VEVOR T12-GR15B

VEVOR 1500W Infrared Wall Mount Heater (Model T12-GR15B) - Instruction Manual

Model: **T12-GR15B** | Brand: **VEVOR**

1. Safety Instructions

Read all instructions carefully before using this heater. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Ensure the power supply voltage matches the rating label on the heater.
- Do not use this heater with an extension cord. Plug directly into a wall outlet.
- Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the heater and away from the sides and rear.
- Do not operate any heater with a damaged cord or plug, or after the heater malfunctions or has been dropped or damaged in any manner.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
- This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.
- Always unplug the heater when not in use.
- This heater is rated IP65 for protection against dust and water jets, making it suitable for outdoor use. However, avoid direct exposure to heavy rain or submersion.
- Do not use in bathrooms, laundry areas, or similar indoor locations where water may be present.

2. Product Overview

The VEVOR T12-GR15B is a 1500W carbon fiber infrared heater designed for efficient and rapid heating in various indoor and outdoor environments such as patios, garages, dining rooms, studios, and backyards. It features remote control operation and a durable IP65-rated aluminum alloy housing.

The VEVOR 1500W Infrared Wall Mount Heater, Model T12-GR15B.

Key Features:

- **3-Second Quick-Heating:** Utilizes carbon fiber infrared heating tubes for fast heat conduction and high heat output without preheating.
- **9 Adjustable Settings:** Offers power output from 300W to 1500W to suit various temperature needs.
- **IP65 Protection:** Aluminum alloy housing provides rust and corrosion resistance, with ETL and FCC certification for outdoor use.
- **Remote Control:** Convenient operation from a distance.
- **Space-Saving Wall Mount:** Compact design (22.83x3.94x2.36 inches) for easy wall installation.

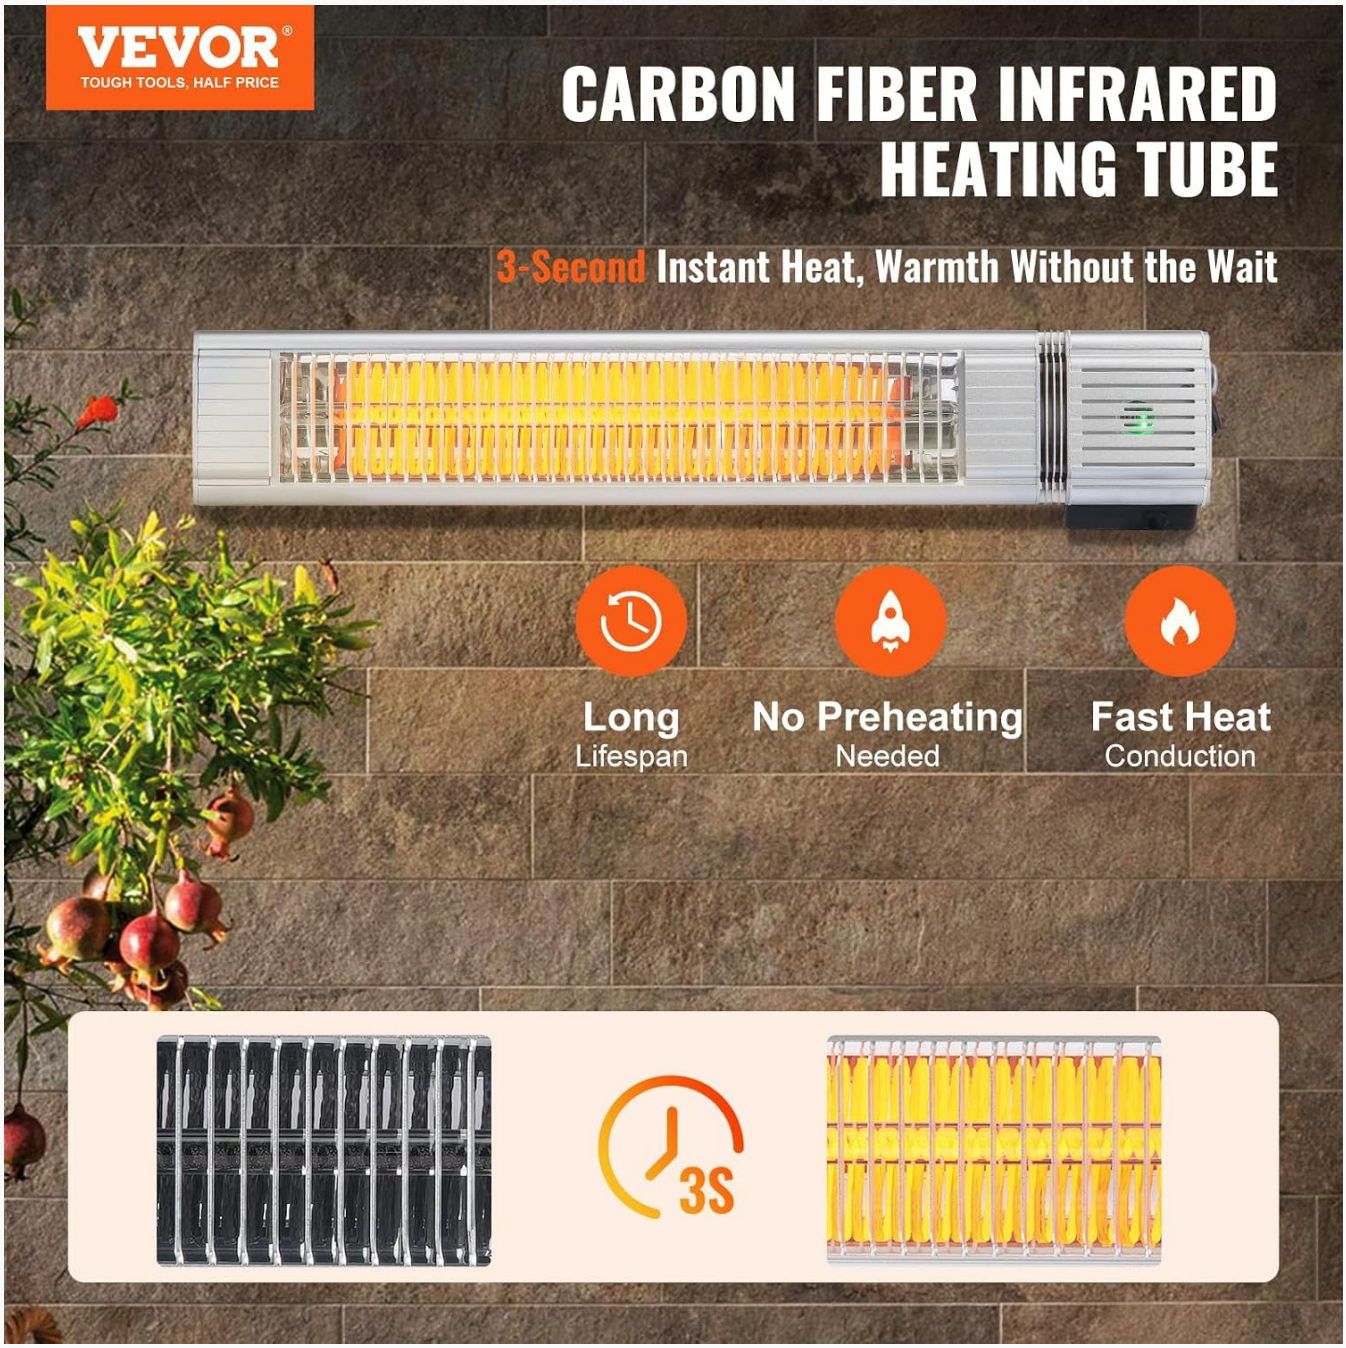

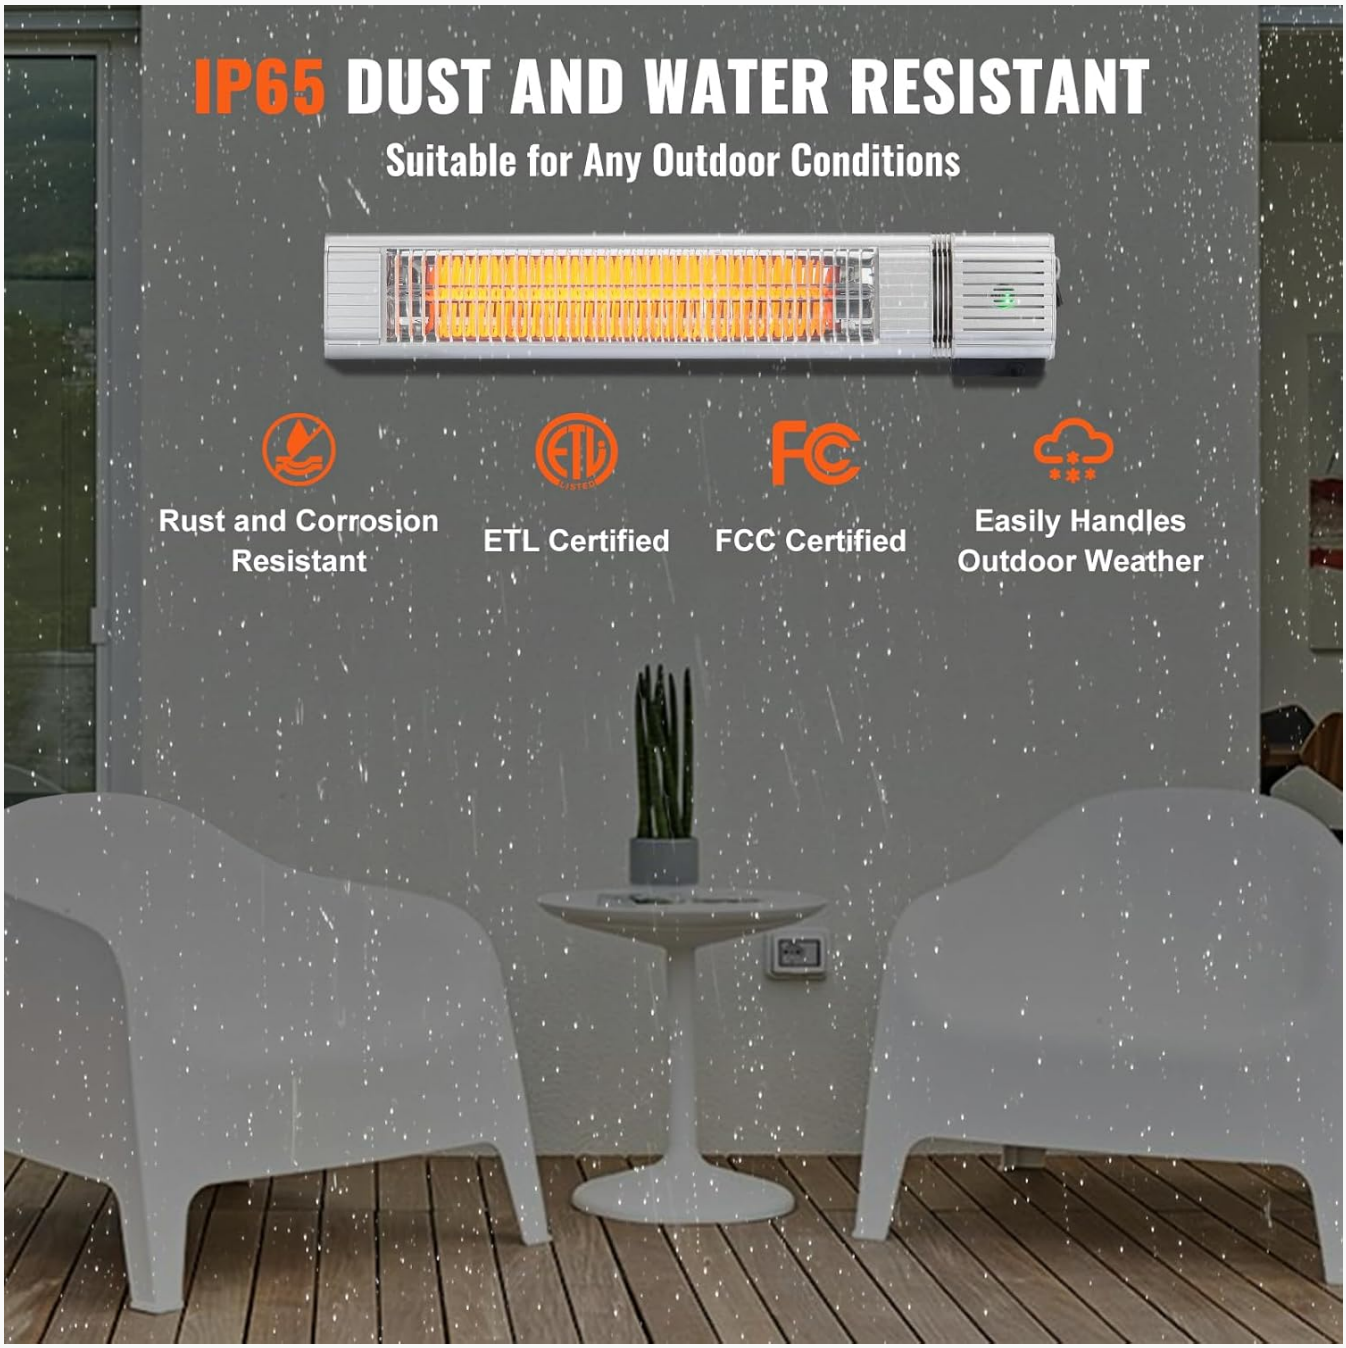

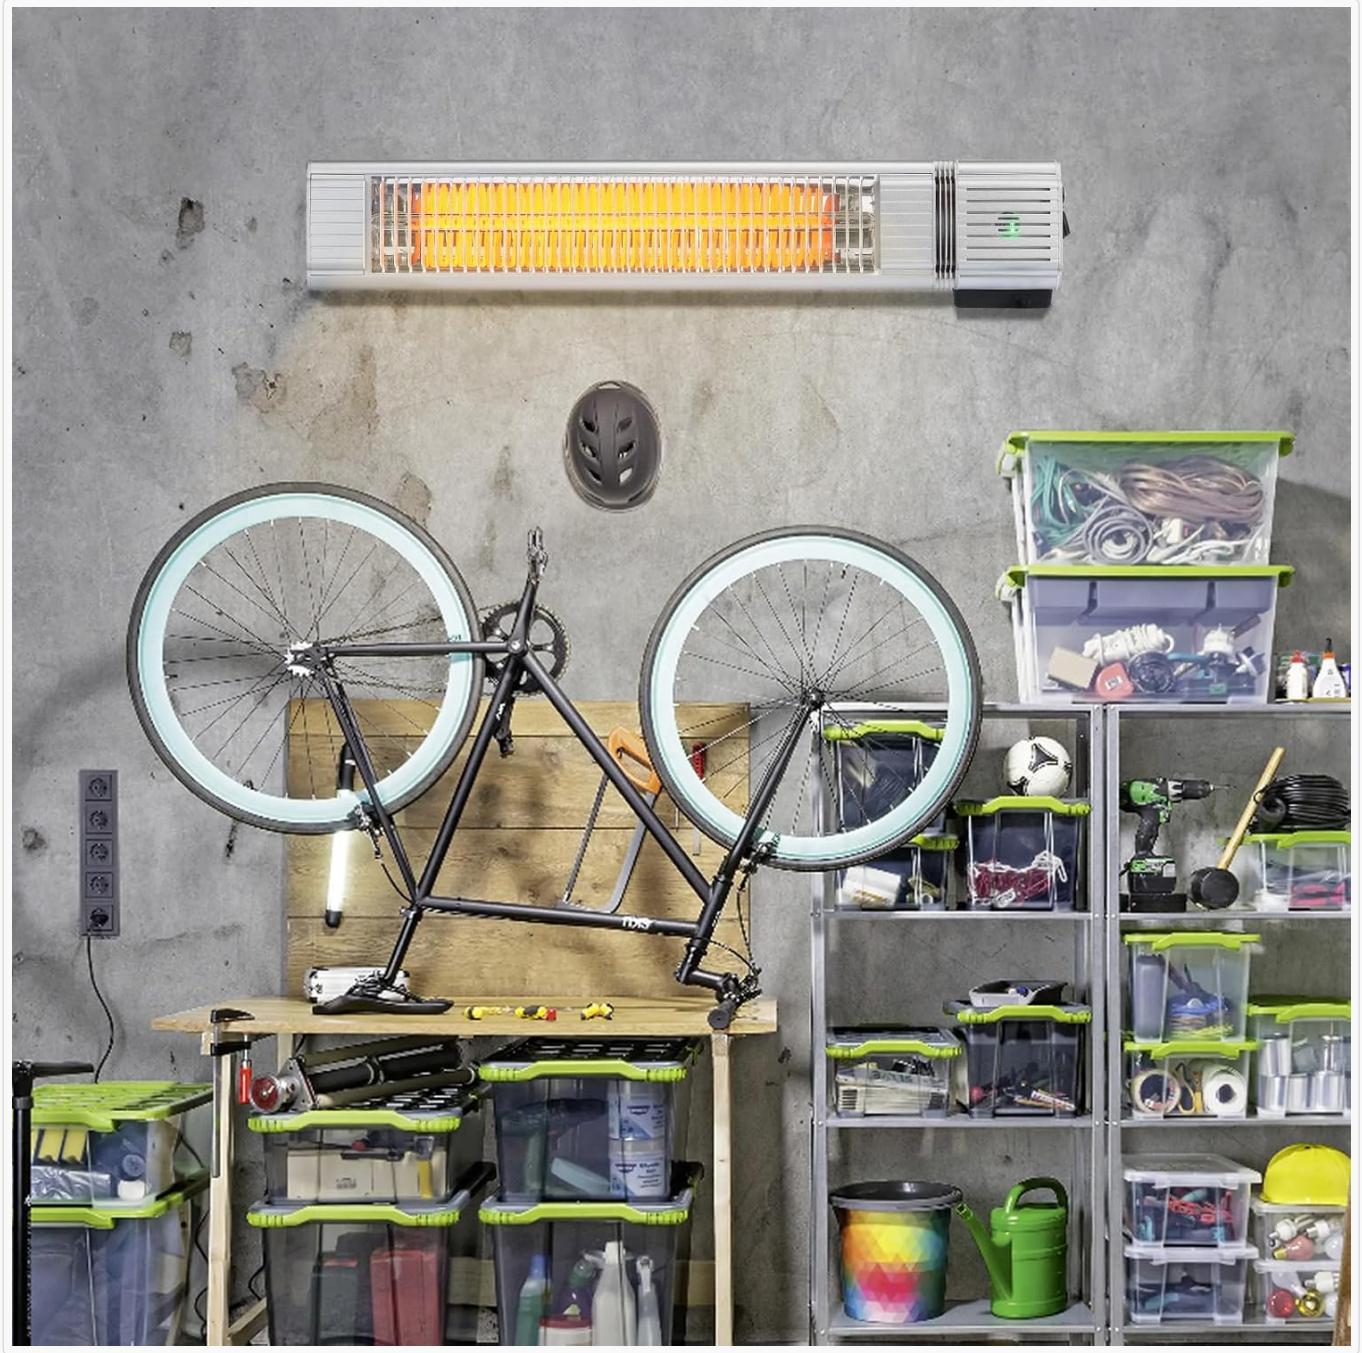

Illustration of the carbon fiber infrared heating tube, highlighting 3-second instant heat and no preheating.

The heater's IP65 rating ensures dust and water resistance for outdoor conditions.

The VEVOR infrared heater installed in a garage setting, demonstrating its wall-mounted application.

3. Package Contents

Verify that all components are present in the package:

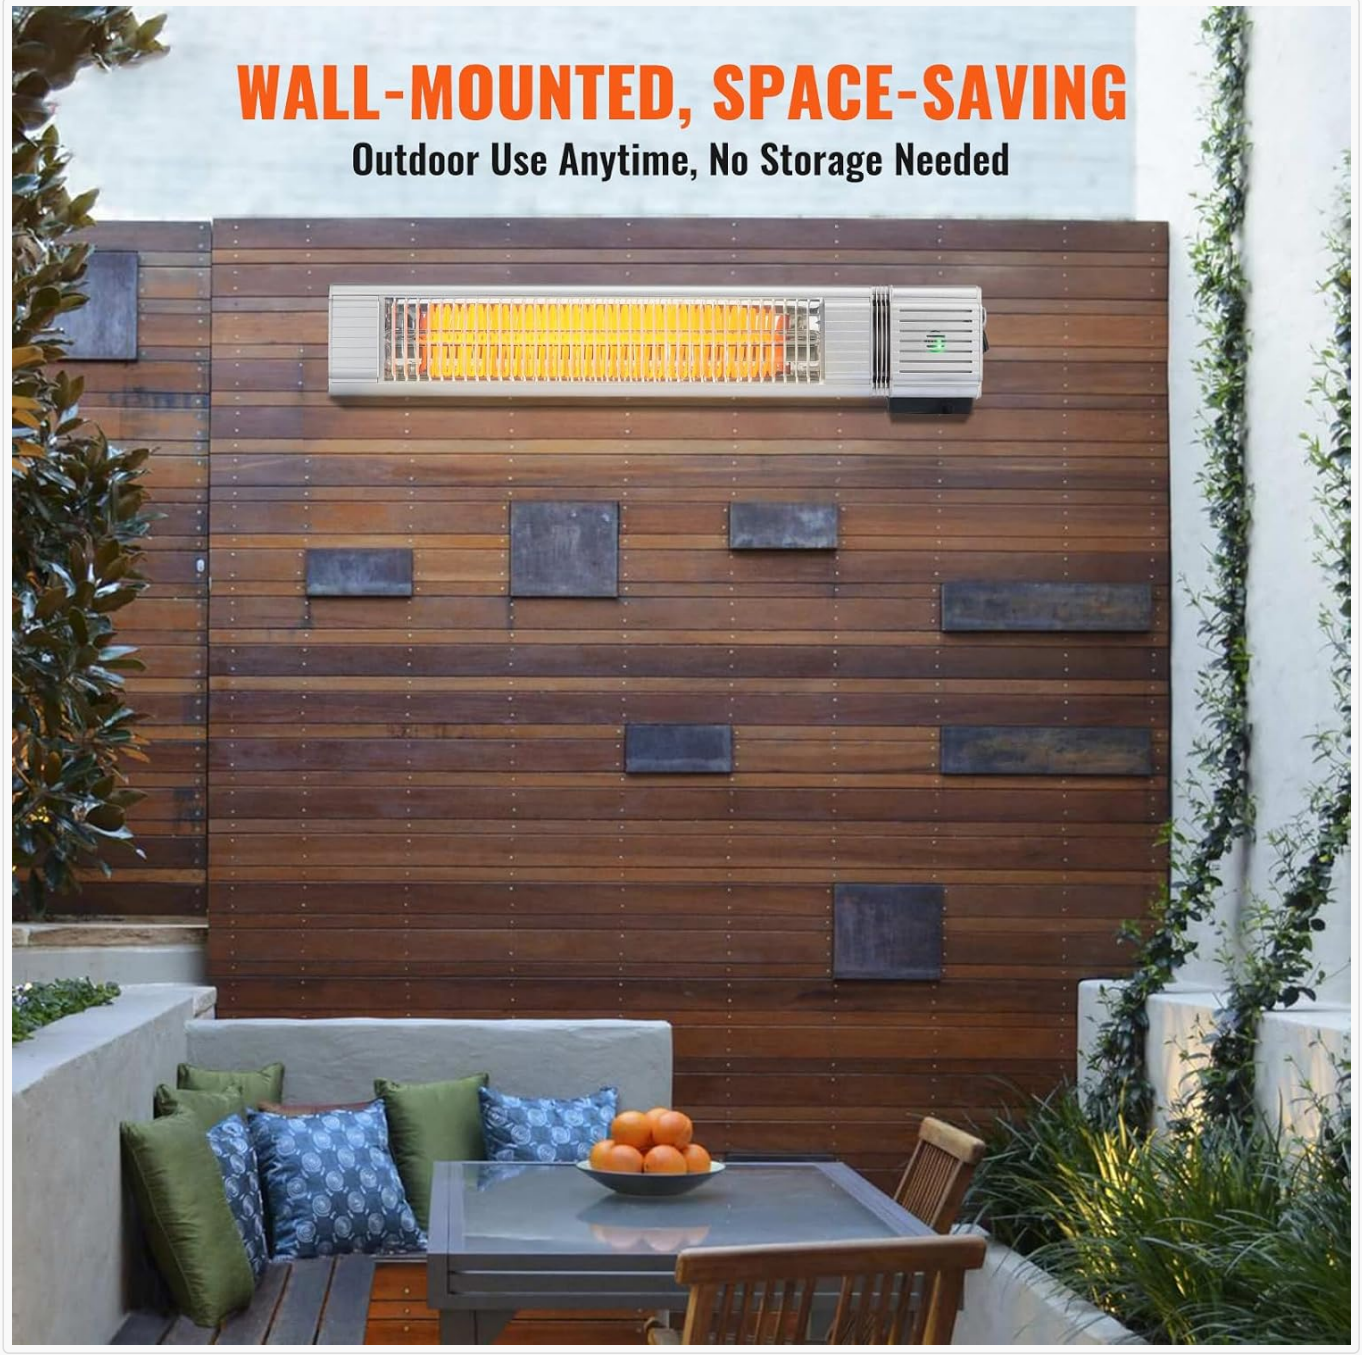

- Infrared Heater
- Remote Control (Battery CR2025 included)
- Mounting Bracket
- Expansion Bolts
- Self-Tapping Screws
- Wing Nuts
- Hex Wrench

4. Setup and Installation

The heater is designed for wall mounting. Follow these steps for secure installation:

1. **Choose Location:** Select a suitable wall location, ensuring the bottom of the heater is at least 1.8 meters (5.9 feet) from the ground and 0.5 meters (1.6 feet) from the ceiling, roof, or side walls for safe operation.
2. **Drill Holes:** Use a drill to make three 8mm holes in the wall at the desired mounting points.
3. **Insert Expansion Bolts:** Insert the provided expansion bolts into the drilled holes.
4. **Fix Bracket:** Secure the mounting bracket to the wall using the self-tapping screws. The bracket includes a swing arm feature allowing adjustment of the heater's distance from the wall.
5. **Attach Heater:** Secure the heater to the mounting bracket using the wing nuts and hex wrench.
6. **Power Connection:** Plug the heater directly into a suitable wall outlet. Do not use an extension cord.

The heater is designed for wall mounting, saving space and providing warmth for outdoor use.

5. Operating Instructions

The VEVOR infrared heater can be operated using the side power switch and the included remote control.

Powering On/Off:

- **Main Power Switch:** Locate the power switch on the side of the heater. Flip it to the 'ON' position to supply power to the unit. The heater will enter standby mode, indicated by a small LED light.
- **Remote Control:** Once the main power is on, use the remote control to turn the heater on or off.

Using the Remote Control:

The remote control allows you to adjust settings conveniently.

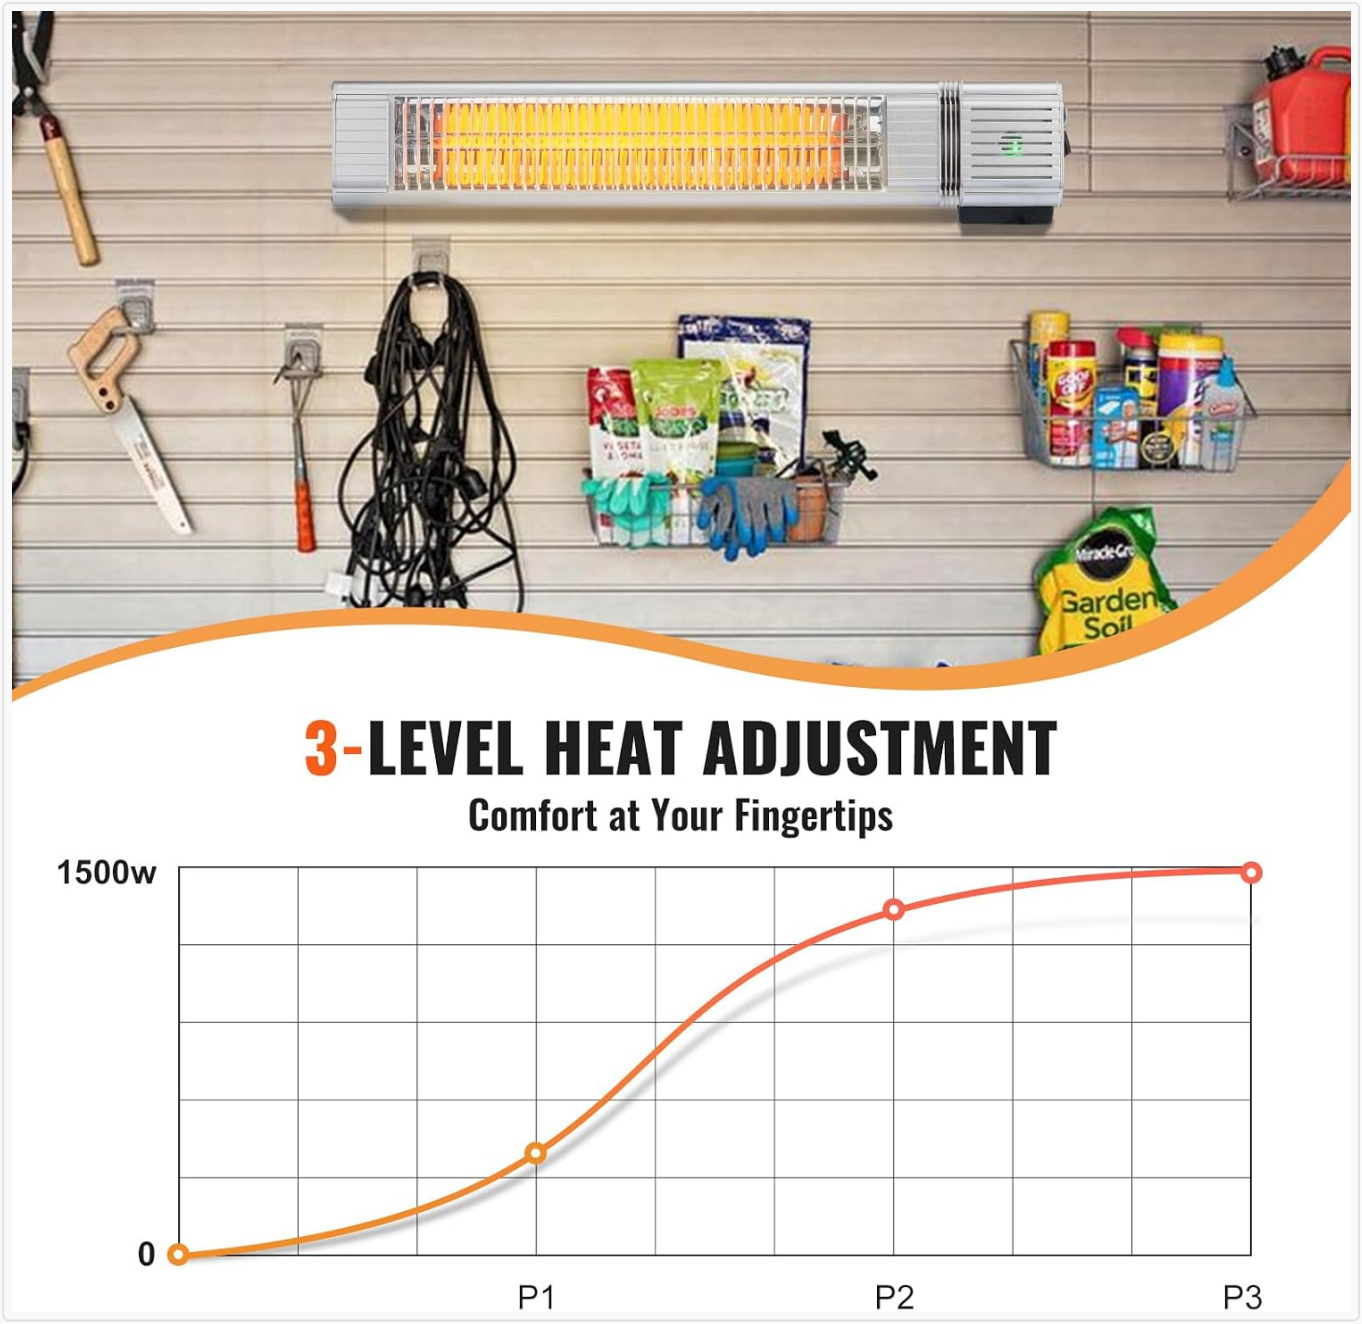

The remote control for the VEVOR infrared heater, showing buttons for power, temperature adjustment, and timer settings.

- **Power Button:** Press the power button (usually marked with a circle and a vertical line) to switch the heater on or off from standby mode.
- **Temperature/Speed Adjustment:** Use the '+' and '-' buttons to cycle through the 9 adjustable heat settings

(300W-1500W).

- **Timer Function:** The remote also includes buttons for setting a timer, allowing you to schedule the heater's operation.

A graph demonstrating the 3-level heat adjustment capability of the heater, reaching up to 1500W.

6. Maintenance

Regular maintenance ensures optimal performance and longevity of your heater.

- **Cleaning:** Before cleaning, always turn off the heater, unplug it from the power outlet, and allow it to cool completely. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the heater for an extended period, ensure it is clean and dry. Store it in a cool, dry place, preferably in its original packaging.
- **Inspection:** Periodically check the power cord and plug for any signs of damage. If any damage is found, do not use the heater and contact customer support.

7. Troubleshooting

If you encounter issues with your VEVOR infrared heater, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Heater does not turn on.	No power, main switch off, remote battery dead.	Check power outlet, ensure main side switch is ON, replace remote battery (CR2025).
Remote control not responding.	Main power switch off, remote battery dead, obstruction.	Ensure main side switch is ON. Replace remote battery. Ensure no objects block the remote sensor. If the heater turns on by itself and the remote doesn't work, immediately turn off the main side switch or unplug the unit.
Heater not producing enough heat.	Low heat setting, large area, distance from heater.	Increase heat setting using the remote. Infrared heaters are most effective at closer distances. Consider additional heating for very large spaces.
Unusual smell or noise.	New unit burn-off, foreign object, internal issue.	A slight odor is normal for new heaters and should dissipate. Turn off and unplug the heater, inspect for foreign objects. If the issue persists, discontinue use and contact support.

8. Specifications

Detailed technical specifications for the VEVOR 1500W Infrared Wall Mount Heater (Model T12-GR15B):

Visual representation of the heater's dimensions and key specifications.

Specification	Value
Brand	VEVOR
Model Number	T12-GR15B
Power	1500W
Power Supply	AC120V 60Hz
Protection Rating	IP65
Heating Method	Convection, Radiant
Heating Element	Carbon Fiber Infrared Tubes
Number of Speeds	3 (9 adjustable settings from 300W-1500W)

Specification	Value
Mounting Type	Wall Mount
Item Dimensions (L x W x H)	22.83" x 3.94" x 2.36" (580 x 100 x 60 mm)
Item Weight	3.42 lbs (1.55 kg)
Color	Silver
Included Components	Expansion Bolts, Hex Wrench, Mounting Bracket, Infrared Heater, Remote Control (Battery CR2025), Self-Tapping Screws, Wing Nuts

9. Warranty and Support

VEVOR products are designed for durability and performance. For warranty information, technical support, or to register your product, please visit the official VEVOR website or contact their customer service directly. Keep your purchase receipt for warranty claims.
For further assistance, please refer to the contact information provided in your product packaging or on the VEVOR official website.
