# AXI Hugo Wooden Garden Cabinet - User Manual

Model: A090.052.00

## INTRODUCTION

---

The AXI Hugo Wooden Garden Cabinet provides an elegant and practical solution for organizing your outdoor space. Designed for durability and functionality, this cabinet offers ample storage for gardening tools, pots, plant food, and other outdoor essentials, keeping them protected from the elements.

This manual provides essential information for the assembly, operation, and maintenance of your AXI Hugo Garden Cabinet. Please read it thoroughly before use.

## SAFETY INFORMATION

---

For external use only. Ensure the cabinet is placed on a stable, level surface. Always follow assembly instructions carefully to prevent injury or damage. Keep small children and pets away during assembly. Do not overload shelves; the maximum weight capacity per shelf is 30 kg.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all parts are present and undamaged. Refer to the included parts list in your physical manual for a complete inventory. Key components include:

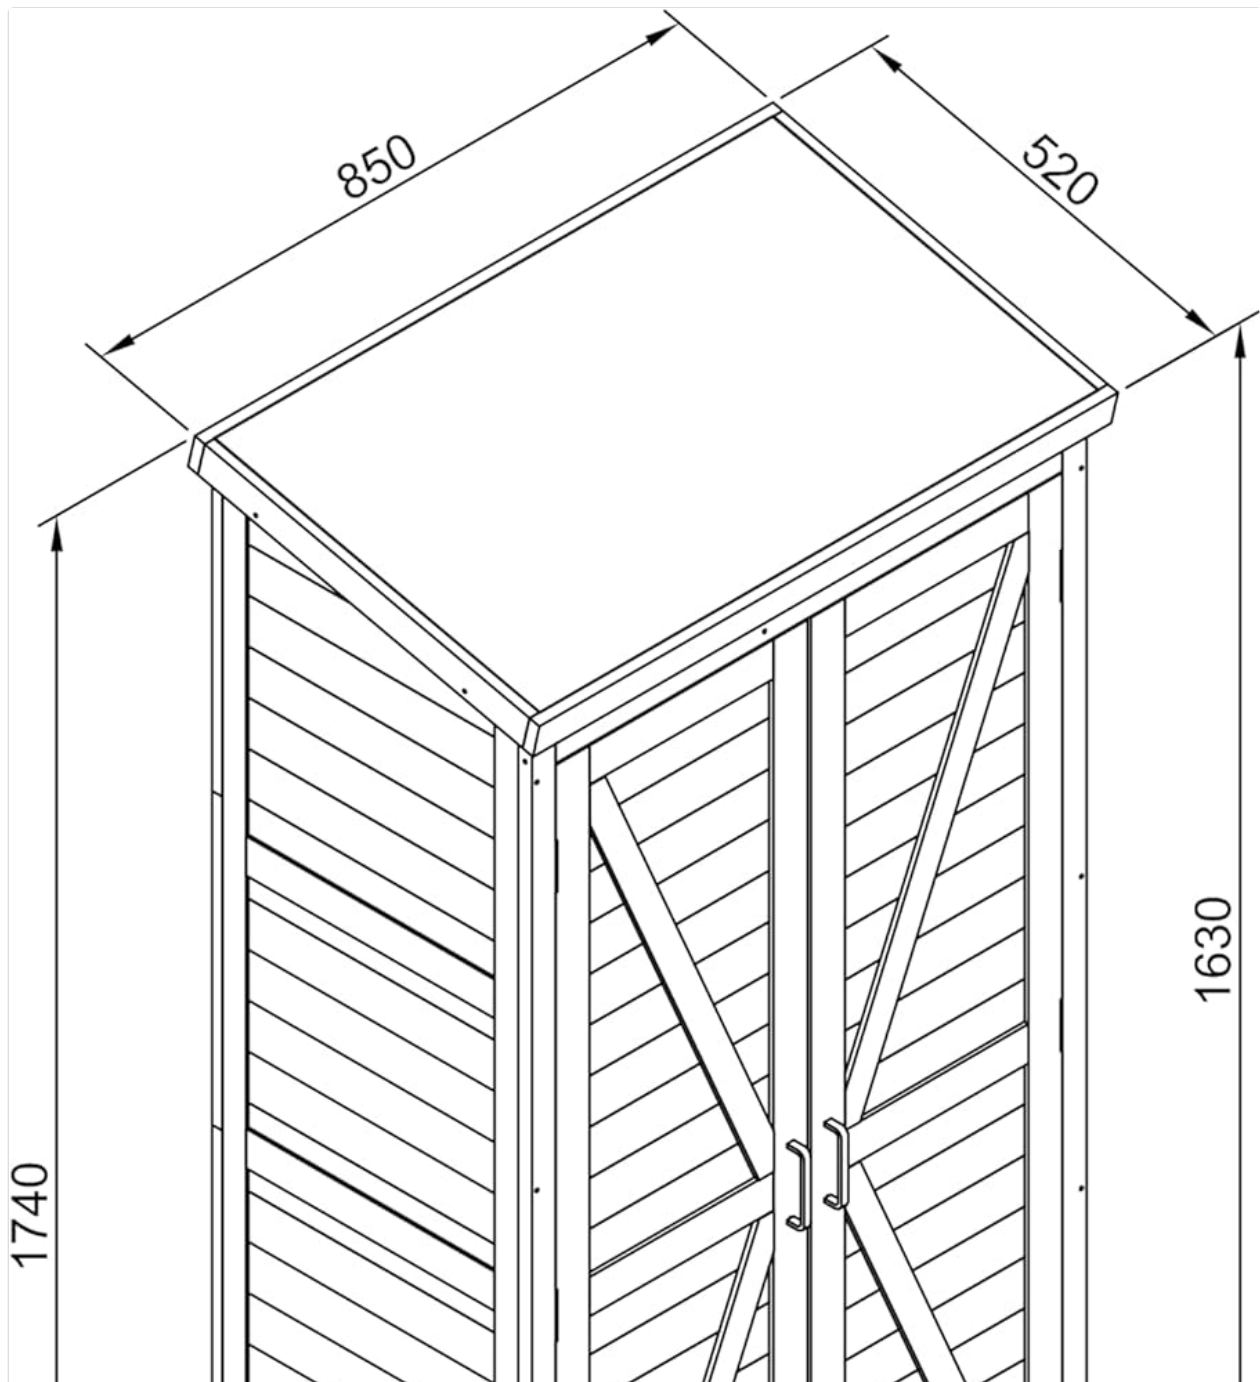

- Wooden panels for the cabinet structure
- Galvanized roof panel
- Three fixed shelves
- Magnetic closure system
- Adjustable feet
- Assembly hardware (screws, bolts, etc.)

## SETUP AND ASSEMBLY

---

The AXI Hugo Garden Cabinet requires assembly. Follow the detailed instructions provided in the physical manual for step-by-step guidance. A clear, flat area is recommended for assembly.

1. **Unpacking:** Carefully unpack all components and lay them out on a clean, flat surface. Check against the parts list to ensure everything is present.
2. **Base Assembly:** Assemble the base frame according to the manual. Attach the adjustable feet to the bottom of the cabinet.
3. **Side and Back Panels:** Secure the side and back panels to the base using the provided hardware.
4. **Shelves Installation:** Install the three fixed shelves into their designated positions within the cabinet.
5. **Door Assembly:** Attach the doors to the cabinet frame and install the magnetic closure system. Ensure doors swing freely and close securely.
6. **Roof Installation:** Secure the galvanized roof panel to the top of the cabinet. Ensure it is properly aligned to provide weather protection.
7. **Leveling:** Once assembled, use the adjustable feet to ensure the cabinet is stable and level on uneven surfaces. This prevents wobbling and ensures proper door alignment.

## OPERATING INSTRUCTIONS

---

The AXI Hugo Garden Cabinet is designed for convenient and secure storage of your garden items.

- **Storage:** Utilize the three fixed shelves for smaller items like pots, fertilizers, and gardening gloves. The taller, open section is ideal for larger tools such as rakes, shovels, or leaf blowers.
- **Door Operation:** The doors are equipped with a magnetic closure system for easy and secure closing. Ensure both doors are fully closed to protect contents from weather.
- **Weather Protection:** The galvanized roof provides protection against rain and sun, keeping the cabinet's contents dry and safe. While the wood is naturally weather-resistant, consistent closure of the doors enhances protection.

## MAINTENANCE

---

To ensure the longevity and appearance of your AXI Hugo Garden Cabinet:

- **Wood Material:** The cabinet is constructed from 100% FSC Hemlock wood, known for its natural resistance to splitting and wood rot. This wood comes from sustainably managed forests.
- **Finish:** The wood is treated with a water-based, chemical-free stain, meaning no additional treatment is required before initial use.
- **Cleaning:** Clean the cabinet periodically with a damp cloth to remove dirt and debris. Avoid harsh chemical cleaners that may damage the wood finish.
- **Inspection:** Regularly inspect the cabinet for any signs of wear, loose hardware, or damage. Tighten screws as needed.
- **Re-staining (Optional):** Over time, if desired, the wood can be re-stained with a suitable outdoor wood stain to refresh its appearance and further enhance protection.

## TROUBLESHOOTING

---

If you encounter any issues with your AXI Hugo Garden Cabinet, refer to the following common solutions:

- **Cabinet Wobbles:**

- Check that the cabinet is on a firm, level surface.
- Adjust the height of the individual feet until the cabinet is stable.

- **Doors Do Not Close Properly:**

- Ensure the cabinet is level. Uneven surfaces can cause door misalignment.
- Check that the magnetic closure components are correctly aligned and securely fastened.
- Inspect hinges for any damage or looseness.

- **Water Inside the Cabinet:**

- Verify that the galvanized roof is securely attached and properly overlapping the cabinet walls to shed water.
- Ensure doors are fully closed and latched.
- Check for any gaps or cracks in the wood panels that may have developed over time; these can be sealed with appropriate outdoor wood sealant.

## SPECIFICATIONS

---

Feature	Detail
Product Dimensions (L x W x H)	85 x 52 x 174 cm
Item Weight	32 Kilograms
Model Number	A090.052.00
Brand	AXI
Color	Beige
Material	Wood (FSC Hemlock)
Style	Rustic
