2. SETUP AND FIRST USE

2.1 Unboxing and Package Contents

Carefully unpack all items from the carrying box. Verify that all components listed below are present.

Figure 2.1: Contents of the LAUNCH X431 PRO Star package.

- LAUNCH X-431 PRO STAR Tablet
- Carrying Box
- Diagnostic Cable (OBDII)
- Type-C USB Cable
- AC Adapter
- US Plug, UK Plug, EU Plug
- User Manual
- Quick Guide

- Packing List
- PIN Envelope

2.2 Initial Device Configuration

1. **Charge the Device:** Fully charge the LAUNCH X431 PRO Star tablet using the provided AC adapter and Type-C USB cable before first use.
2. **Power On:** Press and hold the power button to turn on the device.
3. **Language and Time Zone:** Follow the on-screen prompts to select your preferred language and time zone.
4. **Connect to Wi-Fi:** Connect the device to a stable Wi-Fi network (supports 2.4GHz and 5.0GHz). Internet access is required for registration and software updates.
5. **Register Account:** Register an account on the manufacturer's website using the serial number provided with your device.
6. **Software Update:** After registration, you will be prompted to update the software. Perform all available updates to ensure optimal functionality and access to the latest vehicle data. This process may take some time.

3. OPERATING INSTRUCTIONS

3.1 Connecting to a Vehicle

1. Locate the vehicle's OBDII port, typically under the dashboard on the driver's side.
2. Connect the diagnostic cable to the LAUNCH X431 PRO Star tablet.
3. Connect the other end of the diagnostic cable to the vehicle's OBDII port.
4. Turn the vehicle's ignition to the 'ON' position (do not start the engine).

3.2 Basic Diagnostic Functions

Once connected, the device will attempt to auto-detect the vehicle's VIN. If auto-detection fails, you can manually enter the vehicle information.

- **Health Report:** After identifying the vehicle, the system can generate a comprehensive health report.
- **Full System Scan:** Perform a complete scan of all available vehicle systems.
- **Read/Clear Codes:** View diagnostic trouble codes (DTCs) and clear them after repairs.
- **Live Data:** Monitor real-time data streams from various sensors and components.

3.3 Advanced Maintenance Services (37+)

The LAUNCH X431 PRO Star offers over 37 advanced maintenance and reset functions, with the potential to expand to over 130 types depending on the vehicle's make, model, and year. These services include:

- Oil Reset
- ABS Bleeding
- Battery Registration
- EPB Reset (Electronic Parking Brake)
- DPF Regeneration (Diesel Particulate Filter)
- Injector Coding
- SAS Reset (Steering Angle Sensor)
- Throttle Matching
- TPMS Reset (Tire Pressure Monitoring System)
- Gearbox Reset
- Suspension Reset
- AFS Headlamp Reset

37+ MAINTENANCE SERVICE FUNCTIONS

Quantity can exceed 130+, depending on car model and year

3.4 Bi-Directional Control (Active Test)

This feature allows the technician to send commands to vehicle systems and components to test their functionality. This helps in quickly identifying faulty components without manual disassembly. Examples include:

- Turning the radiator fan on/off
- Testing door lock actuators
- Energizing injectors
- Operating mirrors
- Opening/closing windows

BI-DIRECTIONAL CONTROL (ACTIVE TSET)

QUICKLY LOCATE PROBLEMS

- *Swiftly locate and fix faulty components*
- *Avoid wasting money on blind troubleshooting*

3.5 ECU Coding

ECU Coding enables the matching, relearning, and coding of newly installed ECU modules after repairs or replacements. It also allows for the activation of higher-level vehicle functions. This includes:

- Flash/Match/Calibration
- Recode and Relearn
- Alter Configuration
- Reprogram Adaptive Data
- Recognize New CPU
- Match Current Settings
- Customize Car Features (e.g., automatic lock, reverse rearview mirror down, windows close when rain)

4. MAINTENANCE

4.1 Software Updates

The LAUNCH X431 PRO Star includes 2 years of free software updates. After this period, the device will continue to function, but new software releases and vehicle data updates will require a subscription. Regular updates ensure compatibility with new vehicle models and access to the latest diagnostic features.

4.2 General Care

- Keep the device clean and free from dust and moisture.
- Store the device in its protective carrying case when not in use.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.
- Use only the provided charging accessories to prevent damage.

5. TROUBLESHOOTING

If you encounter issues with your LAUNCH X431 PRO Star, consider the following:

- **Connection Issues:** Ensure the diagnostic cable is securely connected to both the scanner and the vehicle's OBDII port. Verify the vehicle's ignition is in the 'ON' position.
- **Software Malfunctions:** Ensure the device's software is up to date. A factory reset may resolve persistent software issues (note: this will erase user data).
- **Vehicle Compatibility:** While the device covers over 99% of vehicles, specific advanced functions may vary by make, model, and year. Consult the vehicle coverage list or contact support for details.
- **Device Performance:** If the device is slow or unresponsive, try restarting it. Ensure sufficient battery charge.
