

KAFF CTC694BAI

KAFF Gas Cooktop/Hob CTC 69 4B AI User Manual

Model: CTC694BAI

1. INTRODUCTION

Thank you for choosing the KAFF Gas Cooktop/Hob CTC 69 4B AI. This manual provides essential information for the safe and efficient use, installation, and maintenance of your new appliance. Please read these instructions carefully before operating the cooktop and retain them for future reference.

This 69 cm gas cooktop features four high-efficiency brass burners (1 Jumbo, 2 Big, 1 Small), auto electric ignition, an 8mm matte black toughened glass surface, and matt enamelled pan supports, designed for modern kitchen environments.

2. SAFETY INFORMATION

WARNING: Improper installation, adjustment, alteration, service, or maintenance can cause property damage, injury, or death. Read the installation, operating, and maintenance instructions thoroughly before installing or servicing this equipment.

General Safety Precautions:

- Ensure adequate ventilation in the kitchen area when the cooktop is in use.
- Do not store or use flammable materials near the cooktop.
- Keep children and pets away from the appliance during operation.
- Never leave cooking unattended.
- If you smell gas, immediately turn off the gas supply, open windows, and do not operate any electrical switches or appliances. Contact your gas supplier or a qualified technician.
- Use only cookware appropriate for the burner size.
- The cooktop surface and surrounding areas become hot during use. Avoid touching hot surfaces.

3. PRODUCT OVERVIEW

The KAFF CTC 69 4B AI Gas Cooktop is designed for efficient and convenient cooking. It features a sleek design with durable components.

Key Components:

- **Burners:** Four brass burners, including one Jumbo, two Big, and one Small burner for varied cooking needs.
- **Pan Supports:** Matt enamelled pan supports provide stability for various cookware sizes.
- **Control Knobs:** Easy-grip metal knobs for precise flame adjustment.
- **Glass Surface:** 8mm thick matte black toughened glass for durability and easy cleaning.
- **Ignition:** Auto electric ignition for instant flame.
- **Drip Tray:** Stainless steel drip tray for easy cleaning.

4. INSTALLATION INSTRUCTIONS

IMPORTANT: Installation of this gas cooktop must be performed by a qualified and certified technician in accordance with all local codes and regulations. Incorrect installation can lead to gas leaks, fire, or electric shock.

Pre-Installation Checks:

- Verify that the gas supply type (Natural Gas) matches the cooktop's requirements.
- Ensure the installation area has adequate ventilation.
- Check the dimensions for the countertop cutout: 73.7D x 61W x 17.8H Centimeters.
- Ensure proper electrical grounding for the auto-ignition system.

Installation Steps (for qualified technicians only):

1. Prepare the countertop cutout according to the specified dimensions.
2. Connect the gas supply line to the cooktop's inlet, ensuring all connections are leak-free using appropriate sealants and testing methods.
3. Connect the electrical supply for the auto-ignition system.
4. Place the cooktop into the cutout, ensuring it is level and securely seated.
5. Install the burners and pan supports correctly.
6. Perform a functional test of all burners and the ignition system.

5. OPERATING INSTRUCTIONS

Follow these steps for safe and effective operation of your KAFF Gas Cooktop.

Lighting a Burner with Auto Ignition:

1. Place your cookware centrally on the pan support over the desired burner.
2. Push down the corresponding control knob and turn it counter-clockwise to the 'High' flame position. You will hear a clicking sound as the auto-ignition sparks.
3. Once the flame ignites, hold the knob down for a few seconds to allow the thermocouple to heat up and register the flame.
4. Release the knob. If the flame extinguishes, repeat steps 2 and 3.

Adjusting the Flame:

- After ignition, you can adjust the flame intensity by rotating the control knob between the 'High' and 'Low' flame settings.
- For simmering, turn the knob towards the 'Low' setting. For rapid boiling or high-heat cooking, use the 'High' setting.
- To turn off the burner, rotate the knob clockwise to the 'OFF' position.

Instant High Flame with **Auto Ignition**

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your cooktop.

General Cleaning Tips:

- Always ensure the cooktop is cool before cleaning.
- Disconnect the appliance from the power supply before cleaning.
- Do not use abrasive cleaners, scouring pads, or harsh chemicals as they can damage the glass surface and other components.

Cleaning the Glass Surface:

- Wipe the matte black toughened glass surface with a soft cloth dampened with warm soapy water.

- For stubborn stains, use a non-abrasive glass cleaner specifically designed for cooktops.
- Dry thoroughly with a clean, soft cloth to prevent water spots.

Cleaning Burners and Pan Supports:

- Remove the brass burners and matt enamelled pan supports.
- Wash them in warm soapy water. For baked-on food, soak them before scrubbing with a non-abrasive brush.
- Ensure burners are completely dry before placing them back on the cooktop to prevent ignition issues.
- The stainless steel drip tray can be removed and cleaned similarly.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your cooktop. For problems not listed here, contact customer support.

Problem	Possible Cause	Solution
Burner does not ignite.	No gas supply, power outage, wet burner cap, clogged burner port.	Check gas supply, ensure power is on, dry burner components, clean burner ports.
Irregular or yellow flame.	Burner components not seated correctly, clogged burner ports, incorrect gas pressure.	Re-seat burner caps and rings, clean burner ports, contact a technician to check gas pressure.
Gas smell.	Gas leak.	Immediately turn off gas supply, open windows, do not operate electrical switches. Contact emergency services or a qualified technician.
