SETUP AND ASSEMBLY

Full assembly is required for this bed frame. It is recommended that two people assemble the bed. All necessary tools and pre-drilled holes are provided for a straightforward installation process.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in your separate assembly guide to identify each component.
3. **Assemble Frame:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until the entire frame is assembled.
