## omzer OM-CLB

# Omzer OM-CLB Automatic Self-Cleaning Cat Litter Box User Manual

Model: OM-CLB

---

## 1. INTRODUCTION

---

Thank you for choosing the Omzer OM-CLB Automatic Self-Cleaning Cat Litter Box. This device is designed to provide a clean and hygienic environment for your cat(s) by automating the litter cleaning process. It features app control, health monitoring, and a large capacity suitable for multiple cats.

# Large Capacity Smart Litter Box

Travel with Peace of Mind  
Your Cat Comfortable at Home

## 2. SAFETY INSTRUCTIONS

- Read all instructions before operating the device.
- Keep the device away from water and moisture.
- Ensure the power cord is not damaged and is properly connected to a grounded outlet.
- Do not allow children or pets to play with the device.
- Use only recommended cat litter types (clumping clay litter is generally suitable).
- Do not attempt to disassemble or repair the unit yourself. Contact customer support for assistance.
- Ensure the device is placed on a stable, level surface.

## 3. PRODUCT OVERVIEW

The Omzer OM-CLB features an enclosed design with an internal rotating drum, a waste collection bin, and various sensors for safe and efficient operation.

# SMARTER AND SAFER

## All-round Sensors

1

### Entrance Infrared Sensor

Which immediately halts the machine's rotation upon detecting your cat's presence.

2

### Waste Collecting Box Infrared Sensor

When the waste compartment reaches full capacity, it will alert you to clean it.

3

### Gravity Sensor

Allow you to differentiate between multiple cats in your household.

Image: An exploded view diagram of the Omzer OM-CLB, illustrating the locations and functions of its three integrated sensors: the Entrance Infrared Sensor for cat detection, the Waste Collecting Box Infrared Sensor for capacity monitoring, and the Gravity Sensor for differentiating multiple cats.

## Key Components:

- **Main Unit:** Houses the rotating drum and control panel.
- **Rotating Drum:** Contains the cat litter and sifts waste.
- **Waste Collection Bin:** Located beneath the drum, collects sifted waste.
- **Control Panel:** Buttons and indicators for manual operation and status.
- **Sensors:** Includes an Entrance Infrared Sensor (halts rotation upon cat detection), a Waste Collecting Box Infrared Sensor (alerts when full), and a Gravity Sensor (differentiates multiple cats).
- **Power Adapter:** For connecting the unit to an electrical outlet.

## 4. SETUP

### 4.1 Unpacking

1. Carefully remove all components from the packaging.
2. Verify that all parts are present and undamaged.

3. Retain packaging for future transport or storage.

#### 4.2 Placement

- Place the litter box on a firm, level surface indoors.
- Ensure there is adequate space around the unit for ventilation and access.
- Avoid placing near heat sources or in direct sunlight.

#### 4.3 Filling with Litter

1. Open the top access point of the rotating drum.
2. Pour clumping cat litter into the drum.
3. Ensure the litter level is between the MIN and MAX lines indicated inside the drum. Do not overfill.
4. Close the top access point securely.

Image: A hand demonstrating the process of adding cat litter to the Omzer OM-CLB, with a visual cue for the maximum fill level to ensure proper operation and prevent litter from sticking.

#### 4.4 Power Connection

1. Connect the power adapter to the unit's power input.

2. Plug the power adapter into a standard electrical outlet.
3. The unit will power on, and indicator lights may illuminate.

#### 4.5 App Connection (Omzer Smart App)

The Omzer OM-CLB supports 2.4G Wi-Fi for app control and monitoring.

1. Download the 'Omzer Smart' app from your device's app store.
2. Create an account or log in.
3. Follow the in-app instructions to add your Omzer OM-CLB device. This typically involves putting the device into pairing mode and connecting to your home 2.4G Wi-Fi network.
4. Once connected, you can access remote control, health monitoring, and scheduling features.

## Revolutionize Your Cat's Litter Experience with App-Controlled

Image: A smartphone screen showing the Omzer Smart app's interface, which provides status reminders, multi-cat data insights, timing functions, and remote cleaning control for the Omzer OM-CLB Automatic Self-Cleaning Cat Litter Box.

## 5. OPERATING INSTRUCTIONS

### 5.1 Automatic Cleaning Cycle

- The device is designed to automatically initiate a cleaning cycle a few minutes after your cat exits the litter box.

- The internal drum will rotate, sifting clean litter and depositing waste into the collection bin.
- The Entrance Infrared Sensor ensures the drum stops rotation immediately if a cat approaches during a cycle.

## 5.2 Manual Cleaning

- Press the 'Clean' button on the control panel to initiate a cleaning cycle manually.
- Alternatively, use the Omzer Smart app to start a cleaning cycle remotely.

## 5.3 App Features

- **Remote Control:** Start/stop cleaning cycles from anywhere.
- **Health Monitoring:** Track your cat's litter box usage, frequency, and duration. This data can provide insights into your cat's health.
- **Status Reminders:** Receive notifications for waste bin full, litter levels, or maintenance alerts.
- **Scheduling:** Set custom cleaning schedules.

## 6. MAINTENANCE

---

### 6.1 Emptying the Waste Collection Bin

1. When the Waste Collecting Box Infrared Sensor detects a full bin, you will receive an alert via the app or an indicator light on the unit.
2. Pull out the waste collection bin from the front of the unit.
3. If using a drawstring liner, pull the drawstring to seal the bag and dispose of the waste.
4. Replace the liner (if applicable) and slide the bin back into the unit until it clicks into place.

# Say Goodbye to Messy Scooping!

Simply pull the drawstring to effortlessly seal and dispose of the waste. No more touching or smelling the cat litter!

Image: A user demonstrating the waste disposal process by pulling the drawstring of a liner bag from the Omzer OM-CLB's waste collection bin, illustrating a hygienic and hands-free method of waste removal.

## 6.2 Cleaning the Unit

- **Exterior:** Wipe the exterior surfaces with a damp cloth and mild detergent. Avoid harsh chemicals.
- **Interior Drum:** For a deeper clean, empty all litter from the drum. The drum can be removed for washing with water and mild soap. Ensure it is completely dry before reassembling.
- **Sensors:** Gently wipe sensors with a soft, dry cloth to ensure proper function.
- Always unplug the unit before performing any deep cleaning.

## 6.3 Litter Replacement

- Regularly check the litter level and replenish as needed to maintain optimal performance.
- Completely replace all litter every 2-4 weeks, or as necessary, depending on usage and odor.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit not powering on	Power cord disconnected; outlet malfunction	Check power cord connection; try a different outlet.
Cleaning cycle not starting automatically	Cat still in unit; sensors obstructed; litter level too high/low	Ensure cat has exited; clean sensors; adjust litter level.
Waste bin full alert, but bin is not full	Waste Collecting Box Infrared Sensor obstructed/dirty	Clean the sensor located above the waste bin.
App not connecting to device	Incorrect Wi-Fi (not 2.4G); device not in pairing mode; poor signal	Ensure 2.4G Wi-Fi; re-enter pairing mode; move device closer to router.
Litter sticking to drum	Litter type unsuitable; drum dirty; humidity	Use high-quality clumping litter; clean drum thoroughly; ensure low humidity.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	OM-CLB
Product Dimensions (L x W x H)	59.5L x 54.5W x 59H Centimetres
Item Weight	13 kg
Capacity	100L (Litter Drum)
Material	Polyester (Housing)
Connectivity	2.4G Wi-Fi (App-Controlled)
Target Species	Cat
Color	Grey
