Armitron 20/5616

Armitron Men's Bracelet Watch 20/5616 Instruction Manual

Model: 20/5616

1. INTRODUCTION

This manual provides essential information for the proper use and care of your Armitron Men's Bracelet Watch, model 20/5616. Please read these instructions carefully to ensure optimal performance and longevity of your timepiece.

Key Features:

- Curved mineral crystal lens for enhanced durability and clarity.
- Gunmetal grey sunray dial with gold-tone hands and markers, featuring a white inner rail minute track for precise time reading.
- Two-tone adjustable link bracelet with a secure fold-over clasp and double push-button safety.
- Water resistant up to 165 feet (50 meters), suitable for short periods of recreational swimming, but not for diving or snorkeling.

2. SETUP AND INITIAL ADJUSTMENT

2.1 Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) to its outermost position.
2. **Adjust the hands:** Turn the crown clockwise or counter-clockwise to move the hour and minute hands to the correct time.
3. **Push in the crown:** Once the time is set, push the crown back into its original position to start the watch movement.

Figure 2: Side view showing the watch crown.

2.2 Bracelet Adjustment

The watch features an adjustable link bracelet. For proper fit, it may be necessary to add or remove links.

This procedure typically requires specialized tools and is best performed by a qualified jeweler or watch technician to avoid damage to the bracelet or watch.

3. OPERATING YOUR WATCH

Your Armitron 20/5616 watch is a quartz movement timepiece designed for accurate timekeeping. Once the time is set, the watch will operate continuously until the battery requires replacement.

Reading the Time:

The watch displays time using traditional hour and minute hands. The gunmetal grey sunray dial with gold-tone markers and a white inner rail minute track provides clear visibility for reading the time.

4. CARE AND MAINTENANCE

4.1 Water Resistance

This watch is water resistant to 165 feet (50 meters). This means it is suitable for short periods of recreational swimming. However, it is **not recommended** for diving, snorkeling, or prolonged water activities. Avoid operating the crown or pushers while the watch is wet or submerged to prevent water intrusion.

4.2 Cleaning

To clean your watch, wipe the case and bracelet with a soft, damp cloth. For the metal bracelet, a mild soap solution can be used, followed by thorough rinsing and drying. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish.

4.3 Battery Replacement

When the watch stops running, the battery needs to be replaced. It is recommended to have the battery replaced by a professional watch repair service to ensure the water resistance seal is properly maintained.

5. TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Watch not running	Dead battery or crown is pulled out.	Push the crown fully in. If it still doesn't run, replace the battery.
Incorrect time display	Time not set correctly or crown accidentally pulled out.	Refer to Section 2.1 "Setting the Time" to reset the time.
Condensation inside watch	Exposure to extreme temperature changes or compromised water resistance.	Seek professional watch service immediately to prevent damage.

If you encounter issues not listed here, or if the suggested solutions do not resolve the problem, please contact Armitron customer support or a certified watch repair center.

6. SPECIFICATIONS

Brand: Armitron

Model Number: 20/5616

Movement: Quartz

Case Material: Stainless Steel

Lens Material: Curved mineral crystal

Water Resistance: 165 feet (50 meters)

Dial Color: Gunmetal Grey

Bracelet Type: Two-tone adjustable link bracelet

Clasp Type: Fold-over clasp with double push-button safety

Approximate Package Dimensions: 4.25 x 3.15 x 3.03 inches

Approximate Item Weight: 8.29 ounces
