1. SAFETY INFORMATION

Read all instructions before operating the Voyager Paw Patrol Chase 6V Quad. Failure to follow these safety guidelines may result in serious injury.

- **Adult Supervision Required:** Always supervise children during operation.
- **Age and Weight Limits:** Suitable for children aged 2 to 3 years. Maximum weight capacity is 55 lbs (25 kg).
- **Protective Gear:** Always wear a helmet and appropriate safety gear (e.g., knee and elbow pads) when riding.
- **Safe Riding Environment:** Use on flat, dry surfaces away from traffic, swimming pools, and steep inclines. Avoid riding in wet conditions, sand, or loose gravel.
- **Battery Safety:** Only use the provided charger and battery. Do not modify the electrical system. Keep the battery away from heat and moisture.
- **Assembly:** Ensure all parts are correctly assembled and secured by an adult before first use.

2. PRODUCT OVERVIEW

The Voyager Paw Patrol Chase 6V Quad is a battery-powered ride-on toy designed for young children. It features a durable construction and simple controls for an enjoyable and safe riding experience.

Key Features:

- 6V Motor:** Provides speeds of 1.25-1.55 MPH for safe and controlled movement.
- Durable Construction:** Made with 85% PP, 0.50% ABS, 2.5% PE, and 5% iron for longevity and safety.
- Easy Controls:** Simple foot pedal for forward and reverse driving.
- Rechargeable Battery:** Equipped with a 6V-1.3AH rechargeable battery for extended playtime.
- Paw Patrol Graphics:** Features popular Paw Patrol Chase graphics for an engaging design.

3. SETUP

3.1 Assembly

The Paw Patrol Chase 6V Quad requires minimal assembly. Please refer to the separate assembly guide included in the packaging for detailed step-by-step instructions. Ensure all components are securely fastened before proceeding to charging and operation.

3.2 Charging the Battery

Before first use, the battery must be fully charged. The charging port is typically located near the battery compartment. Use only the charger provided with your quad.

1. Locate the charging port on the quad.
2. Plug the charger into a standard wall outlet.
3. Connect the charger's plug to the quad's charging port.
4. Allow the battery to charge for the recommended time (refer to the separate charging instructions for specific duration). The indicator light on the charger will typically change color (e.g., red to green) when charging is complete.
5. Disconnect the charger once the battery is fully charged. Do not overcharge.

Note: If the quad is a gift, it is recommended to charge the battery in advance as it may arrive uncharged.

4. OPERATING INSTRUCTIONS

Operating the Paw Patrol Chase 6V Quad is straightforward. Ensure the child is seated comfortably and understands the basic controls.

- 1. Power On:** Locate the power switch (often a toggle switch) and turn it to the "ON" position.
- 2. Foot Pedal Operation:** The quad is controlled by a single foot pedal.
 - To move **forward**, press the foot pedal down gently.
 - To move **backward**, press the foot pedal up gently (if applicable, some models may only have forward).
 - To **stop**, release the foot pedal.
- 3. Steering:** Use the handlebars to steer the quad left or right.
- 4. Supervision:** Always ensure an adult is supervising the child during operation.

5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your Paw Patrol Chase 6V Quad.

- **Cleaning:** Wipe the quad with a damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:**
 - Charge the battery after each use.
 - If storing for an extended period, charge the battery fully every 30 days to maintain its life.
 - Do not store the quad or battery in extreme temperatures.
- **Inspections:** Periodically check all nuts, bolts, and fasteners to ensure they are tight. Inspect wheels and tires for wear or damage.
- **Storage:** Store the quad in a dry, cool place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter issues with your Paw Patrol Chase 6V Quad, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Quad does not move	Battery is low or uncharged. Power switch is off. Foot pedal not fully pressed.	Charge the battery fully. Turn the power switch to "ON". Ensure the foot pedal is fully depressed.
Quad moves slowly	Battery is low. Overloaded (exceeds 55 lbs). Riding on an unsuitable surface.	Recharge the battery. Ensure rider weight is within limits. Use on flat, hard surfaces.
Battery not charging	Charger not properly connected. Faulty charger or battery.	Check all connections. Contact customer support for replacement.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	25.5 x 15.2 x 17.9 inches
Item Weight	12.57 pounds
Model Number	A6VATV371C-CHS-STK-1
Recommended Age	24 months - 3 years
Battery	6V-1.3AH Rechargeable (1 Nonstandard Battery required)
Max Speed	1.25-1.55 MPH
Max Weight Capacity	55 LBS
Manufacturer	Sakar International
Release Date	July 2, 2024

8. WARRANTY AND SUPPORT

This product comes with a standard manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms and conditions.
