## ZMISHIBO ZMF52BGNB01

# ZMISHIBO 52 Inch Flush Mount Ceiling Fan User Manual

Model: ZMF52BGNB01

## INTRODUCTION

---

Thank you for choosing the ZMISHIBO 52 Inch Flush Mount Ceiling Fan. This modern ceiling fan with light is designed to provide efficient air circulation and bright illumination for your bedroom, kitchen, or other indoor spaces. Featuring a low-profile design, remote control operation, and a reversible motor, it offers both functionality and aesthetic appeal. Please read this manual thoroughly before installation and operation to ensure safe and optimal performance.

## SAFETY INFORMATION

---

Always follow basic safety precautions when installing and operating electrical appliances. This includes:

- Ensure power is disconnected at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes.
- Consult a qualified electrician if you are unsure about wiring or installation.
- Mount the fan securely to a ceiling joist or a suitable support structure capable of supporting the fan's weight.
- Do not insert objects into the path of the rotating blades.
- This fan is designed for indoor use only.

## PACKAGE CONTENTS

---

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Assembly
- Fan Blades (5)
- LED Light Kit
- Remote Control
- Wall Cradle for Remote
- Mounting Bracket
- Hardware Pack (screws, wire nuts, washers)
- Instruction Manual

## SETUP AND INSTALLATION

---

Follow these steps for proper installation:

1. **Turn Off Power:** Before starting, ensure the power supply to the ceiling fan location is turned off at the circuit breaker.
2. **Mounting Bracket Installation:** Secure the mounting bracket to the ceiling junction box. Ensure the bracket is firmly attached to a structural beam or a fan-rated outlet box.
3. **Wiring Connections:** Connect the fan's electrical wires to the household wiring according to the provided wiring diagram. Use appropriate wire nuts to secure connections.
4. **Attach Fan Body:** Carefully lift the fan motor assembly and attach it to the mounting bracket. Ensure all connections are secure and the fan body is stable.
5. **Blade Assembly:** Attach each of the five fan blades to the motor housing using the provided screws. Ensure they are tightened securely.

# Two-Color Blades

Suitable for variety decoration styles

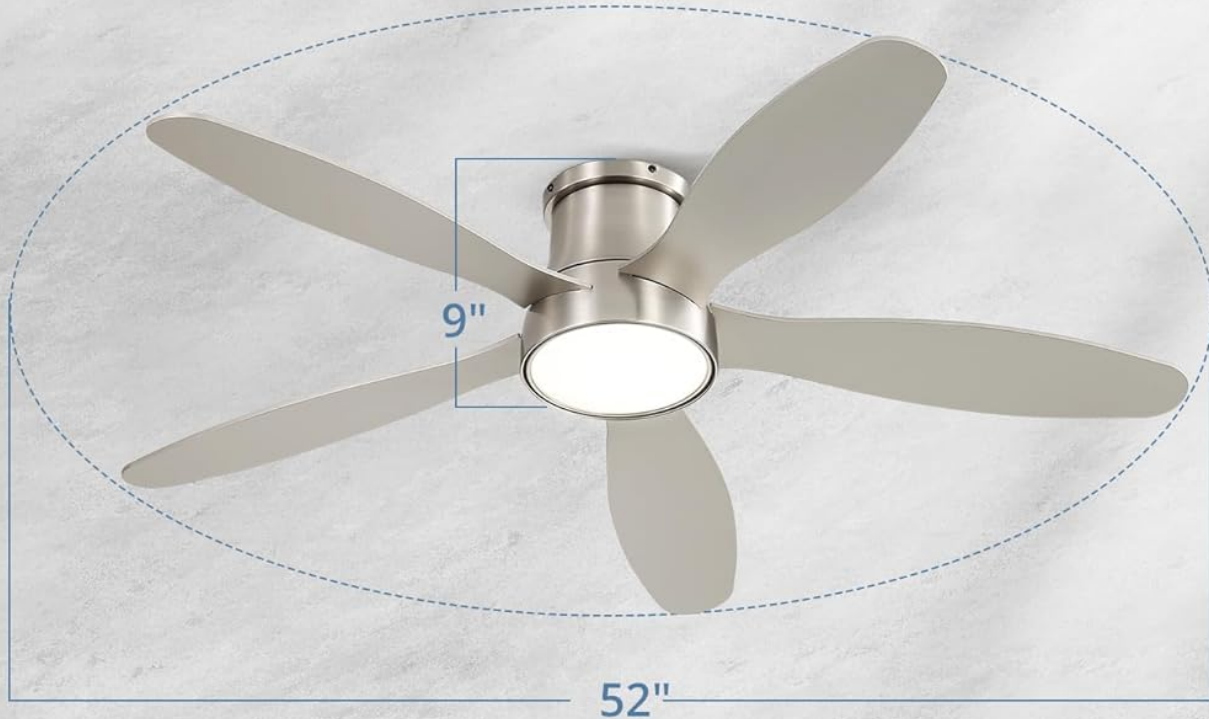

Image: The fan features two-color blades, allowing for customization to match various interior decoration styles. One side is a solid nickel color, and the other is a light wood grain.

6. **Light Kit Installation:** Connect the LED light kit to the fan's wiring and secure it to the bottom of the fan motor assembly.
7. **Restore Power:** Once all components are securely installed and wired, restore power at the circuit breaker.

## OPERATING INSTRUCTIONS

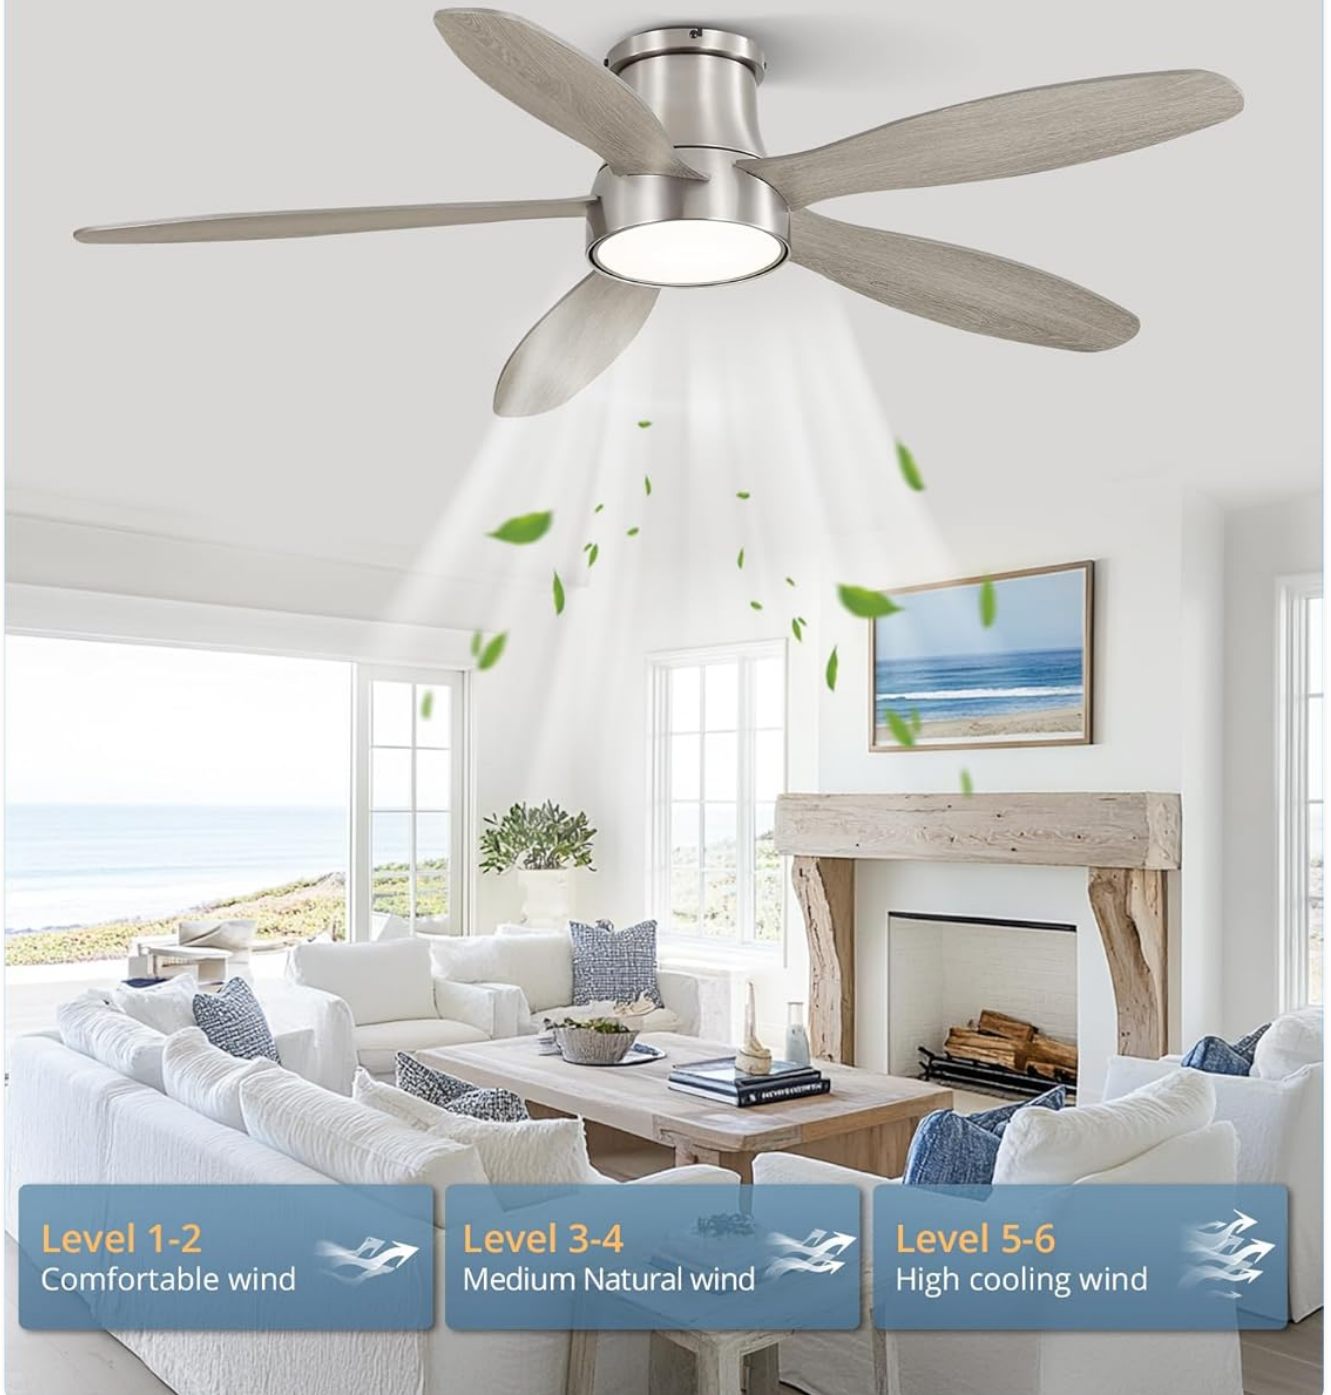

Your ZMISHIBO ceiling fan is controlled by a remote. Insert batteries into the remote control before use.

### **Remote Control Functions:**

- **Power On/Off:** Press the power button to turn the fan and light on or off.
- **Fan Speed Control:** Adjust between 6 fan speeds.
  - Levels 1-2: Comfortable wind
  - Levels 3-4: Medium natural wind
  - Levels 5-6: High cooling wind

# Large Air Volume Meets Your Need

**Level 1-2**  
Comfortable wind

**Level 3-4**  
Medium Natural wind

**Level 5-6**  
High cooling wind

Image: The ZMISHIBO ceiling fan demonstrating its large air volume capabilities, with visual cues for comfortable, medium natural, and high cooling wind levels (Levels 1-2, 3-4, and 5-6 respectively).

- **Light Color Temperature:** Cycle through 3 color temperature levels: 3000K (Warm White), 4500K (Neutral White), and 6000K (Cool White).

# 3 Lighting Options

Image: The ZMISHIBO ceiling fan showcasing its three lighting options: 3000K, 4500K, and 6000K, with a power of 18W and high brightness of 1500 LM.

- **Timer Function:** Set the fan to turn off automatically after 1, 4, or 8 hours.
- **Reversible Motor:** Use the reversible function to change the direction of the fan blades.
  - **Summer Mode (Downward Cool Air):** Blades rotate counter-clockwise to push cool air down.
  - **Winter Mode (Warm Air Circulation):** Blades rotate clockwise to pull cool air up and circulate warm air.

# Reversible Motor to Use Both in Winter and Summer

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Dust the fan blades and motor housing regularly with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Balance:** If the fan wobbles, check that all blade screws are tight and that the blades are not bent or damaged. Balancing kits can be used if necessary.
- **Light Source:** The integrated LED light is designed for long-lasting performance. If replacement is ever needed, contact customer support.
- **Quiet Operation:** The fan features a powerful and quiet DC motor.

# Quiet Operation

Image: The ZMISHIBO ceiling fan emphasizing its quiet operation, with a graphic indicating noise levels: Normal at 30dB and Chat at 60dB, highlighting the fan's "Super Quiet" performance.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low or not paired.	Check circuit breaker; Verify all wire connections are secure; Replace remote battery or re-pair remote.
Light does not work	Loose wire connection to light kit; LED light failure.	Check light kit wiring; Contact customer support for LED light replacement.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Use a blade balancing kit; Ensure mounting bracket is securely fastened.
Remote control not responding	Low battery; Remote not paired with fan; Obstruction between remote and receiver.	Replace remote battery; Refer to pairing instructions (if applicable); Ensure clear line of sight.

## SPECIFICATIONS

Feature	Detail
Brand	ZMISHIBO
Model Name	ZMF52BGNB01
Color	Nickel
Electric fan design	Ceiling Fan
Power Source	DC Motor
Style	Casual
Product Dimensions	22"D x 8"W x 11"H
Room Type	Bedroom, Kids Room, Living Room, Study Room
Special Feature	LED Light, Lightweight, Remote Controlled, Timer
Recommended Uses For Product	Air Circulation, Cooling
Wattage	18 watts
Finish Type	Metallic, White
Number of Blades	5
Voltage	120 Volts (DC)
Included Components	Light Kit, Remote
Indoor/Outdoor Usage	Indoor
Control Method	Remote

Feature	Detail
Light Type	LED
Efficiency	83.33 lm/W
Size	52 Inch
Item Weight	13.12 pounds
Date First Available	July 1, 2024

## WARRANTY AND SUPPORT
