vebiliki H10

vebiliki 2K Spy Camera Instruction Manual

Model: H10 | Brand: vebiliki

1. INTRODUCTION

Thank you for choosing the vebiliki 2K Spy Camera. This true wireless hidden camera is designed for discreet indoor surveillance, offering advanced features such as 2K video resolution, 2.4G WiFi connectivity, extended standby time, and precise motion detection. This manual provides detailed instructions to help you set up, operate, and maintain your camera effectively.

The vebiliki 2K Spy Camera, shown held in a hand, with a smartphone displaying its live feed, highlighting its compact size and monitoring capability.

2. WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- vebiliki 2K Spy Camera (Model H10)
- Charging Cable
- Instruction Manual
- Mounting Screw
- Stand

Official unboxing video demonstrating the contents of the vebiliki 2K Spy Camera package, including the camera, cables, and mounting accessories.

3. PRODUCT OVERVIEW

The vebiliki 2K Spy Camera is designed to be compact and discreet, making it ideal for various indoor surveillance needs. Its small size allows for versatile placement.

Dimensions of the vebiliki 2K Spy Camera: approximately 2 inches (height) x 1.5 inches (width) x 1.4 inches (depth).

Camera Components

- **Front:** 2K Camera Lens, Infrared (IR) Sensor for Night Vision.
- **Side:** Ventilation slots.
- **Back:** ON/OFF switch, Reset button, Micro SD card slot (supports up to 128GB), USB charging port.

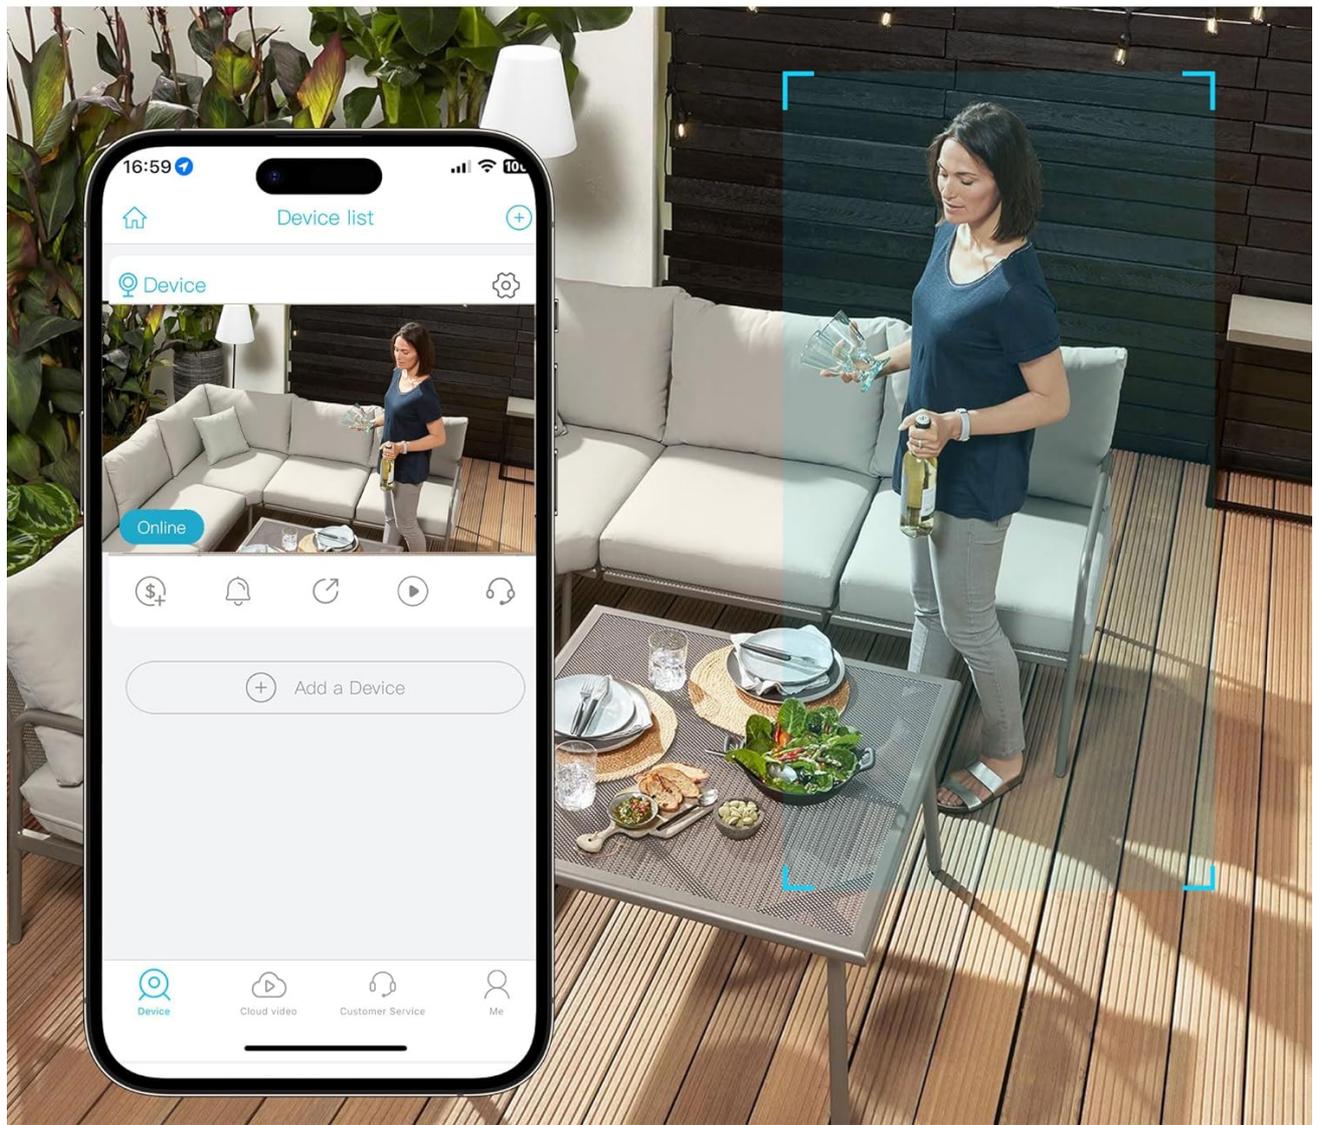

4. KEY FEATURES

- **True Wireless & Long Standby:** Operates without constant power connection, offering up to 10 days of active use or 30 days of standby on a full charge.

- **2K Video Resolution:** Captures clear and detailed footage.
- **2.4GHz WiFi Connectivity:** Ensures stable long-range connection with better wall penetration (not compatible with 5GHz networks).
- **PIR Motion Detection:** Advanced passive infrared sensor provides accurate real-time alerts, minimizing false alarms.
- **Auto Night Vision:** Automatically switches to infrared night vision for clear monitoring in low-light conditions.
- **Cloud & Local Storage:** Supports secure cloud storage (30-day free trial included) and local storage via Micro SD card (up to 128GB).
- **140-Degree Viewing Angle:** Provides a wide field of view for comprehensive coverage.
- **Multi-User Sharing:** Allows multiple family members to view the camera feed simultaneously via the app.

PIR Motion Detection

Smart motion detection, get automatic alert and video recording

The UBox app interface demonstrating PIR motion detection, which provides real-time alerts and video recording upon detecting movement.

Amazing Battery Life

The camera's powerful built-in battery offers up to 30 days of standby time, ensuring long-lasting performance.

Clear Night Vision

2K video, automatic infrared night vision

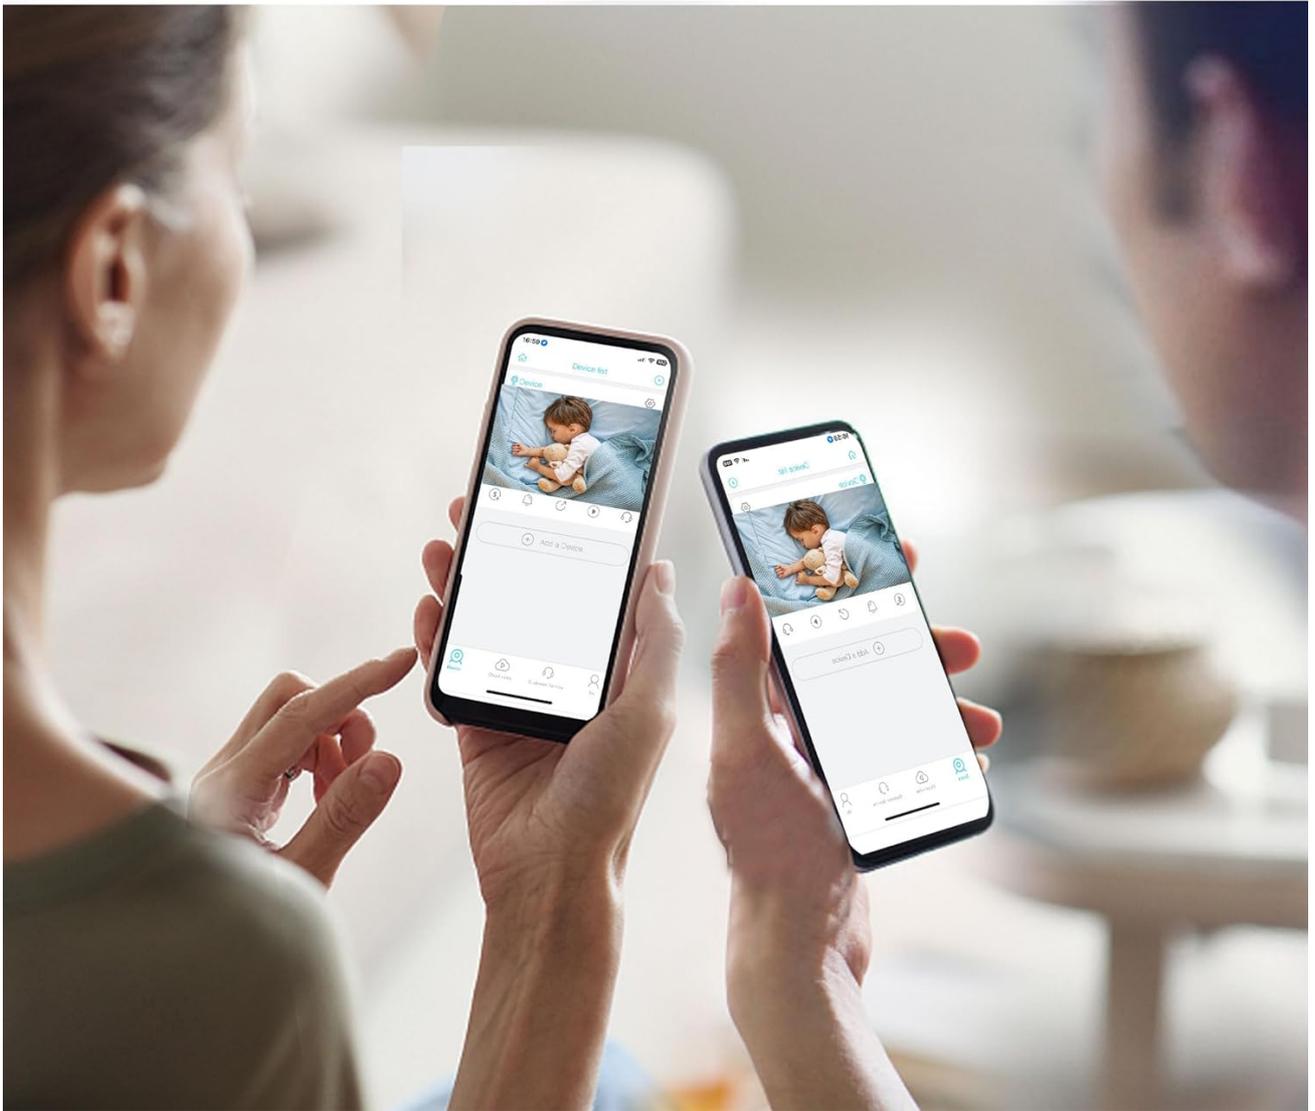

2K video resolution with automatic infrared night vision provides clear images even in complete darkness.

The camera offers a 140-degree wide viewing angle, providing extensive coverage of your indoor space.

Share with your family

Allow your family members to view this camera simultaneously

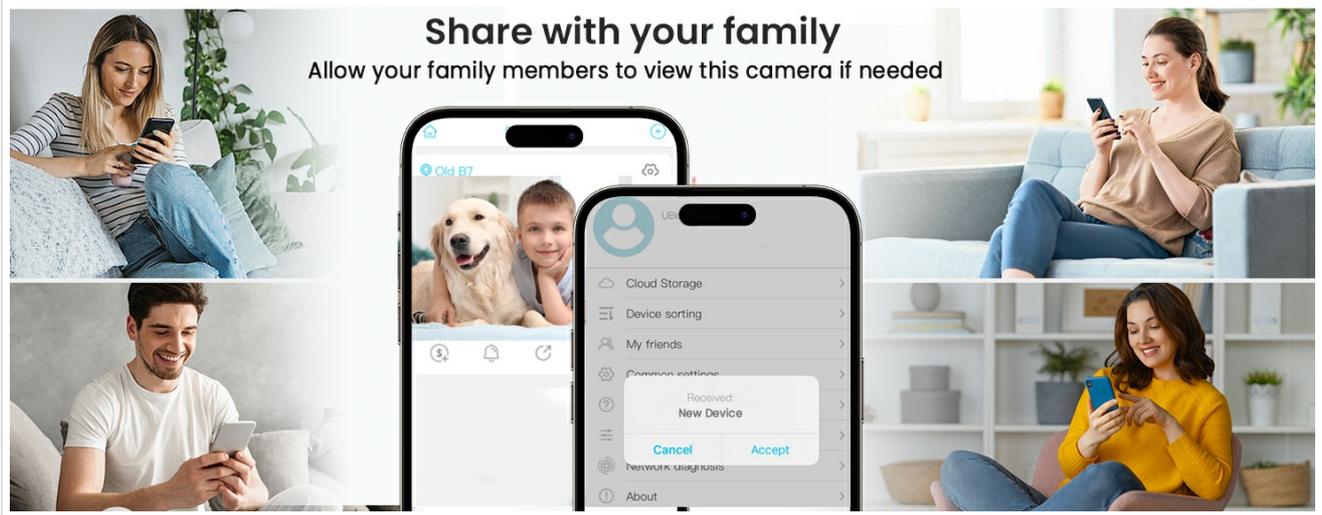

The camera allows multiple family members to view the live feed simultaneously, enhancing shared security.

5. SETUP GUIDE

Follow these steps to set up your vebiliki 2K Spy Camera and connect it to your Wi-Fi network:

Step 1: Download the UBox App

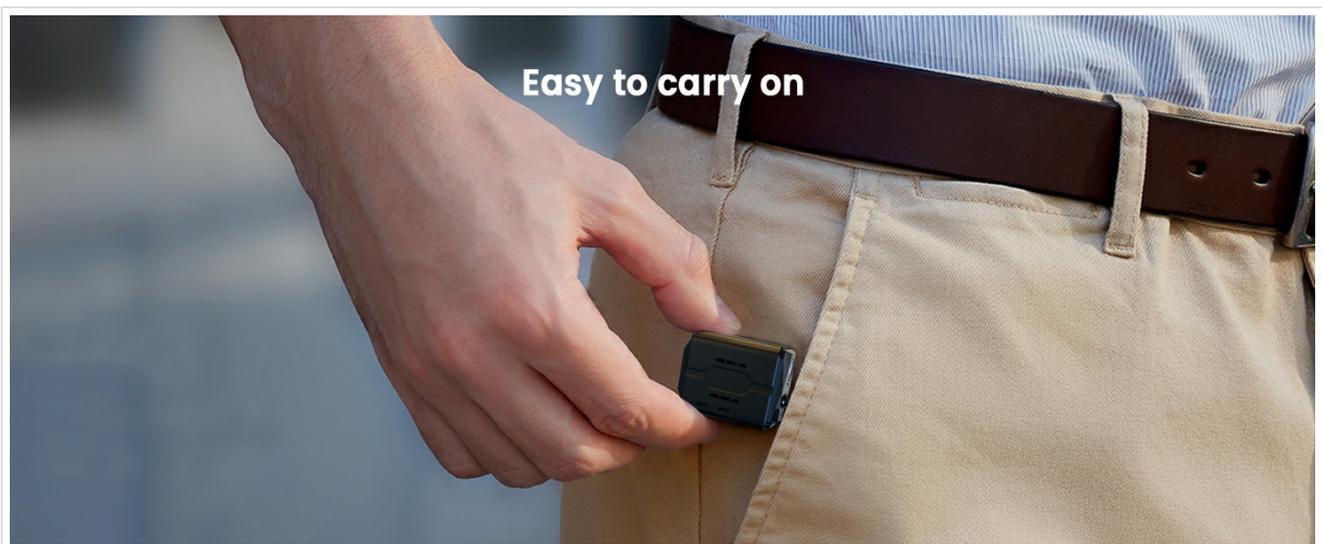

Scan the QR code below or search for "UBox" in your device's app store (App Store for iOS, Google Play for Android) to download and install the application.

Scan the QR code to download the UBox app. After installation, register and log in to the app.

Step 2: Initial Camera Power On and Pairing

1. After registering and logging in, click the "+" icon in the UBox app to add a new device.
2. Select "Setup WiFi device".
3. Turn on your camera. Wait for the blue indicator light to flash, indicating it's ready for pairing. Confirm in the app by clicking "Yes".
4. Set a name and location for your new camera and proceed to the next step.

Follow the in-app prompts to discover your device and assign a name and location for easy identification.

Step 3: Connect to 2.4G WiFi

1. Ensure your smartphone is connected to a 2.4G WiFi network. The camera only supports 2.4G WiFi.
2. Input your 2.4G WiFi name and password into the app.
3. The app will generate a QR code. Place your phone with the QR code in front of the camera's lens at a distance of approximately 10 cm (4 inches).
4. The camera will scan the QR code and you will hear a confirmation voice. The app will complete the connection within 10 seconds.

Connect the camera to your 2.4G WiFi network by scanning the generated QR code with the camera's lens.

6. OPERATING THE CAMERA

Live View

Once connected, open the UBox app and select your camera from the device list to access the live video feed. You can monitor your space in real-time from anywhere with an internet connection.

Motion Detection and Alerts

The camera's upgraded PIR motion detection system will send real-time alerts to your smartphone when motion is detected. Ensure notifications are enabled in your phone's settings for the UBox app to receive these alerts.

Night Vision

The camera automatically activates its infrared night vision in low-light conditions, providing clear black-and-white video. The night vision range is up to 16 feet.

7. STORAGE OPTIONS

Your vebiliki 2K Spy Camera offers flexible storage solutions for your recordings:

- **Cloud Storage:** All motion-triggered recordings can be securely uploaded to the cloud. A 30-day free trial is included. This ensures your footage is safe even if the camera is tampered with.
- **Micro SD Card Storage:** The camera supports Micro SD cards up to 128GB for continuous loop recording. Insert the card into the designated slot on the back of the camera. Please format the SD card through the UBox app for first-time use.

Cloud Storage & SD Storage

Choose cloud storage, no worry about data loss

30-day free trial
Cloud Storage

Up to 128GB Storage
(SD card not included)

Choose between secure cloud storage (with a 30-day free trial) or local storage via an SD card up to 128GB.

8. MOUNTING AND PLACEMENT

The camera comes with an upgraded stable stand and mounting screws for easy installation. Its compact size allows for versatile placement in various indoor environments.

Easy to install

Simple installation, easy to attach to the magnetical stand

The camera's stable stand and included mounting options allow for flexible placement on flat surfaces, walls, or ceilings.

Outstanding Night Vision

With automatic infrared night vision, enjoy a clear image at night

The camera can be easily mounted using the included stand or 3M tape, fitting various indoor locations.

9. MAINTENANCE

- **Charging:** Charge the camera using the provided USB cable. A full charge provides up to 10 days of use or 30 days of standby.
- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using liquid cleaners or abrasive materials.
- **Placement:** This camera is designed for indoor home security. It is not waterproof.

10. TROUBLESHOOTING

If you encounter issues with your camera, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Camera fails to connect to Wi-Fi.	Incorrect Wi-Fi name or password; Wi-Fi is 5GHz (camera only supports 2.4GHz); Router too far from camera; Router has no internet connection.	Verify Wi-Fi credentials; Connect to a 2.4GHz network; Move camera closer to router; Check router's internet connection. If issues persist, press the reset button for 3 seconds.
No motion detection alerts.	Notifications disabled in app/phone settings; PIR sensitivity too low.	Enable UBox app notifications; Adjust PIR sensitivity in app settings.
Poor video quality.	Low light conditions; Dirty lens.	Ensure adequate lighting or rely on night vision; Clean the camera lens with a soft cloth.
SD card not recording.	SD card not formatted; SD card full or corrupted.	Format the SD card via the UBox app; Replace the SD card if corrupted.
