## INTRODUCTION

Thank you for choosing the Mirightone Twin Over Twin Floor Bunk Bed. This manual provides essential information for safe assembly, proper usage, and maintenance of your new bunk bed. Please read all instructions carefully before assembly and retain this manual for future reference.

## SAFETY INFORMATION

**WARNING:** Failure to follow these warnings and instructions could result in serious injury or death.

- The upper bunk is designed for a maximum weight of **200 lbs**. The lower bunk is also designed for a maximum weight of **200 lbs**.
- Always use the recommended mattress size for both upper and lower bunks to prevent entrapment or falls.
- Ensure all connections are tight before use. Periodically check and tighten hardware as needed.
- Do not allow children under 6 years of age on the upper bunk.
- Always use the ladder for entering and exiting the upper bunk. Do not use substitute parts. Contact Mirightone for replacement parts.
- Prohibit more than one person on the upper bunk.
- Prohibit horseplay on or under the bed.
- This product is CPC (Children's Product Certificate) certified to comply with CPSC and ASTM safety standards.

- Proper use of storage space is essential to prevent instability. Do not overload under-bed storage areas.

## PACKAGE CONTENTS

---

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included Installation Manual for a detailed list of components and hardware.

- Twin Over Twin Bunk Bed Frame (1 unit)
- All necessary assembly tools
- Detailed Installation Manual

## ASSEMBLY INSTRUCTIONS

---

Assembly of the Mirightone Twin Over Twin Floor Bunk Bed requires careful attention to detail. Please follow the step-by-step instructions provided in the dedicated **Installation Manual** included with your product. It is recommended to have two adults for assembly.

**Key Assembly Points:**

- Identify all parts and hardware before starting.
- Do not fully tighten screws until all components are loosely assembled.
- Ensure the ladder is securely attached and stable.
- Verify that all guardrails are correctly installed and firmly secured.

## PRODUCT FEATURES

- **Space-Saving Design:** The vertical twin over twin configuration maximizes floor space, making it suitable for smaller rooms, apartments, or dormitories.
- **Solid Wood Construction:** Crafted from selected solid pine wood and engineered wood for durability and stability.
- **Low Height Design:** Positioned close to the floor, providing easier access for younger children and increased head clearance for the top bunk in rooms with lower ceilings.
- **Integrated Ladder:** Features a built-in 2-step widened ladder for safe and comfortable access to the upper bunk.
- **Full-Length Guardrails:** High guardrails on the upper bunk enhance safety and prevent falls during sleep.
- **No Box Spring Needed:** Sturdy slats provide ample mattress support, eliminating the need for a box spring.
- **Flexible Under-Bed Space:** The design allows for versatile use of the bottom area; it can accommodate a mattress directly on the floor for a traditional bunk setup or be used as a play area.

# **Low Bunk Bed for Kids**

## *Comfortable Sleep*

Image: A child sleeping in the lower bunk, illustrating the comfortable and accessible design of the low bunk bed.

## Safety Guardrails

Protect your kid from  
falling down

## Built-in Step Ladder

Offer an easy access  
to the top bunk

# Flexible Under Bed Space

You can put a mattress on the floor to make it a twin over twin bunk beds, perfect for families with 1 or 2 kids

Or you could create a playground for the kids at the bottom of the bunk beds.

Image: Demonstrates the flexible use of the space beneath the upper bunk, suitable for a mattress on the floor or as a play area.

## USAGE GUIDELINES

---

- Ensure the bunk bed is placed on a flat, stable surface.
- Only use mattresses that comply with the recommended dimensions for twin beds.
- Regularly inspect the bed for loose hardware and tighten as necessary to maintain structural integrity.
- Educate children on safe use of the bunk bed, including proper ladder use and avoiding rough play.

## MAINTENANCE

---

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically check all bolts, screws, and fasteners to ensure they are tight. Retighten if loose.

- **Structural Integrity:** Inspect the bed frame for any signs of wear, damage, or instability. Discontinue use if any structural issues are found and contact customer support.
- **Product Care:** As per manufacturer's instructions, dry clean only for specific components if applicable.

## TROUBLESHOOTING

| Problem                       | Possible Cause                            | Solution                                                                                                     |
|-------------------------------|-------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| Bed feels wobbly or unstable  | Loose hardware connections.               | Check and tighten all bolts and screws. Ensure the bed is on a level surface.                                |
| Squeaking noises              | Loose joints or friction between parts.   | Tighten all hardware. Apply a small amount of lubricant (e.g., paraffin wax) to contact points if necessary. |
| Missing parts during assembly | Packaging error or lost during unpacking. | Carefully re-check all packaging materials. Contact Mirightone customer support for replacement parts.       |
