## CUBOT CUBOT A10 Mobile Phones

# CUBOT A10 Mobile Phone User Manual

Your comprehensive guide to the CUBOT A10 Smartphone

## Introduction

Welcome to the user manual for your new CUBOT A10 Mobile Phone. This guide provides detailed instructions to help you set up, operate, maintain, and troubleshoot your device. The CUBOT A10 is designed to offer a seamless and efficient mobile experience, featuring the latest Android 14 operating system, a powerful Octa-core processor, and a large 6.56-inch HD+ display with a 90Hz refresh rate.

Key features include an impressive 12GB RAM (4GB + 8GB extended RAM) and 128GB internal storage, expandable up to 1TB with a microSD card. Capture stunning photos with the 48MP main camera and 16MP front camera. Stay powered throughout the day with the 5100mAh battery and 18W fast charging. This manual will help you unlock the full potential of your CUBOT A10.

## Setup

### 1. What's in the Box

Before you begin, ensure all components are present:

- CUBOT A10 Mobile Phone
- Screen Protector (pre-applied or in box)
- Power Adapter (9V2A)
- USB Cable

- SIM Tray Ejector
- Phone Protect Case
- Quick Start Guide
- Compliance Regulation Document

## 2. Inserting SIM Card(s) and MicroSD Card

The CUBOT A10 supports dual SIM cards or one SIM card and one MicroSD card for expanded storage.

1. Locate the SIM tray on the side of your phone.
2. Insert the SIM tray ejector tool into the small hole next to the tray and press firmly until the tray pops out.
3. Carefully pull out the SIM tray.
4. Place your Nano-SIM card(s) and/or MicroSD card into the designated slots on the tray, ensuring the gold contacts face down. Refer to the diagram on the tray for correct orientation.
5. Gently push the tray back into the phone until it clicks into place.

### 3. Initial Power On and Basic Setup

To power on your device for the first time:

1. Press and hold the Power button (usually on the right side) until the CUBOT logo appears.
2. Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and set up your Google account.
3. You can also set up Face ID during this initial setup or later in the settings.

## Operating Your CUBOT A10

### 1. Android 14 Operating System

The CUBOT A10 runs on the latest Android 14, offering enhanced privacy and security features, along with a range of personalization options. Enjoy a smooth and efficient experience across various applications.

### 6. Security and Navigation

- **Face ID Unlock:** Securely unlock your phone using facial recognition.
- **Navigation Systems:** The A10 supports GPS, Beidou, GLONASS, and Galileo for fast and accurate location services.
- **Hotkey Button:** A customizable hotkey button on the left side allows quick access to your preferred applications.

## Maintenance

### 1. General Care

- Keep your phone dry. Moisture can damage the device.
- Avoid extreme temperatures. Do not expose your phone to very hot or very cold environments.
- Clean the screen and body with a soft, lint-free cloth. Avoid using harsh chemicals.

- Protect the screen with the provided screen protector and case to prevent scratches and damage.

### 2. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can usually find this option in *Settings > System > System update*

### 3. Battery Care

- Use only the original charger and cable provided with your CUBOT A10.
- Avoid fully discharging the battery frequently. It is recommended to keep the battery level between 20% and 80% for optimal longevity.
- Do not leave the phone charging for excessively long periods after it reaches 100%.

## Troubleshooting

If you encounter issues with your CUBOT A10, try the following solutions:

| Problem | Possible Solution |
| --- | --- |
| Phone freezes or is unresponsive | Press and hold the Power button for about 10-15 seconds to force a restart. |
| Apps not opening or freezing | ◦ Close and reopen the app.<br>◦ Clear the app's cache (*Settings > Apps > [App Name] > Storage > Clear cache*).<br>◦ Ensure the app is updated to the latest version.<br>◦ Restart the phone. |
| Battery drains quickly | ◦ Reduce screen brightness.<br>◦ Disable Wi-Fi, Bluetooth, and GPS when not in use.<br>◦ Close background apps.<br>◦ Check battery usage in *Settings > Battery* to identify power-hungry apps. |
| Cannot connect to Wi-Fi/Mobile Data | ◦ Toggle Wi-Fi/Mobile Data off and on.<br>◦ Restart your phone and/or router.<br>◦ Forget the Wi-Fi network and reconnect.<br>◦ Ensure SIM card is properly inserted and activated. |
| Poor call quality | ◦ Check network signal strength.<br>◦ Move to an area with better reception.<br>◦ Ensure nothing is blocking the microphone or speaker. |

If the problem persists, consider performing a factory reset (*Settings > System > Reset options > Erase all data (factory reset)*). **Warning: This will erase all data on your phone. Back up important data before proceeding.**
