3. PRODUCT OVERVIEW

The HelloBaby HB6081 system consists of a camera unit and a parent monitor unit. The camera captures 1080P video, displayed on the 5.5-inch 720P HD IPS screen of the monitor. The system operates on a secure 2.4 GHz FHSS closed-circuit system, ensuring privacy without requiring WiFi or an app.

Key Features:

- **5.5-inch 720P HD IPS Display:** Provides clear video with reduced latency.
- **1080P Camera:** High-definition video capture.
- **No WiFi, Hack-Proof Connection:** Secure 2.4 GHz FHSS technology.
- **Remote Pan, Tilt, Zoom (PTZ):** Control camera view from the monitor (330° pan, 120° tilt).
- **Infrared Night Vision:** Automatic activation for clear viewing in low light.
- **Two-Way Audio:** Communicate with your baby.
- **VOX (Voice Operated Exchange) Mode:** Screen activates upon detecting sound.
- **Lullabies:** Built-in melodies to soothe your baby.
- **Temperature Sensor:** Monitors room temperature.
- **Feeding Timer:** Reminders for feeding schedules.
- **Night Light:** Integrated warm night light on the camera.
- **Long Range:** Up to 1000ft outdoor range.
- **Expandable:** Supports up to 4 cameras (additional cameras sold separately).

4. SETUP INSTRUCTIONS

- Charge the Monitor:** Before first use, fully charge the parent unit (monitor) using one of the provided AC chargers. The monitor has a 4000mAh battery for portable use.
- Power the Camera:** Connect the camera unit to a power outlet using the other AC charger. The camera is designed for continuous power and does not contain a battery.
- Placement:**
 - Place the camera in a location that provides a clear view of your baby, ensuring it is out of reach of children.
 - Mounting options include tabletop, wall mount, or ceiling mount using the included screw.
 - Ensure the camera is at least 3 feet (1 meter) away from your baby to avoid potential cord hazards.
- Power On:** Turn on both the camera and the monitor. They should automatically pair. If pairing does not occur, refer to the "Pairing Camera and Monitor" section in Operating Instructions.

5. OPERATING INSTRUCTIONS

5.1 Monitor Controls

The monitor features a directional pad and dedicated buttons for various functions. Refer to the on-screen icons for guidance.

- **Power Button:** Press and hold to turn on/off. Short press to turn screen on/off.
- **Volume Buttons:** Adjust the audio level.
- **Brightness Buttons:** Adjust screen brightness.
- **Menu Button:** Access settings for VOX, lullabies, feeding timer, temperature alerts, and camera management.
- **Talk Button:** Press and hold to speak through the camera to your baby.
- **Zoom Button:** Magnify the image on the screen.

5.2 Remote Pan, Tilt, and Zoom (PTZ)

Use the directional pad on the monitor to remotely adjust the camera's viewing angle.

- **Pan:** Move the camera horizontally up to 330 degrees.
- **Tilt:** Move the camera vertically up to 120 degrees.
- **Zoom:** Press the dedicated zoom button to magnify the image.

Image: Demonstrates the remote pan and tilt functionality of the camera, allowing comprehensive room coverage.

5.3 Night Vision

The camera automatically activates infrared night vision in low-light conditions, providing a clear black-and-white image of your baby.

Clear Imaging Even At Night

know exactly what's going on day and night

Image: Shows the clear night vision capability of the monitor, allowing parents to see their baby in the dark.

5.4 Two-Way Audio

Press and hold the "Talk" button on the monitor to speak to your baby through the camera's speaker. Release the button to hear your baby's sounds.

5.5 VOX Mode (Voice Operated Exchange)

In VOX mode, the monitor screen will automatically turn on when sound is detected from the baby's room. You can adjust the sensitivity level in the menu settings.

5.6 Lullabies

Access the menu to select and play built-in lullabies to help soothe your baby. You can control playback and volume from the monitor.

5.7 Feeding Timer

Set reminders for feeding times through the monitor's menu. This feature helps parents maintain a consistent feeding

schedule.

5.8 Temperature Alerts

The camera includes a temperature sensor. You can set high and low temperature alerts in the monitor's menu to ensure your baby's room is comfortable.

5.9 Night Light

The camera unit features a warm night light. This can be controlled via the monitor's menu or a dedicated button, if available, to provide a gentle glow in the nursery.

5.10 Pairing Camera and Monitor (for additional cameras or re-pairing)

If you need to pair an additional camera or re-pair an existing one:

- 1. Access the "Camera Management" or "Add Camera" option in the monitor's menu.
- 2. Follow the on-screen prompts to initiate pairing.
- 3. Press the pairing button on the back or bottom of the camera unit within the specified time frame.
- 4. The monitor will confirm successful pairing.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the monitor and camera units. Do not use abrasive cleaners or solvents.
- **Battery Care:** For optimal battery life, avoid fully discharging the monitor's battery frequently. Charge it regularly.
- **Storage:** If storing the unit for an extended period, ensure the monitor battery is partially charged (around 50%) and store in a cool, dry place.
- **Environmental Conditions:** Avoid exposing the units to extreme temperatures, direct sunlight, or moisture.

7. TROUBLESHOOTING

Problem	Possible Solution
No image/sound on monitor	• Ensure both camera and monitor are powered on and charged. • Check if the camera is properly plugged into a power source. • Verify that the camera and monitor are within range. • Try re-pairing the camera and monitor (refer to section 5.10).
Poor image quality	• Ensure the camera lens is clean. • Check for obstructions between the camera and monitor. • Move the camera closer to the monitor if range is an issue. • Adjust monitor brightness settings.
Monitor battery drains quickly	• Reduce screen brightness. • Enable VOX mode to turn off the screen when quiet. • Ensure the battery is fully charged before use. • Battery life naturally degrades over time.

Problem	Possible Solution
Interference/Static	• Move the monitor or camera away from other electronic devices (e.g., microwaves, WiFi routers, cordless phones). • Ensure the units are within optimal range.
Two-way talk not working	• Ensure the "Talk" button is pressed and held correctly. • Check monitor volume settings.
