2. Setup and Initial Fluffing

Your Mewai plush pillow is vacuum-sealed for shipping. To restore its original shape and fluffiness, follow these steps:

1. **Unpack:** Carefully remove the plush from its vacuum-sealed packaging.
2. **Shake & Massage:** Gently shake and massage the plush to help distribute the filling and encourage it to expand.
3. **Allow to Expand:** For optimal fluffiness, allow the plush to expand naturally for 24-48 hours.
4. **Optional Steaming:** For quicker recovery or enhanced softness, use a steam iron. Keep the steam on each surface of the plush for more than 5 seconds. Alternatively, tumble dry on a low heat setting.

How to Awaken Your Cat

3. Care and Maintenance

To ensure the longevity and cleanliness of your plush pillow, follow these care instructions:

- **Washing:** Machine washing on a delicate cycle or hand washing is recommended. Use cold water and a mild detergent.
- **Drying:** Tumble dry on a low heat setting or air dry. If air drying, ensure the plush is thoroughly dry to prevent mildew. For best results and to maintain fluffiness, use a steam iron as described in the setup section.
- **Avoid:** Do not bleach, iron directly (without steam), or dry clean.
