## Kepwam T1-16oz

# Kepwam Self Heating Coffee Mug T1-16oz Instruction Manual

Model: T1-16oz

## INTRODUCTION

---

Thank you for choosing the Kepwam Self Heating Coffee Mug T1-16oz. This manual provides essential information for the safe and efficient use of your new temperature-controlled mug. Please read it thoroughly before first use and keep it for future reference.

## PRODUCT OVERVIEW

---

The Kepwam T1-16oz is designed to keep your beverages at your preferred temperature, offering convenience and an enhanced drinking experience. It features multiple heat settings, a long-lasting battery, and dual control options via a touch button or a dedicated mobile application.

## SETUP

---

### Unboxing and Initial Inspection

Upon opening the package, ensure all components are present and undamaged. The package should contain the Kerpwam heating mug, a removable lid, an instruction manual, and a charging coaster.

### Charging the Mug

Before first use, fully charge your Kepwam mug. Connect the charging coaster to a power outlet using the provided adapter. Place the mug onto the charging coaster. The indicator lights on the mug will show the charging status. A full charge provides up to 180 minutes of heating with the lid sealed.

## OPERATING INSTRUCTIONS

### Manual Control

1. **Power On/Off:** Long press the power button located at the base of the mug to turn it on or off.
2. **Set Temperature:** Short press the power button to cycle through the three heat settings:
  - **Warm:** 113°F
  - **Hot:** 131°F
  - **Piping:** 149°F

The indicator lights will show the selected temperature setting.

# TWO CONTROL MODES

## Manual Control

- ▶ Long Press: Turn ON/OFF
- ▶ Single Click: Set temperature 113~149°F

## APP Control

- ▶ Custom temperature
- ▶ Custom appearance

Image: Close-up of the Kepwam mug's base, highlighting the power button and heat setting indicators.

## App Control

Once connected to the Kepwam app, you can:

- Monitor the current beverage temperature in real-time.
- Adjust the temperature precisely, degree by degree, within the available range.
- Customize appearance settings within the app.

## TECHNOLOGY-ENABLED, EACH BITE IS JUST THE RIGHT

### Temperature Range

Choose from three modes:  
Warm (113°F), Hot (131°F),  
and Piping (149°F)

### Smart LED

Indicate the temperature  
and working condition of  
the beverage

### Built-In Battery

Enjoy up to 7 hours  
of heat — when used  
with the lid on

Image: Smartphone screen displaying the Kepwam app interface with temperature control options.

### Using the Lid

The included lid helps maintain the beverage temperature for longer periods and prevents spills. For optimal heat retention, ensure the lid is properly sealed when not actively drinking.

# SAFETY INSTRUCTIONS

Do not use in dishwasher or microwave

## MAINTENANCE

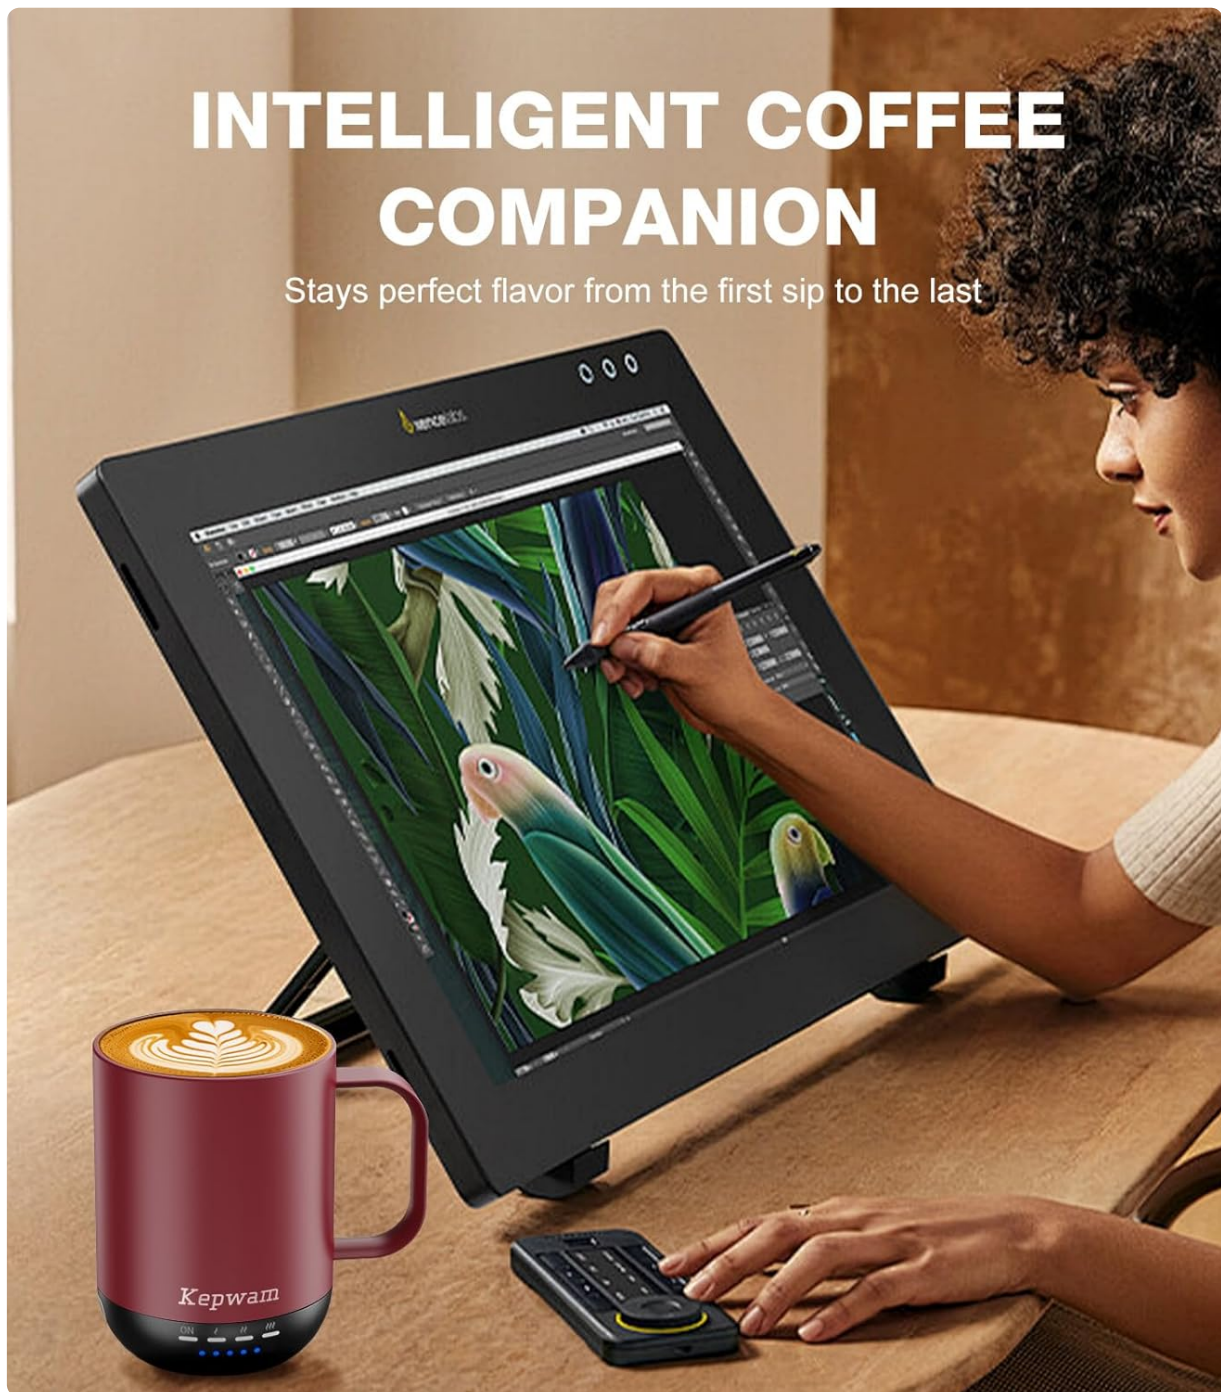

### Cleaning Instructions

To ensure the longevity and proper functioning of your Kepwam mug, follow these cleaning guidelines:

- **Hand Wash Only:** The mug must be hand washed. Do not immerse the base of the mug in water.
- **Avoid Dishwasher and Microwave:** Do not place the mug in a dishwasher or microwave. This can damage internal wiring, impair heating functions, and pose safety hazards.
- **Use Cold or Lukewarm Water:** Do not use hot water for cleaning, as this may affect the internal

components.

- **Dry Thoroughly:** Ensure the charging contacts at the bottom of the mug and on the coaster are completely dry before placing the mug on the coaster for charging.

# INTELLIGENT COFFEE COMPANION

Stays perfect flavor from the first sip to the last

## TROUBLESHOOTING

If you encounter any issues with your Kepwam Self Heating Coffee Mug, please refer to the following common solutions:

- **Mug Not Heating:** Ensure the mug is sufficiently charged. If using the charging coaster, verify it is properly plugged into a working power outlet. Check that the mug is placed correctly on the coaster, ensuring the charging contacts align.
- **App Connectivity Issues:** Make sure Bluetooth is enabled on your smartphone and the mug is within range. Try restarting both the app and the mug. If issues persist, try re-pairing the mug through the app's

settings.

- **Battery Not Charging:** Confirm the charging coaster's power adapter is securely connected and the outlet is functional. Clean the charging contacts on both the mug and the coaster to remove any debris that might obstruct the connection. Ensure both are dry.
- **Unusual Odor or Sound:** Immediately discontinue use and contact customer support if you notice any unusual odors, sounds, or smoke coming from the mug or charging coaster.
