Livatro LVMF6401

Livatro 14-in-1 Electric Milk Frother and Steamer

Model: LVMF6401

User Instruction Manual

1. Introduction

Thank you for choosing the Livatro 14-in-1 Electric Milk Frother and Steamer. This appliance is designed to effortlessly create a variety of milk-based beverages, from rich lattes and cappuccinos to warm milk and hot chocolate. Featuring dual detachable cups, IH fast heating technology, and smart memory functionality, it offers convenience and versatility for your daily coffee routine. Please read this manual thoroughly before use to ensure safe and optimal operation.

2. Safety Instructions

- Read all instructions before using the appliance.
- Do not immerse the power base in water or other liquids. Only the stainless steel cups and whisks are washable.
- Ensure the power supply matches the voltage specified on the appliance.
- Keep the appliance out of reach of children.
- Do not operate the appliance with a damaged cord or plug.
- Always place the appliance on a stable, flat, heat-resistant surface.
- Do not touch hot surfaces. Use handles or knobs. The stainless steel cups will become hot during operation.
- Unplug from the outlet when not in use and before cleaning.
- Do not use attachments not recommended by the manufacturer.
- This appliance is for household use only.

3. Product Overview and Components

The Livatro Milk Frother and Steamer consists of a power base and two detachable stainless steel milk jugs, along with various whisks for different frothing results.

Image: Livatro Milk Frother with its main components including the power base, two stainless steel jugs (21oz and 13.5oz), and various whisks.

Components:

- **Power Base:** Contains the heating element and control panel.
- **21oz Stainless Steel Milk Jug:** Larger capacity for multiple servings.
- **13.5oz Stainless Steel Milk Jug:** Smaller capacity for single servings or different milk types.
- **Frothing Whisks:** Different whisks are provided for various foam textures (dense, airy, mixing).
- **Transparent Lids:** To cover the jugs during operation.

4. Setup

1. Unpack all components and remove any packaging materials.
2. Wash the stainless steel milk jugs and whisks with warm soapy water, then rinse and dry thoroughly.
3. Ensure the power base is clean and dry before plugging it in.
4. Select the appropriate whisk for your desired beverage (e.g., frothing whisk for foam, mixing whisk for hot milk without foam).
5. Insert the selected whisk firmly onto the pin at the bottom of the milk jug.
6. Place the milk jug onto the power base, ensuring it is seated correctly.

5. Operating Instructions

The Livatro Milk Frother offers 14 versatile drink options and a smart memory function.

Image: The Livatro Milk Frother displaying a range of versatile drink options it can prepare, including hot and cold foam, lattes, cappuccinos, and hot chocolate.

General Operation:

1. Pour milk into the selected stainless steel jug. Observe the MAX/MIN fill lines inside the jug. Do not overfill,

especially for frothing, to prevent overflow.

2. Place the lid securely on the jug.
3. Press the power button to turn on the frother. The display will illuminate.
4. Use the mode selection buttons (left/right arrows) to cycle through the 14 available programs. The smart memory function will recall your last used setting.
5. Once your desired program is selected, the frother will automatically begin operation.
6. The IH fast heating technology ensures quick and even heating, preventing burnt milk.
7. The frother will automatically shut off once the program is complete.

Specific Drink Options:

- **Hot Foam (Dense/Airy):** Select the appropriate frothing whisk and program. Ideal for lattes and cappuccinos.
- **Cold Foam:** Use the frothing whisk and select the cold foam program. Perfect for iced coffees.
- **Hot Milk:** Use the mixing whisk (without the spring) and select the hot milk program.
- **Hot Chocolate:** Add milk and chocolate powder/syrup to the jug, use the mixing whisk, and select the hot chocolate program.

6. Usage Tips

- For best frothing results, use fresh, cold milk with a fat content of 3% or higher.
- Plant-based milks (almond, soy, oat, coconut, cashew) can be frothed, but froth quality depends on protein and fat content. For better results, choose milks with 3g+ protein per 240ml and consider using
