5.1 Stability Concerns

If the cat tree feels unstable:

- Ensure all screws are fully tightened.
- Verify that the base is placed on a flat, level surface.
- Consider placing the cat tree against a wall for added support.
- For very active or multiple large cats, additional anchoring to a wall (hardware not included) may be considered for maximum safety.

5.2 Cats Not Using the Tree

If your cats are hesitant to use the tree:

- Place familiar blankets or toys on the platforms.
- Use catnip to attract them to the scratching posts and resting areas.
- Encourage them with treats to explore different levels.

5.3 Slippery Surfaces

The wooden surfaces are smooth for easy cleaning. If cats experience difficulty with traction:
