VOPLLS A98

VOPLLS A98 Projector User Manual

Model: A98

1. Introduction

Thank you for purchasing the VOPLLS A98 Projector. This manual provides essential information for setting up, operating, and maintaining your projector to ensure optimal performance and longevity. Please read this manual thoroughly before use and retain it for future reference.
The VOPLLS A98 Projector is designed for a versatile viewing experience, featuring native 1080P resolution with 4K support, advanced autofocus and 6D keystone correction, ultra-fast WiFi 6, and Bluetooth 5.2 connectivity. Its fully sealed optical core enhances durability by protecting against dust.

2. Safety Information

Please observe the following safety precautions to prevent damage to the projector and ensure user safety:

- Do not look directly into the projector lens when the lamp is on. The intense light can cause eye damage.
- Ensure proper ventilation. Do not block ventilation openings.
- Do not expose the projector to rain, moisture, or extreme temperatures.
- Use only the power adapter supplied with the projector.
- Avoid placing the projector on unstable surfaces.
- Disconnect the power cord during lightning storms or when unused for extended periods.
- Do not attempt to open or repair the projector yourself. Refer all servicing to qualified personnel.

3. Package Contents

Verify that all items are present in your package:

- VOPLLS A98 Projector
- Remote Control
- Power Cord
- HDMI Cable

- AV Cable
- User Manual (This document)

4. Product Overview

Familiarize yourself with the projector's physical components and connection ports.

Front view of the VOPLLS A98 Projector, showcasing the lens and auto-focus sensor.

4.1. Front Panel

- **Projection Lens:** Emits the image onto the screen.
- **Auto Focus Sensor:** Detects projection distance for automatic focus adjustment.

4.2. Rear/Side Panels (Ports)

- **HDMI Ports (x2):** Connect to devices like laptops, gaming consoles, or TV sticks.
- **USB Ports (x2):** Connect USB drives for media playback or power external devices.
- **AV Port:** Connect to older devices using the included AV cable.
- **Audio Out Port:** Connect external speakers or headphones.
- **Power Input:** Connect the power cord.

5. Setup

5.1. Placement

Position the projector on a stable, flat surface. Ensure there is adequate space around the projector for ventilation. The

projection distance will determine the image size. For optimal viewing, project onto a flat, light-colored wall or a dedicated projector screen.

Illustration showing various projection distances and corresponding screen sizes, up to 300 inches.

5.2. Power Connection

1. Connect the power cord to the projector's power input port.
2. Plug the other end of the power cord into a power outlet.

5.3. Initial Power On

Press the power button on the projector or the remote control to turn on the device. The projector will initiate its startup sequence.

5.4. Auto Focus and Auto Keystone Correction

The VOPLLS A98 Projector features automatic focus and 6D keystone correction. Upon startup or movement, the projector's high-precision sensor will automatically adjust the image for clarity and a perfectly rectangular shape.

The projector automatically adjusts focus and keystone for a clear, rectangular image.

This feature allows for flexible placement, including side, tilt, or ceiling projection, without manual adjustments.

6. Operating Instructions

6.1. Connecting External Devices

The projector supports various input sources:

- **HDMI:** Connect your laptop, gaming console, Blu-ray player, or TV stick using an HDMI cable. Select the corresponding HDMI input source from the projector's menu.
- **USB:** Insert a USB flash drive into a USB port to play media files (photos, videos, music). Navigate the files using the projector's interface.
- **AV:** Use the provided AV cable to connect to older devices like DVD players. Select the AV input source.
- **Audio Out:** Connect external speakers or headphones to the audio out port for enhanced sound.

6.2. Wireless Connectivity

The projector offers advanced wireless options:

- **WiFi 6 (2.4GHz & 5GHz):** Connect to your home network for screen mirroring from smartphones, tablets, or laptops. This dual-band connection ensures stable and fast content transmission.
- **Bluetooth 5.2:** Pair with Bluetooth headphones, speakers, or AirPods for wireless audio output.

Illustration of the projector's WiFi 6 and Bluetooth 5.2 capabilities for seamless connectivity.

6.3. Media Playback and Streaming

The projector supports various media formats. For streaming services like Netflix, Prime Video, or Hulu, it is recommended to use an external TV stick (e.g., Amazon Fire TV Stick, Roku) connected via HDMI due to copyright restrictions on direct app playback.

6.4. Office and PPT Presentation

The VOPLLS A98 Projector supports direct playback of Office files and PowerPoint presentations from a USB drive, enhancing its utility for business or educational purposes.

7. Maintenance

7.1. Dust-Proof Design

The A98 projector features an innovative fully sealed optical core, which effectively shields against dust. This design minimizes screen blemishes and helps preserve image quality and the lifespan of the optical components.

Visual representation of the projector's advanced dustproof design, highlighting the sealed optical system.

7.2. Cleaning

- **Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners.
- **Exterior:** Wipe the projector's exterior with a soft, dry cloth. Avoid using harsh chemicals.
- **Vents:** Periodically clean the ventilation openings with a soft brush or compressed air to prevent dust buildup and ensure proper cooling.

7.3. Storage

When not in use, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. If possible, use the original packaging or a protective case to prevent dust accumulation and physical damage.

8. Troubleshooting

If you encounter issues with your VOPLLS A98 Projector, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power	Power cord disconnected; Power outlet issue; Projector off.	Ensure power cord is securely connected. Test power outlet. Press power button on projector or remote.
No Image	Incorrect input source; Device not connected; Lens cap on.	Select correct input source (HDMI, AV, USB). Check cable connections. Remove lens cap.
Blurred Image	Out of focus; Projector moved.	The projector features auto-focus. If still blurry, try moving the projector slightly to trigger re-focusing. Ensure lens is clean.
No Sound	Volume too low; Muted; External audio device not connected/selected.	Increase volume. Unmute projector. Check external speaker/headphone connection and ensure it's selected as output.
WiFi/Bluetooth Connection Issues	Incorrect password; Device out of range; Interference.	Verify password. Move projector closer to router/Bluetooth device. Reduce interference from other wireless devices.

9. Specifications
