## Pabulum SU3

# Pabulum 4000A Car Jump Starter with Air Compressor User Manual

Model: SU3

## INTRODUCTION

---

Thank you for choosing the Pabulum 4000A Car Jump Starter with Air Compressor. This versatile device is designed to provide reliable jump-starting for 12V vehicles, efficient tire inflation up to 150 PSI, and portable power for electronic devices. Please read this manual thoroughly before use to ensure safe and optimal operation.

## IMPORTANT SAFETY INFORMATION

---

Always observe the following safety precautions to prevent injury or damage to the device and vehicle:

- Read all instructions before using the product.
- Do not operate the unit if it is damaged.
- Keep out of reach of children.
- Ensure proper polarity connection when jump-starting (Red to positive, Black to negative).
- Do not touch metal parts of the air pump immediately after inflation; allow to cool.
- Avoid short-circuiting the jumper clamps.
- Do not expose the unit to rain or extreme temperatures outside its operating range (-4°F to 158°F).
- Use only the provided smart jumper cables.

# 10 SAFETY ADVANCED PROTECTION

Image: The device features 10 advanced safety protections including over-charge, over-load, over-current, high-temp, low-temp, over-voltage, short-circuit, spark-proof, reverse-polarity, and reverse-charge.

## PACKAGE CONTENTS

Verify that all items are present in your package:

- Pabulum 4000A Car Jump Starter x1
- Smart Jumper Cables x1

- Carry Case x1
- Pump Tube x1
- Air Nozzles x4 (various types)
- User Manual x1

Image: All components included in the package, neatly arranged.

## PRODUCT OVERVIEW

The Pabulum SU3 is a multi-functional device combining a powerful jump starter, an air compressor, and a portable power bank. It features a digital display for pressure monitoring and battery status, along with an integrated LED flashlight.

## SETUP AND INITIAL CHARGING

Before first use, fully charge the jump starter. Connect the provided USB-C cable to the device and a suitable USB power adapter (not included). The display will indicate charging status. A full charge is recommended for optimal performance.

**Charging Time:** Varies depending on the power adapter. Typically, it takes several hours for a full charge.

### 1. Jump Starting a Vehicle

1. **Ensure sufficient charge:** The jump starter should be at least 50% charged.
2. **Connect Jumper Cables:** Insert the smart jumper cable plug into the jump starter's port.
3. **Attach Clamps to Battery:** Connect the RED (+) clamp to the vehicle's positive battery terminal. Connect the BLACK (-) clamp to the vehicle's negative battery terminal.
4. **Check Indicator:** The smart cable's LED indicator should turn GREEN, signifying a correct connection. If it's red or flashing, check connections and battery voltage.
5. **Start Vehicle:** Once the LED is green, start your vehicle's engine.
6. **Remove Clamps:** After the vehicle starts, immediately remove the jumper clamps from the car battery, then disconnect the smart cable from the jump starter.

## 2. Using the Air Compressor (Tire Inflator)

1. **Attach Pump Tube:** Screw the pump tube securely into the air outlet port on the jump starter.
2. **Select Nozzle:** Choose the appropriate air nozzle for your item (car tire, bicycle, ball, etc.) and attach it to the pump tube.
3. **Set Desired Pressure:** Turn on the device. Use the '+' and '-' buttons to set the target pressure (PSI, KPA, or BAR). The 'M' button cycles through units.

4. **Start Inflation:** Press the power button to begin inflation. The compressor will automatically stop when the preset pressure is reached.
5. **Disconnect:** Unscrew the pump tube and remove the nozzle. Be cautious as metal parts may be hot after use.

	 <b>Cars</b> <b>33-39 PSI</b>
	 <b>Motorcycles</b> <b>26-43 PSI</b>
	 <b>Bicycles</b> <b>30-130 PSI</b>
	 <b>Balls</b> <b>7-14 PSI</b>
	 <b>Swimming rings</b> <b>1-3 PSI</b>

### 3. Using as a Portable Power Bank

The device can charge phones, tablets, and other USB-powered electronic devices. Simply connect your device's charging cable to the USB output port on the jump starter.

# BUILT-IN 10 COMPREHENSIVE PROTECTION

It has a built in safety feature that lights up green to let you know it's hooked up correctly and it's time to start your engine

## MAINTENANCE

- **Recharge Regularly:** To prolong battery life, recharge the unit every 3-6 months, even if not used.
- **Storage:** Store the device in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cleaning:** Wipe the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Check Cables:** Periodically inspect jumper cables and air hose for any signs of wear or damage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Vehicle does not start after jump-starting.	Low charge on jump starter; incorrect connection; severely damaged car battery.	Ensure jump starter is fully charged. Recheck cable connections. If car battery is severely damaged, it may need replacement.
Smart cable LED is red or flashing.	Incorrect polarity; short circuit; low voltage.	Verify positive (+) and negative (-) connections. Ensure clamps are not touching each other. Recharge jump starter.
Air compressor not inflating.	Hose not securely attached; incorrect pressure setting; unit overheated.	Ensure pump tube is tightly screwed. Check pressure setting. Allow unit to cool down if used continuously.
Device not charging.	Faulty USB cable or adapter; charging port issue.	Try a different USB cable and power adapter. Contact customer support if issue persists.

## SPECIFICATIONS

---

- **Model:** SU3
- **Peak Output Current:** 4000 Amps
- **Air Compressor Pressure:** Up to 150 PSI
- **Engine Compatibility:** Up to 9.0L Gas / 7.5L Diesel (12V vehicles)
- **Battery Type:** Lithium Ion
- **Product Dimensions:** 1.81"D x 4.17"W x 7.24"H
- **Item Weight:** 1.45 Pounds
- **Operating Temperature:** -4°F to 158°F

## WARRANTY AND SUPPORT

---

Pabulum provides 1-Year Technical Support for this product. For any questions, concerns, or technical assistance, please contact our customer support team. We are committed to providing quality solutions and lifetime customer support.

- **Technical Support:** 1 Year
- **Quality Problem Solutions:** 24 Months
- **Customer Support:** 24 Hours, 7x24
- **Return Guarantee:** 30-day Unconditional Return

The image displays four stacked grey rectangular boxes, each representing a different service offering. Each box contains an icon on the left, a large bold title, and a subtitle below it. The offerings are: 24 Hours (7x24 Customer Support) with an envelope icon; 30 Days (30-day Unconditional Return Guarantee) with a calendar icon; 24 Months (Quality Problem Solutions) with a shield and checkmark icon; and LIFETIME (Lifetime customer & Technical support) with a headset icon.
