AWESAFE Toyota Prius 2010 2011 2012 2013 2014 2015

AWESAFE Android 13 Car Stereo User Manual for Toyota Prius (2010-2015)

Model: B0D86T7MJQ

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your AWESAFE Android 13 Car Stereo. Designed specifically for Toyota Prius models from 2010 to 2015, this 9-inch touchscreen radio replacement enhances your driving experience with modern features such as Wireless CarPlay, Android Auto, Bluetooth, WiFi, AM/FM radio, and GPS navigation. Please read this manual thoroughly before installation and use to ensure proper functionality and safety.

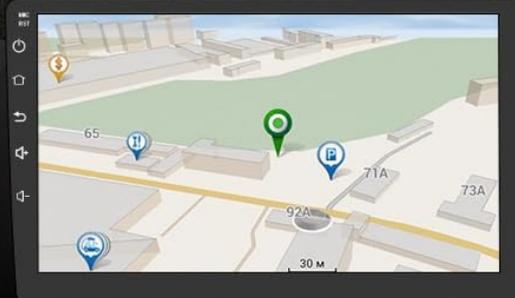

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Head Unit
- Wiring Harness
- Dash Kit
- Power Cable
- RCA Cable
- Reversing Line
- USB Cable (x2)
- Can Bus
- GPS Module
- Crowbar (Pry Tool)
- Screwdriver
- Microphone

Online Navigation

Online navigation, which allows real-time traffic and access to new map information at any time.

Offline Navigation

Real-time traffic is not available, but navigation can be used in places with weak or absent signal.

3. PRODUCT FEATURES

- **Android 13 Operating System:** Enjoy faster performance with a 4-core CPU, 2GB RAM, and 32GB ROM for installing various applications.
- **Wireless CarPlay & Android Auto:** Seamlessly integrate your smartphone for navigation, calls, messages, and music via smart voice assistant or touchscreen.
- **GPS Navigation:** Supports both offline and online maps. Built-in GPS module allows for downloading global offline map data packs. Online navigation is available when connected to WiFi.
- **Bluetooth & WiFi Connectivity:** Hands-free calling, phonebook sync, music streaming via Bluetooth. WiFi connectivity for online features and app downloads.
- **Built-in AM/FM Radio:** Listen to real-time traffic, news, and weather forecasts. Features 18-station presets and built-in EQ with 15 bands for audio adjustment.
- **Retained Steering Wheel Control:** Control your car radio using existing steering wheel buttons. Note: Voice control is not supported via steering wheel controls.
- **9-inch Touchscreen Display:** High-definition screen for clear visuals and responsive touch

interaction.

4. SAFETY INFORMATION

Always prioritize safety during installation and operation. Ensure the vehicle's battery is disconnected before beginning installation. Do not attempt to operate the device in a way that distracts you from driving. Follow all local traffic laws and regulations.

5. INSTALLATION GUIDE

This section provides a general overview of the installation process. For a detailed visual guide, please refer to the official installation video provided below. Ensure your factory radio does not have navigation, as this unit is not compatible with such systems.

5.1. Preparation

1. Disconnect the vehicle's battery to prevent electrical shorts.
2. Gather all necessary tools, including the pry tools and screwdriver provided.

5.2. Removing the Factory Radio

1. Carefully use the pry tool to remove the trim panels surrounding the factory radio.
2. Unscrew the bolts securing the factory radio.
3. Gently pull out the factory radio and disconnect all wiring harnesses from its rear.

5.3. Connecting the New Head Unit

1. Connect the provided wiring harness to the new AWESAFE head unit.
2. Connect the other end of the wiring harness to the vehicle's factory harness. Ensure all connections are secure.
3. Connect the GPS module, USB cables, and any other accessories.
4. Before fully reassembling, briefly reconnect the battery and test the unit's basic functions (power on, radio, touchscreen response).

5.4. Reassembly

1. Carefully slide the new head unit into the dashboard opening and secure it with the screws.
2. Reattach all trim panels, ensuring they snap securely into place.
3. Reconnect the vehicle's battery.

6. OPERATING INSTRUCTIONS

6.1. Wireless CarPlay Connection

To connect your iPhone to Wireless CarPlay:

1. Open the Zlink5 app on the head unit.
2. Confirm the Bluetooth name displayed on the head unit.
3. On your iPhone, go to Settings > Bluetooth and pair with the device name (e.g., Car BT).
4. On your iPhone, go to Settings > Wi-Fi and connect to the device's Wi-Fi network.
5. Once connected, CarPlay will launch automatically.

6.2. Wireless Android Auto Connection

To connect your Android phone to Wireless Android Auto:

1. Open the Zlink5 app on the head unit.
2. Confirm the Bluetooth name displayed on the head unit.
3. On your Android phone, go to Settings > Bluetooth and pair with the device name (e.g., Car BT).
4. On your Android phone, go to Settings > Wi-Fi and connect to the device's Wi-Fi network.
5. Once connected, Android Auto will launch automatically.

Video: How to connect Wireless Android Auto.

6.3. Bluetooth Function

The Bluetooth function allows for hands-free calling and audio streaming. Pair your phone with the head unit via Bluetooth settings. You can access your phonebook, make calls, and play music directly from your phone through the car stereo.

Image: Bluetooth phone and music streaming features.

6.4. GPS Navigation

The head unit supports both online and offline navigation. For offline maps, download data packs via WiFi. For online navigation, ensure the unit is connected to a stable WiFi network (e.g., via your phone's hotspot).

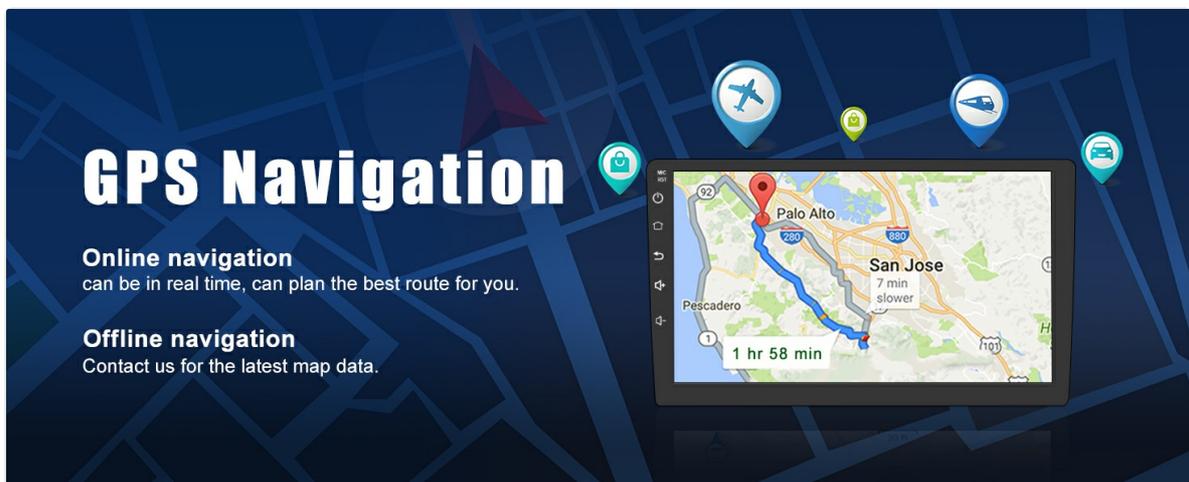

Image: GPS Navigation with real-time route planning.

6.5. AM/FM Radio

Access the radio application to tune into AM and FM stations. Use the search function or presets to find your desired channels. The built-in EQ allows for sound customization.

Image: FM radio interface with station presets.

6.6. Digital Sound Processor (DSP)

The integrated DSP function allows for advanced audio adjustments. Access the DSP settings to customize equalizer bands, subwoofer levels, and sound field positioning to optimize your listening experience.

Image: DSP function for detailed sound customization.

6.7. Split Screen Functionality

The split-screen feature allows you to run two applications simultaneously on the 9-inch display. For example, you can use navigation on one side while controlling music playback on the other.

7. TROUBLESHOOTING

If you encounter any issues with your AWESAFE Android 13 Car Stereo, please refer to the following common solutions:

- **No Power:** Check all power connections and ensure the vehicle's battery is properly connected. Verify fuses are intact.
- **No Sound:** Check speaker connections and ensure volume is not muted or set too low. Verify DSP settings are correctly configured.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the head unit and your phone. Delete previous pairings and attempt to re-pair.
- **CarPlay/Android Auto Not Connecting:** Verify both Bluetooth and Wi-Fi are connected to the head unit. Ensure the Zlink5 app is open. Try restarting both the phone and the head unit.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Steering Wheel Controls Not Working:** Verify the Canbus connection is secure and correctly configured in the system settings.

For further assistance, please contact AWESAFE customer support.
