5. Troubleshooting

If you encounter any issues with your COLAMY dining chairs, please refer to the following common troubleshooting tips:

Wobbling or Instability:

- Ensure all screws and bolts are securely tightened. Over time, fasteners may loosen, leading to wobbling.
- Verify that the chair is placed on a flat, even surface. Uneven flooring can cause perceived instability.
- Check the foot pegs/levelers (if applicable) to ensure they are properly adjusted and making full contact with the floor.

Fabric Stains:

- For minor spills, blot immediately with a clean, dry cloth.
- For tougher stains, use a mild fabric cleaner specifically designed for upholstery, following the product's instructions. Always

test on an inconspicuous area first.

If issues persist, please contact customer support.
