth on.
3. Search for available devices and select "A15 PRO" from the list.
4. Once connected, the speaker will emit a confirmation sound, and the LED indicator will become solid.

The speaker will automatically attempt to reconnect to the last paired device when powered on, if that device is within range and has Bluetooth enabled.

True Wireless Stereo (TWS) Pairing:

For a more immersive audio experience, you can pair two MEGUO A15PRO speakers together to create a 360° stereo sound system with double the output.

1. Ensure both MEGUO A15PRO speakers are powered off.
2. Power on both speakers simultaneously by pressing and holding their respective **Power Buttons**.
3. On one of the speakers, press and hold the **Bass+ Button**. The speakers will enter TWS pairing mode and automatically connect to each other.
4. Once successfully paired, one speaker will function as the master (left channel) and the other as the slave (right channel).
5. Connect your Bluetooth device to the master speaker (the one you held the Bass+ button on) as described in the "Bluetooth Pairing" section.

Figure 5: TWS Wireless Pairing Setup

This image visually demonstrates how two MEGUO A15PRO speakers can be wirelessly linked to provide a combined 40W loud sound and a synchronized RGB beat-driven light show, ideal for enhancing party atmospheres.

Bass Enhancement:

Activate the enhanced bass mode by pressing the dedicated **Bass+ Button**. Press it again to deactivate the mode. This feature provides a deeper, richer, and more elastic bass sound for your audio.

Figure 6: Bass+ Button Function

This image shows a finger pressing the 'Bass+' button on the speaker's control panel, illustrating the direct interaction point for activating the advanced bass enhancement technology.

Light Modes:

The MEGUO A15PRO features dynamic LED light effects. Press the **Light Mode Button** to cycle through the various available light patterns. Continue pressing to find your preferred mode or to turn the lights off completely.

CHARGING AND BATTERY LIFE

The MEGUO A15PRO speaker is equipped with a rechargeable Lithium Ion battery. To charge, connect the provided Type-C USB cable to the speaker's charging port and to a compatible USB power source. A full charge typically provides up to 24 hours of audio playback at 50% volume. The charging indicator light will confirm charging status.

WATERPROOFING (IPX7)

The MEGUO A15PRO speaker is designed with an IPX7 waterproof rating, meaning it can withstand immersion in water up to 1 meter (3.3 feet) for a duration of up to 30 minutes. This makes the speaker

highly resistant to splashes, rain, and temporary submersion, ideal for use in environments like pools, beaches, or during camping and hiking.

Figure 7: IPX7 Waterproof Capability

This image shows the MEGUO A15PRO speaker partially submerged in water with dynamic splashes, visually confirming its 100% waterproof IPX7 rating, which allows for immersion up to 1 meter for 30 minutes.

Important Note: To maintain the speaker's waterproof integrity, always ensure the Type-C charging port cover is securely sealed before exposing the speaker to water or moisture.

MAINTENANCE AND CARE

- Clean the speaker's exterior with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents.
- If the speaker is exposed to saltwater or chlorinated water, rinse it thoroughly with fresh water immediately afterward. Ensure it is completely dry before charging.
- Store the speaker in a cool, dry environment away from direct sunlight and extreme temperatures when not in use for extended periods.
- Do not attempt to open, disassemble, or repair the speaker yourself, as this may cause damage and will void the product warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not power on.	Battery is depleted.	Connect the speaker to a power source and charge it fully.
Cannot connect via Bluetooth.	Speaker not in pairing mode; Bluetooth is off on your device; device is out of range.	Ensure the speaker's LED is flashing (pairing mode); enable Bluetooth on your device; move your device closer to the speaker (within 10 meters / 33 feet).
No sound or low volume output.	Volume levels are too low on either the speaker or the connected device; speaker is not properly connected.	Increase the volume on both the speaker and your connected device. Verify that the Bluetooth connection is active.
True Wireless Stereo (TWS) pairing fails.	Speakers were not powered on simultaneously, or the Bass+ button was not held correctly on one speaker.	Ensure both speakers are off, then power them on simultaneously. On one speaker, press and hold the Bass+ button until TWS pairing is confirmed.
LED lights are not active.	Lights are turned off or set to a static mode.	Press the Light Mode button repeatedly to cycle through the available light effects and activate them.
