Model: a26993f1-5e81-430c-9ad0-9f6e39259b0c

INTRODUCTION

This manual provides essential information for the safe and effective use of your Vangoa 61-Key Light-Up Keyboard Piano and Kids Electric Guitar. Please read these instructions thoroughly before operating the instruments and retain them for future reference.

SAFETY INFORMATION

- **Power Supply:** Use only the specified power adapter. Ensure the voltage matches your local power supply. Unplug the instruments during lightning storms or when unused for extended periods.
- **Water and Moisture:** Do not expose the instruments to water or excessive moisture. Avoid placing liquid-filled containers near them.
- **Ventilation:** Do not block ventilation openings. Ensure adequate airflow around the instruments.
- **Placement:** Place the instruments on a stable, flat surface. Avoid extreme temperatures, direct sunlight, or heat sources.
- **Cleaning:** Clean only with a dry, soft cloth. Do not use liquid cleaners or aerosols.
- **Children:** Adult supervision is recommended for young children operating these instruments. Small parts may pose a choking hazard.

OPERATING INSTRUCTIONS

Keyboard Piano Operation

- **Power On/Off:** Press the **POWER** button to turn the keyboard on or off.
- **Volume Control:** Use the **VOLUME** knob or buttons to adjust the overall sound level.
- **Lighted Keys:** The keyboard features lighted keys to assist beginners in learning melodies. Follow the illuminated keys during demo songs or learning modes.
- **Timbres (Voices):** Select from 350 built-in timbres to change the instrument sound. Refer to the keyboard's panel

for timbre selection buttons or number input.

- **Rhythms:** Choose from 350 rhythms to add a backing track to your playing. Adjust the tempo as desired.
- **Demo Songs:** Play one of the 30 demo songs to hear examples or practice along.
- **Percussions:** Access 61 percussion sounds for rhythmic accompaniment.
- **Vibrato & Sustain:** Use the dedicated **VIBRATO** and **SUSTAIN** buttons to add effects to your sound.
- **Recording & Playback:** The keyboard allows you to record your performances and play them back. Consult the manual for specific recording and playback button functions.

Electric Guitar Operation

- **Volume Knob:** Adjust the output volume of the guitar using the **VOLUME** knob on the guitar body.
- **3-Way Switch (Pickup Selector):** The guitar features S-S (Single-Single) pickups. Use the 3-way switch to select different pickup configurations, which alters the tonal quality of the sound. Experiment with positions to find your

preferred tone.

- **Playing:** Hold the guitar comfortably. Use a pick or your fingers to pluck or strum the strings. Practice basic chords and scales.

S-S Pickups

By adjusting the pickup position of the gear switch, kids can choose different tones according to their needs.

MAINTENANCE

- **Cleaning:** Wipe down the instruments regularly with a soft, dry, lint-free cloth. For the guitar, clean the strings after each use to prolong their life.
- **Storage:** Store the instruments in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.

Use the provided guitar bag for protection.

- **String Replacement (Guitar):** Guitar strings will eventually wear out and break. Replace them with appropriate gauge strings when necessary.
- **Battery Replacement (Amp/Tuner):** If the mini amplifier or tuner uses batteries, replace them when power is low.

TROUBLESHOOTING

Keyboard Piano

- **No Sound:**
 - Ensure the power adapter is securely connected and the keyboard is turned on.
 - Check the volume level.
 - If headphones are connected, sound will only come through them. Disconnect headphones if you want sound from the speakers.
- **Keys Not Lighting Up:**
 - Ensure the lighted key feature is enabled (if applicable, refer to specific button on keyboard).
 - This feature typically works during learning modes or demo songs.

Electric Guitar

- **No Sound from Amplifier:**
 - Ensure the guitar and amplifier are both turned on.
 - Check that the instrument cable is securely connected to both the guitar and the amplifier.
 - Verify the amplifier's volume is turned up.
 - Check the amplifier's power source (batteries or power adapter).
- **Poor Sound Quality/Buzzing:**
 - Ensure all cable connections are tight.
 - Check the guitar's volume and tone knobs.
 - Try a different instrument cable to rule out a faulty cable.
 - Ensure the guitar is properly tuned.
