1. PRODUCT OVERVIEW

The Bewinner Language Translator Earbuds offer real-time translation for 137 languages, covering over 90% of the world's population. Powered by four top translation engines, these earbuds achieve a 97% translation accuracy rate. With 15 global servers, they provide low-latency translation of approximately 0.5 seconds, enabling nearly seamless simultaneous interpretation. These earbuds also feature Bluetooth 5.3 for stable connectivity and noise reduction for clear communication.

3.2 Pairing with Your Device

To use the translation features, you must pair the earbuds with your smartphone via Bluetooth.

1. Ensure the earbuds are charged and placed in the charging case.
2. Open the charging case lid. The earbuds will automatically enter pairing mode.
3. On your smartphone, go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices and select "Bewinner Translator Earbuds" (or similar name) from the list.
5. Once connected, you will hear an audio prompt, and the earbuds will be ready for use.

3.3 App Installation

For full functionality, including language selection and translation modes, download the dedicated app.

1. Scan the QR code provided in the quick start guide or search for the 'Bewinner Translator' app in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. Download and install the app.
3. Open the app and follow the on-screen instructions to connect your earbuds.

4. OPERATING INSTRUCTIONS

4.1 Translation Modes

The Bewinner Translator Earbuds offer three intelligent translation modes to suit various communication scenarios:

- **Touch Mode:** Two individuals each wear an earbud. Click or double-click the earbud to initiate real-time translation of spoken words.
- **Outgoing Mode:** One person wears an earbud, while the other person speaks into the smartphone. This mode is ideal for one-on-one conversations where only one party needs to hear the translation directly.
- **Speech Mode:** Both individuals wear an earbud, and the system translates speech in real-time without requiring manual input for each phrase.

Three Modes of Intelligent Translation

The wearable translator provides three different translation modes to meet various telecommunication scenarios. Touch mode: two people each wearing a earphone, click or double click to translate in real time; outgoing mode: one person wearing a earphone, one person holding a cell phone; free speech mode: two people each wearing a earphone, translating in real time.

4.2 Making and Receiving Calls

The earbuds are equipped with binaural HD microphones for clear and interference-free calls. The Bluetooth 5.3 master-slave switching chip ensures a fast and consistent connection for both translation and audio playback.

- **Answer/End Call:** Tap either earbud once.
- **Reject Call:** Press and hold either earbud for 2 seconds.
- **Voice Assistant:** Triple-tap either earbud to activate your device's voice assistant.
