

Turnwin APEX FIT PLUS Smart Watch Bands

Turnwin APEX FIT PLUS Smart Watch Bands User Manual

INTRODUCTION

Welcome to your Turnwin Smart Watch Bands user manual. These soft silicone sport straps are designed for comfort and durability, compatible with the APEX FIT PLUS Smartwatch and other 22mm lug width smartwatches. This manual provides detailed instructions for installation, use, and maintenance to ensure optimal performance and longevity of your watch bands.

COMPATIBILITY

These watch bands are compatible with the APEX FIT PLUS Smartwatch. They also fit other smartwatches that use 22mm width watch lugs. Please verify your watch model's lug width before installation.

- Redmi Watch 5 Active, Lite smart watches
- Other smart watches with 22mm watch lugs

PRODUCT FEATURES

- **Material:** High-quality soft environmental silicone.
- **Comfort:** Smooth, soft, lightweight, and breathable for a zero-weight feeling.
- **Durability:** Waterproof and sweatproof, suitable for daily wear and sports.
- **Skin-Friendly:** Non-irritating to the skin.
- **Size:** Fits wrists measuring 5.5 - 8.7 inches.
- **Installation:** Easy and direct installation with one-button removal via quick-release spring bars.
- **Security:** Features a metal buckle and fastener loop for a snug and secure fit.

SETUP: BAND INSTALLATION AND REMOVAL

These bands are designed for quick and easy attachment and detachment from your smartwatch.

Installing the Band

1. **Identify Watch Lugs:** Locate the spring bar attachment points (lugs) on your smartwatch.
2. **Align Spring Bar:** Insert one end of the band's quick-release spring bar into the corresponding lug hole on the watch.
3. **Compress and Release:** Use the small lever on the quick-release spring bar to compress it. Carefully guide the other end of the spring bar into the opposite lug hole.
4. **Secure Connection:** Release the quick-release lever, ensuring both ends of the spring bar are securely seated in the watch lugs. Gently pull on the band to confirm it is locked in place.

Removing the Band

1. **Locate Quick-Release Lever:** Find the small lever on the underside of the band where it connects to the watch.
2. **Compress Spring Bar:** Pull the quick-release lever to compress the spring bar.
3. **Detach Band:** Gently pull the band away from the watch lug.
4. **Repeat:** Repeat the process for the other side of the band.

OPERATING: WEARING AND ADJUSTING

Proper wearing ensures comfort and accurate smartwatch functionality.

1. **Positioning:** Place the smartwatch on your wrist, ensuring the watch face is positioned comfortably.
2. **Fastening:** Thread the longer end of the band through the buckle on the shorter end.
3. **Adjusting Fit:** Select a hole on the band that provides a snug, yet comfortable fit. The watch should not slide freely on your wrist, but also not feel too tight.
4. **Securing:** Insert the buckle pin into the chosen hole. Use the fastener loop to secure any excess strap, preventing it from flapping.

MAINTENANCE

To ensure the longevity and hygiene of your silicone watch bands, follow these maintenance guidelines:

- **Regular Cleaning:** Clean your bands regularly with mild soap and water. Use a soft cloth to gently wipe away dirt, sweat, and oils.

- **Rinsing:** Rinse the bands thoroughly with clean water to remove all soap residue.
- **Drying:** Allow the bands to air dry completely before reattaching them to your smartwatch or wearing them. Avoid direct sunlight or high heat, which can damage the silicone.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can degrade the silicone material and cause discoloration.
- **Storage:** When not in use, store the bands in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

If you encounter any issues with your watch bands, refer to the following common solutions:

Band Not Attaching Securely

- **Check Compatibility:** Ensure your smartwatch has 22mm width lugs. Refer to the "Compatibility" section.
- **Verify Spring Bar Placement:** Make sure both ends of the quick-release spring bar are fully seated within the watch lug holes. Gently pull on the band to confirm it is locked.
- **Inspect Spring Bar:** Check if the spring bar is bent or damaged. If so, contact support for assistance.

Skin Irritation

- **Clean Regularly:** Ensure the band is cleaned regularly to remove sweat, dirt, and allergens.
- **Adjust Fit:** A band that is too tight can cause irritation. Loosen the band slightly to allow for air circulation.
- **Allow Skin to Breathe:** Occasionally remove your watch to allow your skin to breathe, especially after intense workouts.
- **Material Sensitivity:** While silicone is generally hypoallergenic, if irritation persists, discontinue use and consult a dermatologist.

Discoloration or Staining

- **Prompt Cleaning:** Clean any stains immediately with mild soap and water.
- **Avoid Contact:** Minimize contact with strong dyes, inks, or chemicals that can permanently stain silicone.

SPECIFICATIONS

Feature	Detail
Material	Soft Silicone
Compatibility	Smartwatches with 22mm width lugs (e.g., APEX FIT PLUS)
Wrist Size	5.5 - 8.7 inches
Closure Type	Metal Buckle with Fastener Loop
Installation	Quick-release spring bars
Dimensions (Packaging)	16.9 x 9.3 x 1.8 cm
Weight (Packaging)	50 g
Manufacturer	Turnwin
