

## Garnier No. 3

# Garnier Color Naturals Nourishing Permanent Hair Color Cream No. 3 Dark Brown User Manual

## 1. PRODUCT OVERVIEW

---

The Garnier Color Naturals Nourishing Permanent Hair Color Cream in shade No. 3 Dark Brown is formulated to deliver a rich, long-lasting dark brown color while providing nourishment to your hair. Enriched with natural oils like olive, avocado, and shea, this cream helps to condition and protect hair during the coloring process, ensuring up to 100% grey coverage and a vibrant, natural-looking finish.

## 2. IMPORTANT SAFETY INFORMATION

---

**HAIR COLORANTS CAN CAUSE SEVERE ALLERGIC REACTIONS. IT IS MANDATORY TO PERFORM AN ALLERGY ALERT TEST 48 HOURS BEFORE EACH USE OF THIS PRODUCT, EVEN IF YOU HAVE PREVIOUSLY USED COLORING PRODUCTS.**

Always read and follow the instructions carefully. Failure to do so may result in adverse reactions. Keep out of reach of children. Do not use on eyelashes or eyebrows. Avoid contact with eyes. Rinse eyes immediately if product comes into contact with them. Wear suitable gloves provided in the kit.

## 3. PACKAGE CONTENTS

---

A typical Garnier Color Naturals kit includes:

- Developer Milk
- Colorant Cream
- Post-Color Conditioner
- Instruction Leaflet
- Pair of Gloves

## 4. PREPARATION

---

1. **Perform Allergy Alert Test:** 48 hours before coloring, apply a small amount of the colorant cream to a clean area of skin behind your ear. Do not wash, cover, or disturb the area. If you experience any reaction such as itching, redness, or swelling, do not use the product.
2. **Gather Supplies:** Have an old towel, a timer, and a non-metallic bowl (if mixing separately) ready.
3. **Protect Clothing and Skin:** Drape an old towel over your shoulders. Apply a thin layer of petroleum jelly around your hairline to prevent staining.
4. **Wear Gloves:** Put on the protective gloves provided in the kit before starting the application process.
5. **Hair Condition:** For best results, apply the cream to dry, unwashed hair.

## 5. APPLICATION INSTRUCTIONS

---

### 5.1. Mixing the Color

1. Unscrew the cap of the Developer Milk bottle.
2. Pierce the seal of the Colorant Cream tube with the cap. Squeeze the entire contents of the Colorant Cream into the Developer Milk bottle.
3. Securely close the Developer Milk bottle and shake vigorously for 30 seconds until the mixture is uniform.
4. Immediately unscrew the applicator tip to prevent the bottle from bursting.

### 5.2. Applying the Color

There are two main application methods:

#### **Full Head Application (First Time Coloring or Significant Root Regrowth)**

1. Apply the mixture to dry, unwashed hair, starting at the roots.
2. Distribute the remaining mixture evenly through the lengths and ends of your hair.
3. Gently massage the product into your hair to ensure even coverage.

#### **Root Touch-Up Application (Regular Coloring)**

1. Apply the mixture only to the root area, parting your hair section by section.
2. Leave on for 40 minutes.
3. After 40 minutes, apply the remaining mixture to the lengths and ends of your hair.

### 5.3. Processing Time

For full head application, leave the color on for 60 minutes from the moment the application is complete. For root touch-up, leave the root application for 40 minutes, then apply to lengths and ends for an additional 20 minutes (total 60 minutes).

### 5.4. Rinsing and Conditioning

1. After the processing time, add a small amount of warm water to your hair and gently massage to emulsify the color.
2. Rinse your hair thoroughly with lukewarm water until the water runs clear.
3. Apply the Post-Color Conditioner to your hair, focusing on the lengths and ends.
4. Leave the conditioner on for 2-3 minutes, then rinse thoroughly.

## 6. AFTERCARE AND MAINTENANCE

---

- Use color-safe shampoos and conditioners to help maintain the vibrancy of your hair color.
- Limit washing your hair to every 2-3 days to prevent premature fading.
- Protect your hair from excessive sun exposure, which can cause color to fade.
- Consider using heat protectant sprays when styling with heat tools.

## 7. TROUBLESHOOTING

---

- **Uneven Color:** Ensure thorough and even application of the product. Sectioning hair properly can help.
- **Color Not as Expected:** Hair porosity, previous color treatments, and natural hair color can influence the final result. Always perform a strand test if unsure.
- **Allergic Reaction:** If you experience any adverse reactions (itching, burning, swelling, rash) during or after application, rinse immediately and seek medical attention. Refer to the Important Safety Information section.
- **Stains on Skin:** Immediately wipe off any color that gets on your skin with a damp cloth or a specialized color remover wipe.

## 8. PRODUCT SPECIFICATIONS

---

<b>Brand</b>	Garnier
<b>Product Name</b>	Color Naturals Nourishing Permanent Hair Color Cream
<b>Shade Number</b>	No. 3
<b>Shade Name</b>	Dark Brown
<b>Item Form</b>	Cream
