

EURANS f478104b

EURANS Smart Watch Classic Style for Men - Instruction Manual

Model: f478104b

1. INTRODUCTION

Thank you for choosing the EURANS Smart Watch Classic Style for Men, Model f478104b. This device combines classic watch aesthetics with modern smart features, designed to enhance your daily life. This manual provides detailed instructions on how to set up, operate, and maintain your smartwatch to ensure optimal performance and longevity.

2. WHAT'S IN THE BOX

Please check the package contents upon unboxing:

- 1 x EURANS Smart Watch (Model f478104b)
- 1 x Charging Cable
- 1 x User Manual (this document)

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your EURANS Smart Watch.

Figure 3.1: Front view of the EURANS Smart Watch, showcasing its classic design and display.

3.1 Watch Components

- **1.85" AMOLED Display:** High-resolution touchscreen for clear visuals and interaction.
- **Side Button/Crown:** Used for power on/off, returning to the home screen, and navigating menus.
- **Heart Rate/Blood Oxygen Sensor:** Located on the back of the watch, used for health monitoring.
- **Charging Contacts:** Magnetic points on the back for connecting the charging cable.
- **Microphone & Speaker:** For Bluetooth calling functionality.

No App & Phone Required

Easy to Use Smart Watch

4. SETUP GUIDE

4.1 Charging the Smart Watch

Before first use, fully charge your smartwatch. A full charge provides up to 14 days of battery life.

1. Connect the USB end of the charging cable to a power adapter (5V/1A recommended) or a computer's USB port.
2. Align the magnetic end of the charging cable with the charging contacts on the back of the watch. The cable will snap into place.
3. The watch display will show a charging indicator. Allow approximately 2 hours for a full charge.

Could Be Read Under Sunshine

4.2 Powering On/Off

- **Power On:** Press and hold the side button for a few seconds until the EURANS logo appears.
- **Power Off:** From the watch face, swipe down to access quick settings, or navigate to "Settings" > "System" > "Power Off". Alternatively, press and hold the side button and select "Power Off" when prompted.

4.3 Initial Setup and App Connection (Optional)

Your EURANS Smart Watch can function independently for basic health tracking (heart rate, steps, sleep) without a smartphone app. However, to unlock advanced features like Bluetooth calling, detailed data records, weather updates, and message notifications, connecting to the companion app is required.

1. **Download the App:** Scan the QR code provided in the watch's manual (if physical) or search for the recommended app name (e.g., "Wear OS" or specific EURANS app if mentioned) on your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the app and follow the on-screen instructions to create an account or log in.
4. **Pair the Watch:** In the app, select "Add Device" or "Pair Device". The app will search for nearby devices. Select "EURANS Smart Watch" or the corresponding device name from the list.
5. **Confirm Pairing:** A pairing request will appear on both your phone and watch. Confirm the pairing on both devices.
6. **Grant Permissions:** Grant necessary permissions (e.g., notifications, location, contacts) to the app for full functionality.

5. OPERATING YOUR SMART WATCH

5.1 Basic Navigation

- **Touchscreen:** Swipe left/right, up/down to navigate through menus and features. Tap to select.
- **Side Button:** Press once to return to the watch face from any screen. Press and hold for power options or to access voice assistant (if configured).

5.2 Health Monitoring

Your smartwatch tracks various health metrics:

- **Heart Rate:** Access the Heart Rate function from the app list. The watch will automatically measure your heart rate. For continuous monitoring, ensure the feature is enabled in settings or the app.
- **Blood Oxygen (SpO2):** Select the Blood Oxygen function. Keep your arm still during measurement.
- **Sleep Monitoring:** Wear the watch to bed. It automatically tracks your sleep patterns (deep sleep, light sleep, awake time). View detailed reports in the app.
- **Step Counter (Pedometer):** The watch continuously tracks your steps, distance, and calories burned. View daily summaries on the watch or in the app.

**Can Be Used
without APP/Phone**

**No APP
or Mobile Phone
Needed**

5.3 Bluetooth Calling

After connecting to the app and enabling Bluetooth calling, you can answer or make calls directly from your watch.

- **Answering Calls:** When a call comes in, tap the green answer icon on the watch screen.
- **Making Calls:** Access the "Dialer" or "Contacts" app on your watch to dial a number or select a contact.

5.4 Smart Notifications

Receive notifications for calls, messages, and app alerts directly on your watch when connected to your smartphone.

- Ensure notification permissions are granted in your phone's settings and the companion app.
- Swipe up from the watch face to view recent notifications.

Figure 5.2: The smartwatch screen showing incoming notifications from various social media and messaging applications, alongside a smartphone displaying similar alerts.

5.5 Other Features

- **Music Control:** Control music playback on your phone (play, pause, skip tracks) from your watch.
- **Weather:** View current weather conditions and forecasts (requires app connection and location permissions).
- **Alarm Clock:** Set alarms directly on the watch or through the app.
- **Stopwatch/Timer:** Access these utilities from the app list.
- **Sedentary Reminder:** Get alerts to move if you've been inactive for too long (can be configured in the app).

5.6 Water Resistance

The EURANS Smart Watch is rated 10 meters waterproof (IPX8). This means it can be worn for swimming and daily water exposure like hand washing or rain. However, it is not suitable for diving, high-pressure water activities, or hot water environments (e.g., hot showers, saunas) as steam can damage the seals.

- Do not operate buttons underwater.
- Wipe the watch dry after exposure to water.

Figure 5.4: A user wearing the smartwatch during water sports, demonstrating its 10-meter water resistance capability.

6. MAINTENANCE AND CARE

6.1 Cleaning Your Smart Watch

- Regularly clean the watch case and strap with a soft, damp cloth.
- For the sensors on the back, gently wipe with a dry, soft cloth to ensure accurate readings.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the watch's finish and seals.

6.2 Battery Care

- Avoid fully discharging the battery frequently.
- Do not expose the watch to extreme temperatures (very hot or very cold) as this can degrade battery life.
- If storing the watch for an extended period, charge it to about 50% and power it off.

6.3 General Care

- Avoid strong impacts or dropping the watch.
- Keep the watch away from strong magnetic fields.

7. TROUBLESHOOTING

If you encounter issues with your smartwatch, refer to the following common solutions:

Problem	Solution
Watch does not power on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes. If still unresponsive, try a force restart by pressing and holding the side button for 10-15 seconds.
Cannot pair with smartphone.	• Ensure Bluetooth is enabled on your phone and the watch. • Make sure the watch is discoverable (check watch settings). • Restart both your phone and the watch. • Clear Bluetooth cache on your phone (Android). • Try pairing through the app, not directly from phone's Bluetooth settings.
Inaccurate health data (HR, SpO2).	• Ensure the watch is worn snugly on your wrist, one finger-width above the wrist bone. • Keep your arm still during measurements. • Clean the sensor area on the back of the watch. • Avoid wearing the watch too loosely or too tightly.
Notifications not received.	• Check if the watch is connected to your phone via Bluetooth. • Ensure notification permissions are granted for the app in your phone's settings. • Verify that app notifications are enabled within the companion app. • Disable "Do Not Disturb" mode on both your phone and watch.
Charging cable does not stay connected.	Ensure the charging contacts on both the cable and the watch are clean and free of debris. The magnetic connection should be firm. If the issue persists, the cable may be faulty.

8. SPECIFICATIONS

Feature	Detail
Model Name	EURANS Smart Watch Classic Style for Men
Model Number	f478104b
Display	1.85-inch AMOLED Touchscreen
Resolution	360x203 or 360x192

9. WARRANTY AND SUPPORT

9.1 Limited Warranty

The EURANS Smart Watch (Model f478104b) comes with a limited warranty. Please refer to the warranty card included in your product packaging for specific terms, conditions, and duration. This warranty typically covers manufacturing defects but does not cover damage caused by misuse, accidents, unauthorized modifications, or normal wear and tear.

9.2 Customer Support

If you have any questions, require technical assistance, or encounter issues not covered in the troubleshooting section, please contact EURANS customer support. Refer to the contact information provided on the product packaging or the official EURANS website for the most up-to-date support channels.
