Vente-unique RAPILI

Vente-unique Rapili 2-Seater Wall Bed

MODEL: RAPILI - INSTRUCTION MANUAL

Introduction

Thank you for choosing the Vente-unique Rapili 2-Seater Wall Bed. This innovative furniture piece is designed to maximize space in modern living environments, offering both a stylish cabinet appearance and a comfortable sleeping solution. When closed, it functions as an elegant cabinet with integrated LED-lit shelves. With a simple motion, it transforms into a full-sized bed suitable for regular use. This manual provides essential information for the safe assembly, operation, and maintenance of your Rapili wall bed.

Important Safety Warnings

Failure to follow these safety instructions may result in serious injury or damage to the product.

- **Professional Installation Required:** Installation and any subsequent adjustments must only be performed by qualified personnel.
- **Secure Wall Mounting is Critical:** To prevent any risk of tipping, this furniture must be securely fixed to a solid support using the provided brackets. Regularly check the fixing attachments for tightness and stability.
- **Appropriate Wall Fixings:** Beds are supplied with wall plugs for solid walls. For other types of supports (e.g., hollow walls, plasterboard, wood), you must purchase appropriate screws and wall plugs suitable for your specific wall material.
- **Sound Installation Surface:** The installation surface (wall and floor) must be perfectly sound, flat, horizontal, and capable of supporting the weight of this item (approximately 180 kg).
- **Two-Person Assembly:** A minimum of two persons are required for the assembly and anchoring of this bed.
- **Follow Instructions:** The assembly instructions provided with the product must be strictly followed, as well as the usage and maintenance guidelines, which are crucial for the product's safety.
- **Weight Limit:** Do not exceed the recommended maximum load of 120 kg on the bed. The overall weight limit

for the structure is 200 kg.

Setup and Installation

The Vente-unique Rapili wall bed requires careful assembly and secure installation. Please ensure you have all components and the necessary tools before beginning. Refer to the separate detailed assembly manual included with your product for step-by-step instructions.

Key Installation Steps:

1. **Unpack and Verify:** Carefully unpack all components and verify against the parts list in your assembly manual.
2. **Assemble the Cabinet Frame:** Follow the instructions to build the main cabinet structure.
3. **Install Wall Brackets:** Crucially, attach the provided wall brackets to the wall at the specified locations. Ensure you use appropriate screws and wall plugs for your wall type (not supplied).
4. **Mount the Bed Mechanism:** Integrate the bed frame and folding mechanism into the cabinet.
5. **Secure to Wall:** With the help of a second person, carefully position the assembled unit against the wall and securely fasten it using the wall brackets. This step is vital for safety.
6. **Install Shelves and LEDs:** Place the shelves and connect the LED lighting system as per the instructions.
7. **Mattress Placement:** Place your mattress onto the bed frame. The integrated elastic system will help secure it during operation.

Operating Instructions

The Rapili wall bed is designed for ease of use, transforming smoothly between its cabinet and bed configurations.

Opening the Bed:

1. **Clear the Area:** Ensure the space in front of the cabinet is clear of any obstructions.
2. **Release Latch (if applicable):** If your model includes a latch or lock, disengage it.
3. **Gently Pull Down:** Using the designated handle or panel, gently pull the bed downwards. The silent opening mechanism will assist in a smooth, controlled descent.
4. **Extend Legs:** The bed legs are designed to be invisible when closed and will automatically extend or can be manually deployed as the bed opens. Ensure they are fully extended and stable.
5. **Activate LEDs:** If desired, switch on the integrated LED lighting for the shelves.

Closing the Bed:

1. **Clear Bed Surface:** Remove any items from the bed surface that might obstruct closing. The elastic system will hold the mattress and bedding in place.
2. **Retract Legs:** Fold or retract the bed legs as designed.
3. **Gently Lift Up:** Using the handle, gently push the bed upwards. The mechanism will assist in a smooth, controlled ascent until it reaches the fully closed, vertical position.

4. **Engage Latch (if applicable):** Secure the bed in the closed position using any integrated latch or lock.

Maintenance

Proper care will ensure the longevity and continued smooth operation of your Rapili wall bed.

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the melamine finish.
- **Mechanism Check:** Periodically inspect the folding mechanism for any signs of wear or loose components. If you notice any issues, contact qualified personnel for inspection and repair.
- **Wall Fixings:** Regularly check the wall fixings to ensure they remain secure and tight. Re-tighten if necessary.
- **LEDs:** If the LED lighting malfunctions, consult the assembly manual for troubleshooting or contact customer support.

Troubleshooting

If you encounter any issues with your Rapili wall bed, please refer to the following common solutions:

- **Bed is difficult to open/close:**
 - Ensure the area around the bed is clear of obstructions.
 - Check if the mattress is correctly positioned and not interfering with the mechanism.
 - Verify that the wall fixings are secure and the bed is properly aligned.

- **LED lights not working:**
 - Check the power connection to the LED strip.
 - Ensure the switch is in the 'on' position.
 - If issues persist, consult the electrical diagram in the assembly manual or contact customer support.
- **Bed feels unstable:**
 - Immediately cease using the bed.
 - Re-check all wall fixings and ensure they are securely tightened.
 - Verify that the bed legs are fully extended and locked into position when the bed is open.
 - Contact qualified personnel for a safety inspection.
