PHOINIKAS G9000

PHOINIKAS 2.4GHz Wireless Gaming Headset

MODEL: G9000

Instruction Manual

Introduction

The PHOINIKAS 2.4GHz Wireless Gaming Headset is designed to provide an immersive audio experience across multiple gaming platforms. Featuring 2.4GHz lossless wireless technology, 7.1 stereo sound, and a noise-canceling microphone, it ensures stable connection, clear communication, and high-definition audio for an enhanced gaming experience. Its ergonomic design allows for comfortable long-term wear, and multi-platform compatibility makes it a versatile choice for various devices.

What's in the Box

- Wireless Gaming Headset
- External Microphone
- USB Charging Cable
- 3.5mm Audio Cable
- User Manual

Setup

Your PHOINIKAS G9000 headset offers both 2.4GHz wireless and 3.5mm wired connection options for broad compatibility.

2.4GHz Wireless Mode Setup

1. Insert the 2.4GHz USB dongle into an available USB port on your PS5, PS4, PC, Mac, or Laptop.
2. Power on the headset by pressing and holding the Power/Pairing button (refer to 'Multi-Function Fast Operation')

section for button location). The headset will automatically attempt to pair with the dongle.

3. Once connected, the headset's LED lights will illuminate, and audio will be routed wirelessly.

Figure 2: Multi-Platform Compatibility in 2.4GHz Wireless Mode

3.5mm Wired Mode Setup

1. Connect the provided 3.5mm audio cable to the headset's 3.5mm jack.
2. Plug the other end of the 3.5mm audio cable into the audio jack of your PS4/PS5 controller, Switch, Xbox controller (additional adapter may be required for some Xbox models), PC/Mac, Laptop, Tablet, or Mobile Phone.
3. Note: In 3.5mm wired mode, the headset's LED lights and mute function are inactive. For PC/Mac, a 1-in-2 Y splitter may be required for separate audio and microphone jacks.

Operating Instructions

Controls Overview (Wireless Mode Only)

- **7.1 Stereo Sound Button:** Activates or deactivates 7.1 stereo sound for immersive audio.
- **Power/Pairing Button:** Press and hold to power on/off or initiate pairing. Short press to pause/resume audio.
- **LED Light Button:** Toggles the headset's LED lighting effects on or off.
- **Volume + Button:** Increases the audio volume.
- **Volume - Button:** Decreases the audio volume.

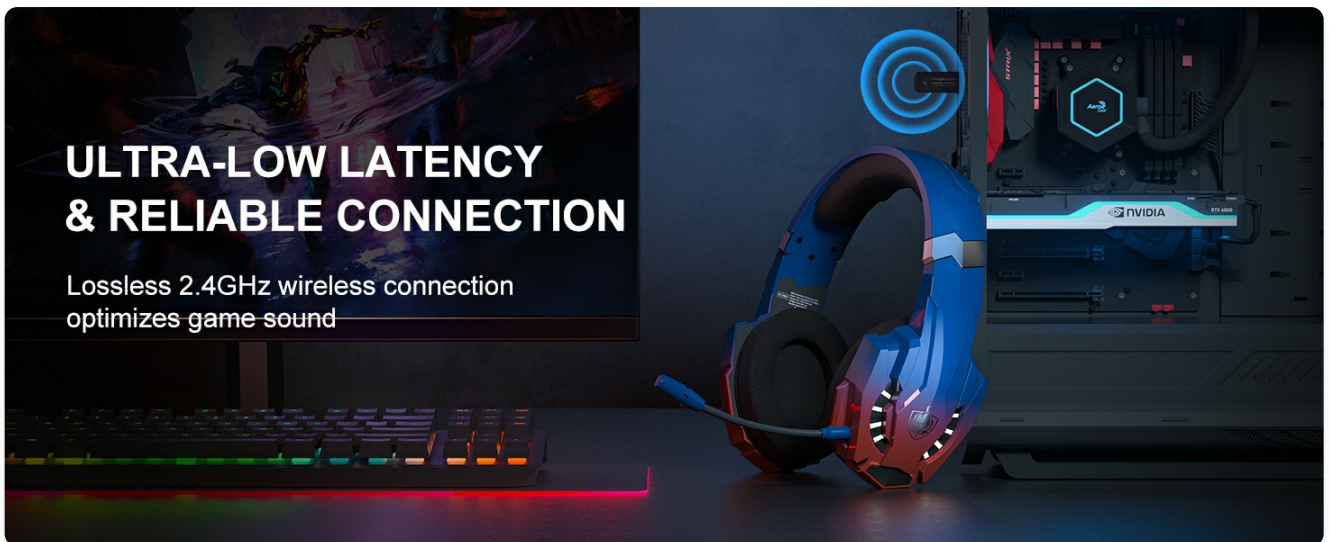

Figure 4: Multi-Function Controls

Microphone Usage

The headset features an omnidirectional noise-canceling microphone that is detachable and has a flexible adjustable angle. Simply plug the microphone into the dedicated port on the headset when needed for communication. Detach it when not in use for a more streamlined headset profile.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your PHOINIKAS G9000 headset.

- **Cleaning:** Use a soft, dry cloth to wipe down the headset and earcups regularly. For deeper cleaning of earcups, gently wipe with a damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on top of the headset to prevent damage.
- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge the headset fully (approximately 3 hours) before first use and when the battery is low. The headset offers 35-40 hours of battery life without LED effects, and 15-20 hours with LED effects.
- **Cable Management:** When not in use, coil cables neatly to prevent tangling and damage.

Troubleshooting

If you encounter issues with your PHOINIKAS G9000 headset, refer to the following common solutions:

- **No Sound/Microphone Not Working in 2.4G Wireless Mode:** Ensure the USB dongle is securely plugged into the device. Verify the headset is powered on and successfully paired (LEDs should be solid). Check device audio settings to ensure the headset is selected as the output/input device.
- **Microphone Invalid on Nintendo Switch:** The microphone function is not supported on Nintendo Switch in 2.4GHz wireless mode. Use 3.5mm wired mode for microphone functionality on Switch.
- **No Wireless Connection with Xbox One:** 2.4G wireless and Bluetooth are not compatible with Xbox One devices. Xbox series consoles only support 3.5mm wired mode. Non-3.5mm connector Xbox One versions require an additional adapter.
- **LED Lights Not Working:** LED lights are only available in wireless mode. Ensure the headset is powered on and in wireless mode.
- **Sound Quality Issues (Echoing/Cutting Out):** Ensure the microphone is securely connected and positioned correctly. Check for any obstructions or interference in the 2.4GHz signal path. Try moving closer to the USB dongle.
- **Headset Not Charging:** Ensure the USB charging cable is correctly connected to the headset and a power source. Verify the power source is active.

Specifications

Feature	Specification
Model Name	G9000MAX
Connectivity Technology	Wireless (2.4Ghz), Wired (3.5mm Jack)
Audio Driver Size	40 Millimeters
Audio Latency	20 Milliseconds
Battery Life	15 Hours (with lights), 35-40 Hours (without lights)
Charging Time	3 Hours
Microphone	Omnidirectional Noise-Canceling, Detachable
Ear Placement	Over Ear
Material	Plastic
Item Weight	14.1 ounces
Color	Dazzle Blue
