Hikity ManJu-A7195A3195A4MI2

Hikity Android Carplay Wireless Autoradio User Manual

Model: ManJu-A7195A3195A4MI2 for Seat Leon MK3 (2013-2019)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Hikity Android Carplay Wireless Autoradio. This multimedia system is specifically designed for the Seat Leon MK3 (Left-Hand Drive) models from 2013 to 2019, offering a 9-inch touchscreen display with advanced features such as wireless CarPlay, Android Auto, GPS navigation, Bluetooth, and support for a reversing camera.

Please read this manual thoroughly before installation and use to ensure proper functionality and to maximize your user experience.

2. SAFETY INFORMATION

- **Professional Installation Recommended:** Due to the complexity of car electrical systems, professional installation is highly recommended to prevent damage to the unit or your vehicle.
- **Driving Safety:** Do not operate the system in a way that distracts you from driving. Always prioritize road safety.
- **Power Supply:** Ensure the unit is connected to a 12V DC power supply with a negative ground. Incorrect wiring can cause damage or fire.
- **Avoid Moisture:** Do not expose the unit to water or excessive moisture.
- **Temperature:** Avoid extreme temperatures. The operating temperature range is typically -20°C to +70°C.
- **Ventilation:** Ensure adequate ventilation around the unit to prevent overheating.

3. PACKAGE CONTENTS

Verify that all items are present in your package before proceeding with installation:

- Hikity Android Autoradio Unit (9-inch touchscreen)
- Power Cable
- RCA Cable
- USB Cables (x2)

- Camera Input Cable
- GPS Antenna
- Radio Antenna
- Canbus Decoder
- AHD Rear Camera (optional, if included in your package)
- Microphone
- Installation Tool
- Reverse Line

Figure 3.1: Included components and unit dimensions.

4. SETUP AND INSTALLATION

This autoradio is designed for direct fitment in Seat Leon MK3 (2013-2019) Left-Hand Drive vehicles. Ensure your vehicle's dashboard matches the 'Before' image for compatibility.

For Seat Leon MK3 2013–2019

Figure 4.1: Before and After installation in a Seat Leon MK3 dashboard.

4.1 Wiring Connections

Refer to the wiring diagram provided with your unit and the image below for connecting the various cables. Incorrect wiring can lead to malfunction or damage.

Product Size & Packing List

Figure 4.2: Rear panel connections for the autoradio unit.

- **Power Cable:** Connect the main power harness to your vehicle's wiring. Ensure correct positive (B+) and accessory (ACC) connections, and a secure ground (GND). The Canbus decoder should be integrated as per the vehicle's specific wiring.
- **RCA Cables:** For external amplifiers, subwoofers, or auxiliary audio/video input/output.
- **USB Cables:** Connect the two provided USB cables for media playback, phone charging, or wired CarPlay/Android Auto connections.
- **Camera Input:** Connect the AHD rear camera cable here.
- **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield.
- **Radio Antenna:** Connect your vehicle's radio antenna.
- **Microphone:** Connect the external microphone for improved call quality and voice commands.

Note: Some users have reported that the provided connection harness may not be a direct 'plug and play' for all Seat Leon FR models, requiring modifications or extensions for certain cables (e.g., the cable from the glove compartment CD unit). Please verify your vehicle's specific wiring before installation.

5. OPERATING INSTRUCTIONS

5.1 System Overview

The unit runs on Android 13 with a Quad Core processor, 2GB RAM, and 64GB ROM, providing a responsive user experience on its 9-inch Ultra HD touchscreen with a resolution of 1024*600 pixels.

Figure 5.1: System performance overview (2GB RAM + 64GB ROM).

Figure 5.2: HD IPS Touch Screen with 1024*600 resolution.

5.2 Wireless CarPlay and Android Auto

The unit supports both wireless and wired CarPlay and Android Auto. This feature integrates your smartphone's interface directly onto the car's display, allowing access to navigation, music, messages, and calls safely while driving.

- **Connection:** Connect your iPhone via Bluetooth for wireless CarPlay or a USB cable for wired CarPlay. For Android phones, connect via Bluetooth for wireless Android Auto or a USB cable for wired Android Auto.
- **Functionality:** Once connected, your phone's compatible apps will appear on the autoradio screen.

Wireless Carplay & Android Auto

Voice Control

With voice Assistant, help you focus on the road and have fun along the way.

Android/IOS System

Figure 5.4: Wireless/Wired CarPlay and Android Auto features.

5.3 GPS Navigation

The autoradio has an integrated GPS receiver and supports both online and offline maps. The pre-installed Herewego app allows you to download free offline maps for global navigation.

- **Online Maps:** Requires a WiFi connection to access real-time traffic and map updates.
- **Offline Maps:** Download maps in advance to navigate without an internet connection.

GPS Navigation

Navigation when you need even without internet.

Offline

Online

WIFI Connection

Download App/On-line Surfing. Connected to WIFI or hotspot,download more APPS: Instagram/TikTok Waze and more.

Figure 5.5: GPS Navigation with online and offline capabilities.

Figure 5.6: Online/Offline GPS Navigation.

5.4 WiFi Connection

Connect the autoradio to a WiFi network (e.g., your phone's hotspot) to access online features.

- **App Downloads:** Access the Google Play Store to download various applications.
- **Online Browsing:** Surf the web, stream content, and use online services.

Figure 5.7: WiFi Connection for app access.

5.5 FM/RDS Radio

Tune into your favorite FM radio stations and enjoy real-time broadcast information via RDS (Radio Data System).

- **Automatic Scan:** Use the auto-scan function to find and save available stations.
- **Manual Tuning:** Manually adjust the frequency to specific stations.

Super Sound System

RDS Experience personalized audio excellence on the go with our integrated EQ and FM/RDS Radio system. Fine-tune your drive's sound track using the intuitive Equalizer to match your musical preferences.

Figure 5.8: FM/RDS Radio interface.

5.6 Bluetooth Functionality

Connect your smartphone via Bluetooth for hands-free calling and audio streaming.

- **Pairing:** Enable Bluetooth on your phone and search for the autoradio unit. Select it to pair.
- **Hands-Free Calls:** Make and receive calls directly from the touchscreen.
- **Audio Streaming:** Play music from your phone through the car's speakers.

5.7 Steering Wheel Control

The unit supports your vehicle's original steering wheel controls, allowing you to manage audio and other functions without taking your hands off the wheel.

- **Configuration:** Access the 'Steering Wheel Control' settings in the system menu to map your vehicle's buttons to the desired functions (e.g., volume up/down, track skip, mode).

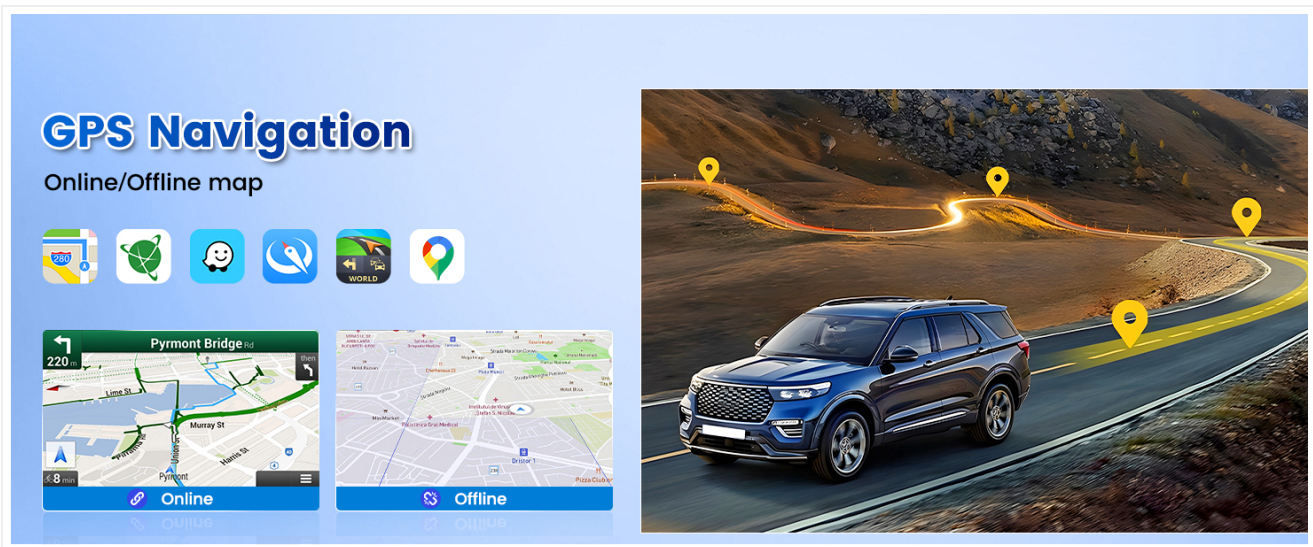

Figure 5.9: Steering Wheel Control setup interface.

5.8 AHD Reversing Input (Backup Camera)

When your vehicle is shifted into reverse gear, the system automatically switches to the rear camera view, providing a clear image to assist with parking and maneuvering.

- **Features:** The supported AHD camera offers HD image quality, waterproof design, night vision, and a wide-angle view with parking guidelines.

AHD Reversing Input

When the Car is in the reverse gear ,it automatically switches to the reverse image which is easier and safer to reverse

Figure 5.10: AHD Reversing Input features and comparison.

Figure 5.11: HD Reverse Camera view.

5.9 Sound System

Customize your audio experience with the integrated equalizer (EQ) and subwoofer output.

- **Equalizer:** Adjust various frequency bands to tailor the sound to your preferences.
- **Subwoofer Output:** Connect an external subwoofer for enhanced bass.

5.10 Phone Mirror Link

Mirror your Android or iOS smartphone screen directly onto the autoradio display.

- **Android:** Connect via USB or WiFi.
- **iOS:** Connect via USB or WiFi.

Figure 5.12: Phone Mirror Link for Android and iOS.

5.11 Smart Voice Control

Utilize voice commands through Siri (for CarPlay) or Google Assistant (for Android Auto) to control various functions, keeping your hands on the wheel and eyes on the road.

- **Activation:** Activate voice control through your connected smartphone's interface.
- **Commands:** Use commands for navigation, music playback, calls, and messages.

Figure 5.13: Smart Voice Control in action.

5.12 UI Themes

Personalize your user interface with a selection of 28 different UI themes.

- **Changing Themes:** Long-press on an empty space on the desktop to access theme options and switch between different designs.

Figure 5.14: Customizable UI Themes.

6. MAINTENANCE

- **Cleaning the Screen:** Use a soft, lint-free cloth to clean the touchscreen. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **Software Updates:** Periodically check for software updates through the system settings or the manufacturer's website to ensure optimal performance and access to new features.
- **General Care:** Avoid placing heavy objects on the unit or exposing it to direct sunlight for extended periods when parked.

7. TROUBLESHOOTING

If you encounter issues with your Hikity Autoradio, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Loose power connection, blown fuse, incorrect wiring.	Check all power cables (B+, ACC, GND) for secure connection. Inspect vehicle fuses and the unit's fuse. Ensure correct 12V DC connection.
No sound.	Volume too low, mute activated, incorrect speaker wiring, amplifier issue.	Increase volume. Check if mute is active. Verify speaker connections. If using an external amplifier, check its power and connections.
GPS signal lost or inaccurate.	GPS antenna obstructed or improperly placed, antenna faulty.	Ensure GPS antenna has a clear view of the sky. Check antenna connection. Try repositioning the antenna.
CarPlay/Android Auto not connecting.	Bluetooth/USB connection issue, phone compatibility, app not updated.	Ensure Bluetooth is on and paired. Try a different USB cable. Update phone OS and CarPlay/Android Auto apps. Restart both phone and autoradio.
Rear camera not displaying.	Camera not powered, incorrect camera input connection, reverse trigger wire issue.	Check camera power supply. Verify camera input cable is securely connected. Ensure the reverse trigger wire is correctly connected to the vehicle's reverse light circuit.
Steering wheel controls not working.	Canbus connection issue, incorrect configuration.	Ensure Canbus decoder is correctly installed and connected. Re-enter the steering wheel control learning interface and re-map buttons.

If the problem persists after trying these solutions, please contact Hikity customer support.
