6. MAINTENANCE

To ensure optimal performance and longevity of your GiveBest Smart Wall Heater, regular maintenance is recommended:

- **Clean the Filter:** The heater features a washable filter. Regularly remove and clean the filter to maintain air quality and heating efficiency.
- **Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, unplug the heater and store it in a cool, dry place.

7. TROUBLESHOOTING

If you encounter any issues with your heater, please refer to the following common solutions:

- **Heater not turning on:** Ensure the power cord is securely plugged into a working outlet. Check if the unit's power button is pressed. Verify no safety features (like tip-over or overheat protection) have been triggered.
- **No heat output:** Check the selected heating mode and thermostat setting. Ensure the desired temperature is higher than the current room temperature.
- **WiFi connection issues:** Ensure your router is within range and functioning correctly. Follow the app's instructions for re-pairing the device.
- **Unusual noises:** Check if the filter is clean and properly installed. Ensure no foreign objects are obstructing the fan.

If problems persist, please contact customer support.
