## INTRODUCTION

The Hotel Collection Studio Pro Essential Oil Diffuser is designed to transform your living space into a luxurious retreat. Utilizing advanced cold-air diffusion technology, it converts fragrance oil into a dry nanomist, ensuring a consistent and long-lasting aroma without the need for heat or water. This manual provides essential information for the proper setup, operation, and maintenance of your diffuser.

This diffuser is compatible exclusively with Hotel Collection Pro Pod Bottles, ensuring optimal performance and seamless integration for a luxurious scenting experience.

## SETUP GUIDE

### Unboxing and Initial Inspection

Carefully remove all components from the packaging. Inspect the diffuser and accessories for any signs of damage. Ensure all parts are present before proceeding with setup.

Figure 1: Hotel Collection Studio Pro Essential Oil Diffuser.

## Installing the Fragrance Oil

1. Ensure the diffuser is unplugged from the power source.
2. Locate the fragrance oil compartment, typically at the top or bottom of the diffuser, designed for Pro Pod Bottles.
3. Carefully insert your preferred Hotel Collection Pro Pod Bottle into the designated slot. Ensure it is

securely fitted to prevent leaks and ensure proper diffusion.

4. Once the Pro Pod Bottle is installed, connect the diffuser to a power outlet.

Figure 2: Diffuser with Pro-Pod oil bottle and remote control.

## Placement Considerations

Place the diffuser on a flat, stable surface in an area where the scent can circulate freely. The compact and portable design (3.25" x 11.25") allows it to seamlessly fit into various decors.

## OPERATING INSTRUCTIONS

### Powering On and Adjusting Intensity

The Studio Pro Diffuser utilizes cold-air diffusion technology to convert fragrance oil into a dry nano-mist, ensuring long-lasting scent without the need for heat or water. This method preserves the therapeutic properties of the oils.

To operate the diffuser, use the included remote control. Press the "ON" button to power on the device. You can easily adjust the fragrance intensity to your preference using the remote control buttons:

- **LOW:** Misting for 15 seconds, pausing for 5 minutes.
- **MED:** Misting for 15 seconds, pausing for 3 minutes.
- **HIGH:** Misting for 15 seconds, pausing for 1 minute.

## Timer Functions

The remote also allows you to set a timer for automatic shut-off:

- **2H:** Diffuser runs for 2 hours.
- **4H:** Diffuser runs for 4 hours.
- **8H:** Diffuser runs for 8 hours.

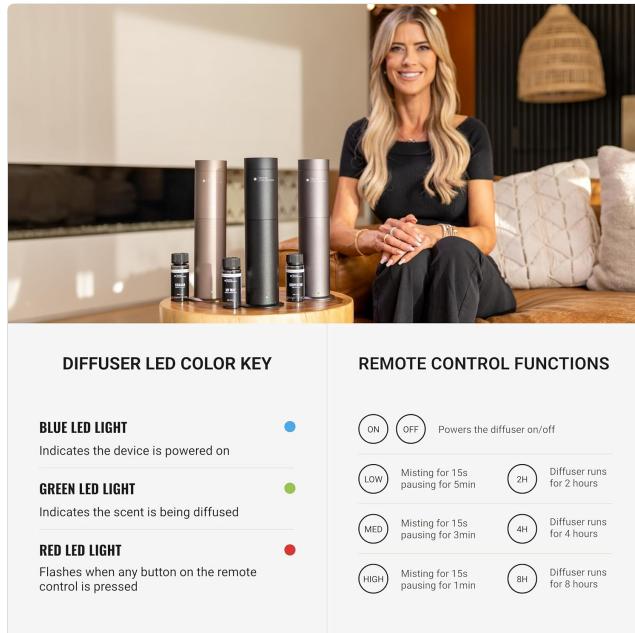

Figure 4: Diffuser LED indicators and remote control functions.

## LED Color Key

- **Blue LED Light:** Indicates the device is powered on.
- **Green LED Light:** Indicates the scent is being diffused.
- **Red LED Light:** Flashes when any button on the remote control is pressed.

## MAINTENANCE

---

To ensure optimal performance and longevity of your Hotel Collection diffuser, regular cleaning is recommended every 1-2 months, or whenever you switch scents. Follow these steps to clean the inner workings of the device:

1. Insert Hotel Collection's specialized cleaning solution bottle into the diffuser.
2. Run the diffuser for 15 minutes to allow the cleaning solution to circulate and filter through the entire device.
3. After the cleaning cycle, unplug the device from the wall outlet and keep it in an upright position.
4. Wipe the exterior of the diffuser with a damp cloth to remove any oil stains or fingerprints.

**Important: Avoid using any harsh or abrasive cleaning products, as these may damage the diffuser's finish or internal components.**

## TROUBLESHOOTING

---

If you encounter issues with your Hotel Collection Studio Pro Diffuser, please refer to the common problems and solutions below:

### Common Issues and Solutions

- **Diffuser Not Producing Mist or Scent:**

- Ensure the diffuser is properly plugged into a working power outlet.
- Verify that the Pro Pod Bottle is correctly inserted and securely tightened.
- Check if the diffuser needs cleaning. Follow the maintenance steps to clear any blockages.
- Confirm that the fragrance oil level in the Pro Pod Bottle is sufficient.
- If the diffuser has been stored for a long time, run a cleaning cycle before use.

- **Fragrance Oil Leaking:**

- Ensure the Pro Pod Bottle is securely fastened and not cross-threaded.
- Verify that you are using an official Hotel Collection Pro Pod Bottle, as other bottles may not fit correctly and cause leaks.
- Check for any cracks or damage on the Pro Pod Bottle or the diffuser's connection point.

- **Weak or No Scent Diffusion:**

- Adjust the intensity setting on the remote control to a higher level (MED or HIGH).
- Ensure the diffuser is placed in an open area, not obstructed by furniture or walls, to allow for proper scent circulation.
- Clean the diffuser according to the maintenance instructions, as residue buildup can affect diffusion.
- Consider the size of the room; the diffuser covers up to 600 square feet. For larger spaces, multiple diffusers may be needed.

- **Diffuser Not Turning On:**

- Check the power connection and ensure the outlet is functional.
- Press the "ON" button on the remote control.
- If the issue persists, try unplugging the unit for a few minutes and then plugging it back in.

### Important Safety Information

- Avoid direct skin contact with undiluted essential oils.
- Keep out of reach of children and pets.
- Ensure proper ventilation during use.
- The diffuser is designed for indoor use only.
- Do not submerge the diffuser in water or any other liquid.

## PRODUCT SPECIFICATIONS

---

Feature	Detail
---------	--------

Feature	Detail
Brand	Hotel Collection
Model Name	HCFGSTDPRBLCK
Color	Black
Power Source	Battery Powered
Product Dimensions	6.21" L x 4.46" W x 16.51" H
Material Type	100% Recycled Aluminum
Coverage Area	Up to 600 sq ft
Runtime	4 hours
Shape	Cylindrical
Auto Shutoff	No (but has timer functions)
Item Weight	2.7 Pounds
UPC	810118948770
