IMPORTANT SAFETY INFORMATION

- Do not overload the shelf beyond its maximum weight capacity of 1925 lb (386 lb per shelf).
- Assemble and use the unit with care, strictly following all instructions provided.
- Always use the included anti-skid rubber pads to protect your floors and enhance stability.
- Wear protective gloves during assembly as edges may be sharp.
- Consider anchoring the unit to a wall for added stability, especially if storing heavy items or in areas prone to movement.

PACKAGE CONTENTS

The package includes all necessary hardware for assembly. Specific components typically include:

- Metal uprights (vertical support beams)
- Horizontal beams (shelf supports)
- MDF shelf boards (5 pieces)
- Anti-skid rubber pads (for feet)
- Assembly gloves (recommended for handling metal parts)

PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	Yaheetech
Model Name	garage shelves
Product Name	5-Tier Adjustable Standing Shelf
Dimensions (L x W x H)	35.5" x 16" x 71"
Number of Shelves	5
Max. Weight Capacity (Overall)	1925 Pounds
Max. Weight Capacity (Per Shelf)	386 Pounds
Material	MDF Board & Iron Frame
Color	Neptune Blue
Item Weight	29 Pounds
Assembly Required	Yes
Installation Type	Floor Mount
Product Care Instructions	Wipe with Dry Cloth

ADJUSTABLE SHELF

Set different heights according to the item size

ASSEMBLY INSTRUCTIONS

This boltless shelving unit is designed for easy assembly. No screws or bolts are required. Please follow these steps carefully:

1. Unpack all components and verify against the package contents list. Ensure all parts are present and undamaged.
2. Begin by assembling the upright frames. Connect the shorter metal beams to the uprights using the boltless interlocking system. Ensure each tab is fully inserted into its corresponding slot.
3. Once the base frame is assembled, insert the MDF shelf boards into the designated slots on the horizontal beams. The shelves can be adjusted to different heights to suit your storage needs.
4. Continue assembling the upper sections of the frame, connecting them securely to the lower sections. Repeat the process of inserting shelf boards.
5. Attach the anti-skid rubber pads to the bottom of the uprights to protect your flooring and provide stability.

6. For enhanced stability, especially when storing heavy items, it is recommended to anchor the assembled unit to a wall using appropriate wall anchors (not included).

USAGE AND OPERATION

Your Yaheetech storage shelf is designed for versatile use in various environments such as garages, kitchens, workshops, and basements.

Adjusting Shelf Height: To adjust the height of a shelf, carefully remove any items from the shelf. Lift the MDF board, then disengage the horizontal beams from the uprights. Re-engage the beams into the desired slots at the new height, ensuring all tabs are securely locked. Replace the MDF board.

Loading the Shelf: Distribute weight evenly across each shelf. Do not exceed the maximum weight capacity of 386 pounds per shelf or 1925 pounds for the entire unit. Place heavier items on lower shelves for better stability.

CARE AND MAINTENANCE

To clean the shelving unit, simply wipe surfaces with a dry cloth. Avoid using abrasive cleaners or excessive moisture, especially on the MDF boards, as this may cause damage.

Regularly check all connections to ensure they remain secure. Tighten if necessary.

TROUBLESHOOTING

Issue: Shelf wobbles or feels unstable.

- Solution: Ensure all boltless connections are fully engaged and secure. Verify that the unit is placed on a flat, level surface. For added stability, consider anchoring the unit to a wall.

Issue: Shelf boards appear to sag or bend.

- Solution: Check if the weight on the shelf exceeds the 386 lb per shelf capacity. Redistribute items or reduce the load. Ensure the MDF boards are properly seated within the metal frame.

Issue: Difficulty assembling components.

- Solution: Ensure you are aligning the tabs correctly with the slots. Sometimes a rubber mallet (not included) can be used gently to tap components into place, but avoid excessive force. Refer to the assembly diagrams.

WARRANTY AND CUSTOMER SUPPORT

For any questions, concerns, or support regarding your Yaheetech 5-Tier Standing Storage Shelf, please contact Yaheetech customer service. Refer to your purchase documentation for specific warranty details.
