QFX J-220BT - Blue

QFX J-220BT Boombox Instruction Manual

Model: J-220BT - Blue

PRODUCT OVERVIEW

The QFX J-220BT is a versatile boombox designed for both vintage audio enthusiasts and modern music listeners. It features a 4-band radio (AM, FM, SW1, SW2), a cassette player and recorder, Bluetooth connectivity for wireless streaming, and USB/SD card playback. Equipped with dual 3-inch speakers, a built-in microphone, and a 3-band equalizer, it offers a comprehensive audio experience. Its portable design with a swivel handle allows for easy transport, powered by either AC or D-cell batteries.

SETUP

Powering the Unit

The J-220BT boombox can be powered in two ways:

- **AC Power:** Connect the included power cord to the AC input jack on the unit and then to a standard wall outlet.
- **Battery Power:** For portable use, insert 4 x "D" cell batteries (not included) into the battery compartment located on the back of the unit. Ensure correct polarity (+/-) when inserting batteries.

OPERATING INSTRUCTIONS

1. Radio Operation

1. Extend the telescopic antenna for optimal reception.
2. Set the **FUNCTION** switch to "RADIO".
3. Select the desired band (AM, FM, SW1, SW2) using the **BAND** switch.
4. Rotate the **TUNING** knob to find your desired station.
5. Adjust the volume using the **VOLUME** knob.

2. Cassette Player/Recorder Operation

1. Press the **STOP/EJECT** button to open the cassette compartment.
2. Insert a cassette tape with the open edge facing upwards. Close the compartment.
3. Set the **FUNCTION** switch to "TAPE".
4. Use the control buttons:
 - **PLAY:** To begin playback.
 - **REW (Rewind):** To rewind the tape.
 - **F.FWD (Fast Forward):** To fast forward the tape.
 - **STOP/EJECT:** To stop playback or eject the tape.
 - **PAUSE:** To temporarily stop playback.

Recording to Cassette

- **From Radio:** Tune to your desired radio station. Insert a blank cassette. Press the **REC (Record)** button. Press **PLAY** simultaneously to begin recording. Press **STOP** to end recording.
- **From Built-in Microphone:** Set the **FUNCTION** switch to "TAPE". Insert a blank cassette. Press the **REC (Record)** button. Press **PLAY** simultaneously. Speak into the built-in microphone. Press **STOP** to end recording.

3. Bluetooth Connectivity

1. Set the **FUNCTION** switch to "BT". The unit will enter pairing mode, indicated by a flashing Bluetooth indicator.
2. On your mobile device, enable Bluetooth and search for "QFX J-220BT".
3. Select "QFX J-220BT" to pair. Once connected, the Bluetooth indicator will stop flashing.
4. You can now stream audio wirelessly from your device to the boombox.

4. USB/SD Music Playback

1. Insert a USB flash drive or SD/TF card (with MP3 audio files) into the respective slot.
2. Set the **FUNCTION** switch to "MP3". The unit will automatically begin playing the first compatible audio file.
3. Use the playback control buttons (Play/Pause, Next, Previous) to navigate your music.

MP3 Conversion from Cassette/Radio to USB/SD

The J-220BT allows you to archive your old cassette tape collection or radio broadcasts to digital MP3 format on USB drives and TF cards.

1. Insert a USB flash drive or SD/TF card into the respective slot.
2. Select the source you wish to record from (Radio or Tape).
3. For Tape: Ensure the cassette is inserted and ready to play.
4. Press the **REC/MP3** button. The unit will begin recording the audio from the selected source to the USB/SD card.
5. Press the **STOP** button to end the recording.

5. 3-Band Equalizer

Use the **BASS**, **MIDDLE**, and **TREBLE** knobs on the top panel to adjust the tonal balance of the audio output to your preference.

Figure 3: Angled view of the QFX J-220BT Blue Boombox, showing the extended antenna for radio reception and the side tuning knob.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the unit. Do not use abrasive cleaners or solvents.
- **Cassette Deck Care:** Regularly clean the tape heads and pinch rollers using a cotton swab lightly dampened with isopropyl alcohol to ensure optimal sound quality and prevent tape damage.
- **Storage:** When not in use for extended periods, remove batteries and store the unit in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No power	AC cord not properly connected; Batteries drained or incorrectly inserted.	Check AC cord connection; Replace batteries or ensure correct polarity.
Poor radio reception	Antenna not extended; Weak signal.	Fully extend the telescopic antenna; Reposition the unit for better signal.
Cassette tape not playing/recording	Tape incorrectly inserted; Tape heads dirty; Tape damaged.	Reinsert tape correctly; Clean tape heads; Try a different tape.
Bluetooth not connecting	Unit not in pairing mode; Device too far; Previously paired device interfering.	Ensure unit is in BT mode; Move device closer; Disconnect from other Bluetooth devices.
USB/SD not playing	Unsupported file format; Corrupted files; Incorrect function mode.	Ensure files are MP3; Reformat USB/SD; Set function to MP3.
