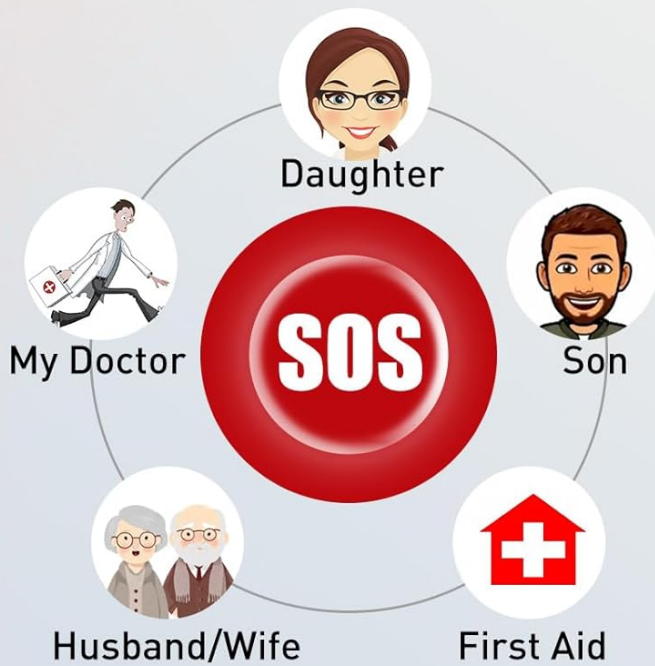

Image 5.2: The SOS emergency call function allows users to quickly contact up to five pre-set family members or emergency services.

5.4. Flashlight

The phone includes a built-in flashlight for convenience.

- **To Turn On/Off:** Press and hold the dedicated **Flashlight button** (often a side button or a specific key on the keypad) for 3 seconds.

Image 5.3: Activating the flashlight by pressing a button for 3 seconds, providing illumination in dark environments.

5.5. FM Radio

Enjoy listening to FM radio stations without needing an internet connection.

- Navigate to the "FM Radio" application from the main menu.
- You may need to connect wired headphones (not included) as they often act as an antenna.
- Use the navigation keys to scan for stations or tune manually.

5.6. Bluetooth

Connect your phone to Bluetooth headsets or other compatible devices.

- Go to "Settings" > "Bluetooth".
- Turn Bluetooth "On".
- Search for available devices and select the device you wish to pair with.
- Follow the on-screen prompts to complete the pairing process.

5.7. Dual SIM Management

If you have two SIM cards installed, you can manage them through the phone's settings.

- Go to "Settings" > "Dual SIM Settings" or "Network Settings".
- Here you can choose which SIM card to use for calls, messages, or data (if applicable).

6. MAINTENANCE

6.1. Cleaning Your Phone

- Use a soft, lint-free cloth to wipe the screen and body of the phone.
- Avoid using harsh chemicals, cleaning sprays, or abrasive materials.
- Keep the charging port and speaker grilles free from dust and debris.

6.2. Battery Care

- Avoid exposing the battery to extreme temperatures (hot or cold).
- Do not puncture, disassemble, or modify the battery.
- If the battery appears swollen or damaged, discontinue use and replace it with an authorized Xgody battery.
- For long-term storage, charge the battery to about 50% and store the phone in a cool, dry place.

6.3. Storage and Handling

- Store the phone in a dry place away from direct sunlight and moisture.
- Avoid dropping the phone or subjecting it to strong impacts. The flip design offers some screen protection.
- Keep the phone away from magnetic fields.

7. TROUBLESHOOTING

If you encounter issues with your Xgody S200, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Phone does not power on.	Low battery; faulty battery; software issue.	Charge the phone for at least 30 minutes. Ensure the battery is correctly installed. If problem persists, contact support.
Cannot make or receive calls.	No SIM card; SIM card not properly inserted; no network signal; SIM card not activated.	Ensure SIM card is inserted correctly. Check network signal strength. Contact your service provider to verify SIM activation.
Poor call quality/low volume.	Weak network signal; speaker/microphone obstruction; volume settings.	Move to an area with better signal. Clean speaker/microphone openings. Adjust call volume using side buttons.
Battery drains quickly.	Excessive usage; background apps; old battery.	Reduce screen brightness. Close unnecessary applications. If battery is old, consider replacement.
Flashlight not working.	Not activated correctly; software glitch.	Ensure you press and hold the flashlight button for 3 seconds. Restart the phone.

For issues not listed here, please refer to the official Xgody support website or contact customer service.
