### Armitron 20/4507GYSV

# Armitron Men's Genuine Crystal Accented Stainless Steel Watch

MODEL: 20/4507GYSV

## Introduction

This manual provides essential instructions for the setup, operation, and maintenance of your Armitron Men's Genuine Crystal Accented Stainless Steel Watch, Model 20/4507GYSV. Please read these instructions carefully to ensure proper use and longevity of your timepiece.

## Product Overview

The Armitron Model 20/4507GYSV is a sophisticated men's watch featuring a curved mineral crystal lens, a gunmetal grey sunray dial with silver-tone hands, and genuine crystal markers. It is equipped with a silver-tone adjustable link bracelet and a fold-over clasp with double push-button safety.

Front view of the Armitron Men's Watch Model 20/4507GYSV, showcasing its gunmetal grey sunray dial, crystal markers, and silver-tone hands.

Side view of the watch, illustrating its curved mineral crystal and crown.

Rear view of the watch, displaying the stainless steel case back and the adjustable link bracelet with its fold-over clasp.

## Setup

---

### Setting the Time

1. Pull the crown (the small knob on the side of the watch) out to the furthest position.
2. Turn the crown clockwise or counter-clockwise to move the hands until the correct time is displayed.
3. Once the time is set, push the crown back into its original position to start the watch movement.

### Adjusting the Bracelet

The stainless steel bracelet is designed with adjustable links. To ensure a comfortable fit, links may need to be added or removed. This process typically requires specialized tools and precision to avoid damage. It is recommended to have a professional jeweler or watch repair service perform bracelet adjustments.

If you choose to adjust the bracelet yourself, locate the small arrows on the underside of the links. These arrows indicate the direction in which the pins should be pushed out. Use a small pin-pushing tool or a fine-tipped object to carefully push the pins out, remove the desired number of links, and then reassemble the bracelet by inserting the pins in the opposite direction.

## Operating

---

Your Armitron watch is a quartz movement timepiece, designed for accurate timekeeping. Once the time is set, the watch will operate continuously until the battery requires replacement.

- **Time Display:** The watch displays hours, minutes, and seconds via three hands on the dial.
- **Crown Function:** The crown is used exclusively for setting the time. Ensure it is fully pushed in during normal operation to maintain water resistance.

## Maintenance

---

- **Cleaning:** Wipe the watch regularly with a soft, dry cloth to remove dust and smudges. For the stainless steel bracelet, a slightly damp cloth can be used, followed by immediate drying.
- **Water Resistance:** This watch is water resistant to 165 feet (50 meters). This means it is suitable for short periods of recreational swimming, but not for diving or snorkeling. Avoid operating the crown while the watch is wet or submerged.
- **Battery Replacement:** The watch is powered by a quartz battery. When the watch stops or the second hand begins to skip, the battery needs to be replaced. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and maintain water resistance.
- **Avoid Extreme Temperatures:** Exposure to extreme hot or cold temperatures can affect the watch's accuracy and battery life.
- **Avoid Chemicals:** Keep the watch away from solvents, detergents, perfumes, and cosmetics, as these can damage the case, crystal, or bracelet.

## Troubleshooting

---

- **Watch Not Running:** Check if the crown is fully pushed in. If it is, the battery may need replacement.
- **Incorrect Time:** Reset the time as described in the 'Setting the Time' section. If the time continues to be

inaccurate, the watch may require servicing.

- **Condensation Under Crystal:** This may indicate a loss of water resistance. Avoid further exposure to moisture and have the watch inspected by a professional immediately.

## Specifications

Feature	Detail
Model Number	20/4507GYSV
Movement	Quartz
Crystal	Curved Mineral Crystal
Dial	Gunmetal Grey Sunray with Genuine Crystal Markers
Case Material	Stainless Steel
Band Material	Stainless Steel
Clasp Type	Fold-over clasp with double push-button safety
Water Resistance	165 feet (50M)
Package Dimensions	4.25 x 2.99 x 2.87 inches
Item Weight	10.41 ounces

This video presents another Armitron Men's Multi-Function Bracelet Watch (Model 20/5313), highlighting its various functions and design elements. It serves as a general product showcase for Armitron watches, though it is not specific to the 20/4507GYSV model.

## Warranty & Support

Armitron watches are typically covered by a limited warranty against manufacturing defects. For specific warranty details, including coverage period and terms, please refer to the warranty card included with your purchase or visit the official Armitron website. For customer support, service, or repair inquiries, please contact Armitron directly through their official channels.

Protection plans are also available for purchase separately to extend coverage beyond the manufacturer's warranty. These plans offer additional protection against accidental damage and other issues.
