# Yaheetech 5-Tier Standing Shelf Unit Instruction Manual

Model: YT-00139227

## 1. INTRODUCTION

---

Thank you for choosing the Yaheetech 5-Tier Standing Shelf Unit. This heavy-duty shelving unit is designed for versatile storage in various environments such as garages, basements, warehouses, kitchens, and offices. Its robust construction and adjustable design provide a practical solution for organizing your space. This manual provides essential information for safe assembly, operation, and maintenance of your new shelving unit.

## 2. SAFETY INFORMATION

---

- Read all instructions carefully before assembly and use.
- Ensure all components are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Assemble the unit on a flat, stable surface to prevent tipping.
- Always use the provided anti-tipping over unit to secure the shelf to a wall, especially in areas with children or pets, or if the unit will hold heavy items.
- Distribute weight evenly across shelves. Do not exceed the maximum weight capacity per shelf or for the entire unit.
- Do not climb on the shelving unit.
- Keep small parts away from children during assembly to prevent choking hazards.
- Wear appropriate safety gear, such as gloves, during assembly to avoid cuts or pinches.

## 3. PACKAGE CONTENTS

---

Please verify that all parts are included before starting assembly. If any parts are missing or damaged, please contact customer support.

- Metal uprights (vertical posts)

- Metal crossbeams (horizontal supports for shelves)
- MDF boards (for shelves)
- Plastic feet (16 pieces)
- Anti-tipping over unit (wall anchors and screws)
- Assembly instructions

## 4. SPECIFICATIONS

Feature	Detail
Model Number	YT-00139227
Material	Engineered Wood (MDF), Metal
Finish Type	Powder Coated
Number of Shelves	5
Overall Dimensions (L x W x H)	35.43 x 11.81 x 71.06 inches (approx. 35.5" L x 12" W x 71" H)
Maximum Weight Capacity (Per Shelf)	386 lbs
Total Weight Capacity	1930 lbs
Special Features	Adjustable, Durable, Boltless Construction, Anti-tipping Over Unit
Item Weight	24.5 Pounds

## 5. SETUP AND ASSEMBLY INSTRUCTIONS

The Yaheetech 5-Tier Standing Shelf Unit features a boltless design for easier assembly. Follow these steps carefully:

- 1. Prepare the Base:** Attach the 16 plastic feet to the bottom of the vertical posts. Ensure they are securely fitted to protect your floor and provide stability.
- 2. Assemble the Frame:** Connect the metal uprights and crossbeams according to the diagrams provided in your package. The boltless construction allows components to slot and lock into place. Ensure all connections are firm and stable.
- 3. Install Shelves:** Place the MDF boards onto the assembled crossbeams for each tier. The middle supporting beam on each tier helps hold the MDF board firmly.
- 4. Adjust Shelf Height:** The shelves are height-adjustable. You can customize the shelf height to accommodate items of various sizes by repositioning the crossbeams in the desired slots on the uprights.
- 5. Secure with Anti-Tipping Unit:** For enhanced stability and safety, fix the anti-tipping over unit to the

back of the shelf and secure it to an adjacent wall using the provided hardware.

## 6. OPERATING INSTRUCTIONS (USAGE)

Your Yaheetech 5-Tier Standing Shelf Unit is designed for versatile storage. Here are guidelines for optimal use:

- **Loading:** Place items on the shelves, ensuring weight is distributed as evenly as possible. Avoid concentrating heavy loads on one side or corner of a single shelf.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 386 lbs per shelf or the total unit capacity of 1930 lbs. Overloading can compromise stability and safety.
- **Adjustable Design:** The unit can be configured vertically as a tall 5-tier shelf or horizontally as a workbench with two shorter units. You can also remove a shelf board to create larger vertical space for taller items.
- **Placement:** Suitable for various rooms including garages, kitchens, basements, pantries, closets, sheds, warehouses, and offices.

# 5-TIER BOLTLESS STORAGE SHELF

MAX LOAD: **386 LB**  
(PER SHELF)

## 7. MAINTENANCE

---

To ensure the longevity and appearance of your shelving unit, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame and MDF boards with a dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent moisture damage to the MDF.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight and secure. Retighten if necessary.
- **Damage Prevention:** Avoid exposing the MDF boards to excessive moisture or direct water, as this can cause swelling or warping.
- **Weight Distribution:** Regularly review the load on your shelves to ensure weight is still evenly distributed and within capacity limits.

## 8. TROUBLESHOOTING

---

If you encounter any issues with your Yaheetech 5-Tier Standing Shelf Unit, consider the following common

solutions:

- **Unit is Wobbly:**

- Ensure all connections between uprights and crossbeams are fully engaged and locked.
- Verify the unit is on a level surface. Adjust plastic feet if necessary.
- Confirm the anti-tipping over unit is properly installed and secured to the wall.

- **Shelf Boards Don't Fit:**

- Check that the crossbeams are correctly installed and spaced.
- Ensure the MDF boards are oriented correctly.

- **Difficulty Assembling:**

- Refer to the assembly diagrams provided in your package.
- Ensure components are aligned correctly before attempting to slot them together. A rubber mallet (not included) can sometimes assist with seating components firmly.

## 9. WARRANTY AND SUPPORT

---

For any questions, concerns, or to report missing/damaged parts, please contact Yaheetech customer support. Please have your model number (YT-00139227) and purchase information ready when contacting support. While specific warranty details are not provided in this manual, Yaheetech is committed to customer satisfaction. Please refer to your purchase documentation or the retailer's website for information regarding returns, replacements, or warranty claims.
