SETUP GUIDE

Keyboard Connection (K556 PRO)

The Redragon K556 PRO keyboard supports three connection modes: USB-C wired, Bluetooth (BT 3.0/5.0), and 2.4Ghz wireless.

1. USB-C Wired Connection:

Connect the provided USB-C cable to the keyboard's USB-C port and the other end to an available USB port on your computer. The keyboard will be automatically recognized.

2. 2.4Ghz Wireless Connection:

Locate the 2.4Ghz USB dongle (usually stored in a compartment on the keyboard). Plug the dongle into an available USB port on your computer. Switch the keyboard's connection mode to 2.4Ghz. The keyboard should connect automatically.

3. Bluetooth Connection (BT 3.0/5.0):

Ensure your computer's Bluetooth is enabled. Switch the keyboard's connection mode to Bluetooth. On your computer, search for new Bluetooth devices and select "Redragon K556 PRO" to pair. Follow any on-screen prompts.

Mouse Connection (M724)

The Redragon M724 mouse connects via a wired USB connection.

1. Connect the USB cable of the M724 mouse to an available USB port on your computer. The mouse will be automatically recognized and ready for use.

OPERATING INSTRUCTIONS

Keyboard Features (K556 PRO)

- **Hot-Swappable Switches:** The K556 PRO features hot-swappable sockets compatible with 3-pin and 5-pin mechanical switches. This allows users to easily change switches without soldering. To replace a switch, gently pull the existing switch out using a switch puller tool (not included) and push the new switch into place until it clicks.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the keyboard and mouse. For deeper cleaning, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the devices.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or kinks in the USB cables to prevent damage.

TROUBLESHOOTING

- **Keyboard/Mouse Not Responding:**

- Check all cable connections.
- For wireless connections, ensure the dongle is properly inserted and the keyboard is in the correct mode (2.4Ghz or Bluetooth).
- Try connecting to a different USB port.
- Restart your computer.

- **RGB Lighting Not Working:**

- Ensure the keyboard is properly powered.
- Check keyboard function key combinations for lighting control.
- Install or update the Redragon software to manage lighting settings.

- **DPI Adjustment Not Working (Mouse):**

- Ensure the mouse is properly connected.
- Press the DPI button firmly.
- Use the Redragon software to verify or reconfigure DPI settings.
