nanoblock mininano Series Box of 6 set

nanoblock Naruto Shippuden mininano Series Box of 6 Set Instruction Manual

MODEL: MININANO SERIES BOX OF 6 SET

Brand: nanoblock

1. Introduction

Welcome to the nanoblock Naruto Shippuden mininano Series Box of 6 Set instruction manual. This guide provides detailed information on the assembly, care, and display of your new nanoblock figures. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

nanoblock offers a unique micro-sized building block experience, allowing for intricate detail in compact models. This set features six popular characters from the Naruto Shippuden series.

2. Product Overview

The nanoblock Naruto Shippuden mininano Series Box of 6 Set includes all components necessary to construct six distinct character figures. Each figure is designed with nanoblock's signature micro-sized bricks, allowing for detailed representations of the beloved characters.

The set contains the following characters:

- Naruto Uzumaki
- Sakura Haruno
- Sasuke Uchiha
- Kakashi Hatake
- Itachi Uchiha
- Jiraiya

3. Setup and Preparation

- 1. Unboxing:** Carefully open the product packaging. Each character's building blocks and instructions are typically sealed in individual bags within the box.
- 2. Workspace Preparation:** Choose a clean, flat, and well-lit surface for assembly. Due to the small size of nanoblock pieces, a clear workspace helps prevent loss of parts.
- 3. Part Identification:** Before starting, familiarize yourself with the different types and colors of blocks. Each character's instruction sheet will detail the specific parts required for that model.

4. Assembly Instructions

Each character in the nanoblock mininano Series has its own dedicated instruction sheet. Follow the step-by-step diagrams provided with each individual character's packaging. The general assembly process involves layering blocks according to the visual guide.

- **Start from the Base:** Most nanoblock models begin with a base layer, building upwards.
- **Layer by Layer:** Carefully place each block as indicated in the instructions, ensuring a snug fit.
- **Small Parts:** Handle the micro-sized blocks with care. Using tweezers can assist with precise placement of very small pieces.
- **Verify Each Step:** Before proceeding to the next step, double-check that all blocks for the current layer are correctly placed and secured.

5. Display and Handling

Once assembled, your nanoblock figures are ready for display. Place them on a stable, flat surface away from direct sunlight and excessive heat to prevent potential discoloration or warping of the plastic.

- **Gentle Handling:** While nanoblock models are sturdy, avoid dropping them or applying excessive force, as small pieces may detach.
- **Secure Placement:** Ensure figures are placed where they are unlikely to be knocked over,

especially if displayed in high-traffic areas.

6. Maintenance and Care

To keep your nanoblock figures in optimal condition, follow these simple care guidelines:

- **Cleaning:** Dust can be removed with a soft, dry brush or a can of compressed air. For more stubborn dirt, gently wipe with a slightly damp cloth, then dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If disassembling or storing the figures, keep all pieces in a sealed container to prevent loss and protect them from dust and damage.

7. Troubleshooting

- **Missing Pieces:** If you discover a missing piece, first re-check your workspace and packaging thoroughly. Due to the small size, pieces can be easily overlooked. If a piece is genuinely missing, please contact nanoblock customer support with details of the specific piece and model.
- **Difficulty Assembling:** Ensure you are following the instructions precisely, step by step. Sometimes, a block may appear to fit in multiple places, but only one is correct according to

the diagram. Refer to the visual guides carefully.

- **Figures Not Stable:** Double-check that all blocks are fully pressed together and seated correctly. Loose connections can lead to instability.

8. Specifications

Feature	Detail
Product Dimensions	6 x 3 x 4 inches (packaging dimensions)
Item Weight	8 ounces
ASIN	B0D8LL8GWB
Manufacturer	nanoblock

9. Warranty and Support

nanoblock products are manufactured to high-quality standards. For specific warranty information or to inquire about replacement parts, please refer to the official nanoblock website or contact their customer support directly. Contact details are typically available on the product packaging or the manufacturer's official website.
