MGHH 70-Inch Multi-Level Cat Tower

Instruction Manual

Model: ms-70-hcb-6

INTRODUCTION

Thank you for choosing the MGHH 70-Inch Multi-Level Cat Tower. This comprehensive cat tree is designed to provide your feline friends with a sturdy, stable, and engaging environment for play, rest, and scratching. Crafted from high-quality natural particle board, skin-friendly plush fabric, and natural sisal scratching posts, it offers multiple levels, spacious cat houses, and perching platforms to satisfy your cat's natural instincts. Please read this manual carefully before assembly and use to ensure the safety and longevity of your cat tower.

PRODUCT FEATURES

- **Sturdy & Durable Construction:** Made with high-quality natural particle board, reinforced base, and soft plush cover for a stable and comfortable entertainment center.
- **Multi-Level Design:** Features multiple tiers, two spacious cat houses, and three top perching platforms, ideal for multiple cats to play and relax simultaneously.
- **Natural Sisal Scratching Posts:** Equipped with durable sisal rope coiled posts to encourage healthy scratching habits and protect your furniture.
- **Interactive Hanging Toys:** Includes hanging toys to stimulate play and satisfy your cat's hunting instincts.
- **Easy Assembly:** Designed for hassle-free assembly with included step-by-step instructions, hardware, and tools.

SETUP AND ASSEMBLY

The MGHH Cat Tower is designed for straightforward assembly. All necessary hardware and tools are included in the package. Please follow the step-by-step instructions provided in the assembly guide that accompanies your product.

1. Unpack all components and verify against the parts list in the assembly guide.
2. Identify the base plate and begin attaching the lowest posts and platforms as per the instructions.
3. Securely fasten all screws and connections. Do not overtighten.
4. Continue building upwards, attaching cat condos, additional platforms, and scratching posts.
5. Attach any hanging toys or accessories as indicated.

6. Ensure the entire structure is stable and all connections are tight before allowing cats to use it.

Tip: It may be helpful to have a second person assist during assembly, especially for larger components.

OPERATING INSTRUCTIONS

Once assembled, your MGHH Cat Tower is ready for use. This multi-functional structure provides various areas for your cat's daily activities:

- **Scratching:** Encourage your cat to use the sisal-wrapped posts for scratching. This helps maintain claw health and protects your furniture.
- **Climbing & Exploring:** The multi-level design allows cats to climb, jump, and explore different heights, satisfying their natural curiosity and providing exercise.
- **Resting & Hiding:** The enclosed cat condos offer secure and cozy spaces for napping and hiding, providing a sense of security.
- **Perching:** The elevated platforms provide excellent vantage points for your cat to observe their surroundings, which is a natural cat behavior.
- **Playing:** Utilize the hanging toys to engage your cat in interactive play, stimulating their prey drive and providing entertainment.

MAINTENANCE

Regular maintenance will extend the life of your MGHH Cat Tower and keep it hygienic for your pets.

- **Cleaning:** The plush fabric can be spot cleaned with a damp cloth and mild detergent. Avoid excessive wetting. For deeper cleaning, the manufacturer recommends hand washing. Allow to air dry completely before use.
- **Sisal Post Maintenance:** The sisal scratching posts are designed to withstand regular use. If the sisal rope becomes worn, it can often be re-wrapped or replaced with new sisal rope to prolong the life of the post.
- **Structural Check:** Periodically check all screws and connections to ensure they remain tight and secure. Tighten any loose parts to maintain stability.
- **Hair Removal:** Regularly vacuum or brush the plush surfaces to remove loose cat hair and dander.

**P2 GRADE
PARTICLE BOARD**

**High-Density
Construction
Insures The Durability**

**Soft Faux
Fur Cover
Extra-thick
& No Lint**

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat Tower feels wobbly or unstable.	Loose screws or uneven placement.	Check all assembly screws and tighten them. Ensure the tower is placed on a flat, stable surface.
Cats not using scratching posts.	Preference for other surfaces or unfamiliarity.	Sprinkle catnip on the sisal posts. Gently guide your cat's paws to the posts to demonstrate.
Plush fabric appears matted or dirty.	Accumulation of cat hair and dust.	Regularly vacuum or brush the fabric. Spot clean with a damp cloth and mild detergent as needed.
Hanging toys are damaged or detached.	Normal wear and tear from play.	Reattach or replace damaged toys. Ensure they are securely fastened.
