KAFF CTC634BAI

KAFF CTC 63 4B Gas Stove/Cooktop User Manual

Model: CTC634BAI

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using your KAFF CTC 63 4B Gas Stove/Cooktop. Retain this manual for future reference.

- **Gas Safety:** Ensure proper ventilation when operating the gas stove. Do not store flammable materials near the appliance. In case of a gas leak, immediately turn off the gas supply, open windows, and do not operate any electrical switches or appliances.
- **Electrical Safety:** This appliance features auto electric ignition. Ensure the power supply is properly grounded and matches the voltage requirements. Do not use extension cords.
- **Burn Hazard:** Cooktop surfaces and burners become extremely hot during and after use. Use oven mitts or pot holders. Keep children and pets away from the appliance.
- **Installation:** Installation must be performed by a qualified technician in accordance with local regulations and this manual. Improper installation can lead to gas leaks or electrical hazards.
- **Cleaning:** Always ensure the appliance is cool and disconnected from the power supply before cleaning.

2. PRODUCT OVERVIEW

The KAFF CTC 63 4B Gas Stove/Cooktop is designed for efficient and convenient cooking. It features a sleek black tempered glass surface and high-efficiency brass burners.

Image: KAFF CTC 63 4B Gas Stove/Cooktop with 4 burners and black tempered glass surface.

Key Features:

- 4 High Efficiency Brass Burners (1 Jumbo, 2 Big, 1 Small)
- Auto Electric Ignition
- 8mm Thick Black Tempered Glass
- Enamelled Pan Supports
- Stainless Steel Drip Tray
- Metal Knobs for precise control

Included Components:

- 1x Cooktop
- 1x Warranty Card
- 1x User Manual

3. INSTALLATION

This appliance is designed for counter-top installation. It operates on Natural Gas. Professional installation is highly recommended to ensure safety and proper functioning.

Installation Guidelines:

1. **Unpacking:** Carefully remove the cooktop from its packaging. Inspect for any damage.
2. **Countertop Preparation:** Ensure the countertop opening dimensions match the cooktop's requirements. The cooktop dimensions are approximately 73.7D x 61W x 17.8H Centimeters.
3. **Gas Connection:** Connect the cooktop to a natural gas supply line using appropriate fittings and a flexible hose, ensuring all connections are leak-free. Use a soap solution to check for leaks.
4. **Electrical Connection:** Plug the cooktop into a grounded electrical outlet for the auto electric ignition.
5. **Ventilation:** Ensure adequate ventilation in the kitchen area as per local building codes.
6. **Leveling:** Place the cooktop securely and ensure it is level to prevent spills and ensure even cooking.

Note: For detailed diagrams and specific measurements, consult a qualified installer or refer to the technical specifications provided with the product packaging.

4. OPERATION

Operating your KAFF CTC 63 4B Gas Stove/Cooktop is straightforward with its metal knob controls and auto electric ignition.

Lighting a Burner:

1. Ensure the gas supply is open.
2. Place your cooking utensil on the enamelled pan support over the desired burner.
3. Push down and turn the corresponding metal knob counter-clockwise to the 'Ignite' position. You will hear a clicking sound as the auto electric ignition sparks.
4. Once the flame ignites, continue to hold the knob down for a few seconds to allow the thermocouple to heat up and activate the flame failure device (if present).
5. Release the knob and adjust the flame to your desired intensity by turning the knob between the 'High' and 'Low' settings.

Turning Off a Burner:

Turn the burner knob clockwise until it clicks into the 'Off' position. Ensure the flame is completely extinguished.

Burner Usage:

- **Jumbo Burner:** Ideal for large pots and high-heat cooking.
- **Big Burners:** Suitable for general cooking with medium to large utensils.
- **Small Burner:** Best for simmering, small pots, or low-heat cooking.

5. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your gas stove.

General Cleaning:

- Always ensure the cooktop is cool and disconnected from the power supply before cleaning.
- **Tempered Glass Surface:** Wipe with a soft cloth and a mild glass cleaner or soapy water. Avoid abrasive cleaners or scouring pads that can scratch the glass.
- **Brass Burners:** The brass burners can be removed for cleaning. Wash with warm soapy water and a non-abrasive brush. Ensure they are completely dry before placing them back on the cooktop. Clogged burner holes can affect flame quality.
- **Enamelled Pan Supports:** These can be removed and washed with warm soapy water. For stubborn stains, a non-abrasive scrub brush can be used.
- **Stainless Steel Drip Tray:** Remove and clean with warm soapy water. Dry thoroughly to prevent water spots.
- **Metal Knobs:** Wipe with a damp cloth. Do not immerse in water.

Maintenance Tips:

- Periodically check gas connections for any signs of wear or leaks.
- Ensure burner holes are clear of food debris to maintain efficient flame distribution.
- If the auto electric ignition becomes faulty, contact customer service for assistance. Do not attempt to repair it yourself.

6. TROUBLESHOOTING

If you encounter issues with your KAFF CTC 63 4B Gas Stove/Cooktop, refer to the following common troubleshooting steps. For complex problems, contact customer support.

Common Issues and Solutions:

- **Burner not lighting:**
 - Check if the gas supply is open.
 - Ensure the cooktop is plugged into a working electrical outlet for ignition.
 - Clean the burner cap and burner holes to remove any debris that might be blocking the gas flow or spark.
 - Ensure the burner cap is correctly seated.
- **Weak or uneven flame:**
 - Clean the burner holes to ensure they are not clogged.
 - Verify the burner cap is correctly positioned.
 - Check for proper gas pressure (may require professional inspection).
- **Ignition clicking but no flame:**
 - Ensure gas is flowing to the burner.
 - Hold the knob down for a few extra seconds after ignition to allow the flame sensor to engage.
 - Check if the igniter electrode is clean and not damaged.
- **Gas smell:**
 - Immediately turn off the gas supply.
 - Open windows and doors for ventilation.
 - Do not operate any electrical switches or appliances.

- Contact your gas provider or a qualified technician immediately.
