Vente-unique RAPILI

Vente-unique RAPILI Wall Bed Instruction Manual

Model: RAPILI - 160 x 200 cm Vertical Manual Opening Wall Bed with LED

PRODUCT OVERVIEW

The Vente-unique RAPILI wall bed is designed to optimize space in modern living environments, offering a comfortable sleeping solution that can be discreetly stored when not in use. This manual provides essential information for the safe installation, operation, and maintenance of your RAPILI wall bed.

When closed, the RAPILI bed appears as a sleek cabinet. With a simple manual vertical opening mechanism, it transforms into a fully functional bed, providing the comfort of a traditional bed. It features integrated LED lighting and shelves above the bed, offering convenient storage and a relaxing ambiance.

SAFETY INFORMATION AND WARNINGS

Please read all safety instructions carefully before installation and use. Failure to follow these instructions may result in injury or damage to the product.

- Professional Installation Recommended:** Installation and any subsequent adjustments must only be performed by competent personnel.
- Two-Person Assembly:** A minimum of two people are required for the assembly and anchoring of this bed.
- Secure Wall Anchoring is Mandatory:** To prevent instability and tipping, this furniture must be securely fastened to a fixed support (wall) using the provided brackets.
- Appropriate Fasteners:** Fastening elements (screws and wall plugs) are NOT supplied. You must purchase screws and wall plugs suitable for your specific installation surface (e.g., solid wall, cavity wall, plasterboard). Ensure the chosen fasteners are appropriate for the weight and forces involved.
- Regular Fastener Checks:** Fastening elements must be checked regularly to ensure they remain secure.
- Level Surface:** The floor where the bed is installed must be flat, smooth, and horizontal.
- Follow Instructions:** The assembly and maintenance instructions provided with the product are essential for its safety and must be followed meticulously.
- Anti-Tipping Safety:** The bed is equipped with an anti-tipping safety mechanism. Ensure it is correctly engaged after installation.

Feature	Detail
Brand	Vente-unique
Model Name	RAPILI

Bed Dimensions (Open)	160 x 200 cm (Mattress size)
Overall Dimensions (Closed)	Length 179 cm x Depth 50 cm x Height 225.2 cm
Overall Dimensions (Open)	Length 179 cm x Depth 239.2 cm x Height 225.2 cm
Opening Mechanism	Manual Vertical Opening
Color	White
Structure Material	Particle Board (Truciolato)
Special Features	Integrated LED lighting, Silent opening, Anti-tipping safety, Invisible bed legs when closed
Storage Type	Shelves
Item Weight	188 Kilograms

SETUP AND INSTALLATION

The RAPILI wall bed requires careful assembly and secure wall mounting. It is crucial to follow the detailed assembly instructions provided with the product packaging. This section highlights key steps and considerations.

- Unpack Components:** Carefully unpack all components and verify against the parts list in the separate assembly manual. Ensure no parts are missing or damaged.
- Prepare Installation Area:** Choose a location with a flat, level floor. Ensure the wall where the bed will be anchored is structurally sound and capable of supporting the bed's weight.
- Assemble Frame:** Follow the step-by-step instructions in the assembly manual to construct the main frame of the wall bed. This typically involves assembling the side panels, back panel, and top/bottom sections.
- Install Wall Anchoring Brackets:** Position the bed frame against the chosen wall. Mark the drilling points for the wall anchoring brackets. Drill holes using an appropriate drill bit for your wall type. Insert suitable wall plugs (not supplied) and secure the brackets firmly to the wall.
- Attach Bed Frame to Wall:** Securely attach the assembled bed frame to the wall brackets using the provided hardware. This step is critical for safety and stability.
- Install Internal Components:** Assemble and install the internal bed mechanism, including the bed base, mattress support, and any shelving units.
- Connect LED Lighting:** Follow the instructions to connect the integrated LED lighting system. Ensure all wiring is secure and properly routed.
- Place Mattress:** Carefully place your 160 x 200 cm mattress onto the bed base. The bed is designed to accommodate the mattress, sheets, and duvet without needing to remove them when closing.
- Final Checks:** Before first use, perform a thorough check of all connections, screws, and wall anchors to ensure everything is tight and secure. Test the opening and closing mechanism several times.

OPERATING INSTRUCTIONS

The RAPILI wall bed features a manual vertical opening system designed for ease of use and silent operation.

Opening the Bed:

1. Ensure the area in front of the wall bed is clear of any obstructions.
2. Grasp the handle located on the upper part of the cabinet.
3. Gently pull the bed downwards. The vertical opening mechanism will smoothly guide the bed into its horizontal sleeping position. The bed legs will automatically extend as the bed lowers.
4. The integrated LED lights will illuminate the shelving area when the bed is open, providing ambient light.

Closing the Bed:

1. Ensure no items are left on the bed that could obstruct its closing. The elastic strap system is designed to keep the mattress, sheets, and duvet in place during closing, eliminating the need to remove them.
2. Grasp the handle and gently lift the bed upwards. The mechanism will assist in smoothly raising the bed back into its vertical cabinet position. The bed legs will retract automatically.
3. Push the bed firmly until it clicks into its fully closed and secured position. The bed legs will be invisible when fully closed.

Maintenance

Regular maintenance will ensure the longevity and safe operation of your RAPILI wall bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Mechanism Check:** Periodically inspect the opening and closing mechanism for smooth operation. If you notice any stiffness or unusual noises, do not force the mechanism.
- **Fastener Inspection:** Regularly check all screws and wall anchors to ensure they are tight. Re-tighten if necessary. This is crucial for the bed's stability and safety.
- **LED Lights:** If an LED light fails, consult the assembly manual for replacement instructions or contact customer support. Do not attempt to repair electrical components unless qualified.
- **General Care:** Avoid placing excessively heavy items on the shelves or bed frame. Do not allow children to play on or around the bed mechanism unsupervised.

Troubleshooting

This section addresses common issues you might encounter with your RAPILI wall bed. For problems not listed here, please contact Vente-unique customer support.

- **Bed is difficult to open/close:**

- Ensure no objects are obstructing the mechanism or the path of the bed.
- Check if the mattress or bedding is properly aligned and not interfering with the movement.
- Verify that all assembly screws are properly tightened, especially those related to the opening mechanism.

- **Bed feels unstable or wobbly:**

- Immediately cease using the bed.
- Re-check all wall anchoring points and ensure the fasteners are securely tightened into the wall.
- Confirm that the floor surface is perfectly level. Use shims if necessary to level the base.
- Ensure the anti-tipping safety mechanism is correctly engaged.

- **LED lights are not working:**

- Check the power connection to the LED system.
- Ensure the power outlet is functional.
- Inspect the wiring for any visible damage or loose connections.

CUSTOMER SUPPORT AND WARRANTY

For any questions, technical assistance, or to report issues with your Vente-unique RAPILI wall bed, please contact Vente-unique customer support.

Please refer to your purchase documentation for specific warranty terms and conditions. Keep your proof of purchase for warranty claims.
