COMITOK L7C Pro Kit

COMITOK L7C Pro AI Gimbal Stabilizer User Manual

Brand: COMITOK | Model: L7C Pro Kit

INTRODUCTION

The COMITOK L7C Pro AI Gimbal Stabilizer is designed to provide stable and professional-quality video recording for smartphones. Featuring advanced 9.0 anti-shake technology and an intelligent magnetic AI tracking unit, this device simplifies content creation for users of all experience levels. Its foldable design ensures portability, while integrated features like an adjustable fill light and gesture control enhance usability in diverse environments.

SETUP

1. Charging the Gimbal

Before first use, fully charge the gimbal. Insert the Type-C charging cable into the charging port on the side of the handle. The battery level indicator lights will blink during charging and remain solid when fully charged.

2. App Download (Optional)

For extended features, download the 'Gimbal Pro' app. Scan the QR code provided in the manual or search for 'Gimbal Pro' in your device's app store (Apple App Store or Google Play Store).

3. Phone Installation & Power On

Clip your phone securely into the center of the gimbal's phone holder. The gimbal is designed for quick start with no leveling required. Press and hold the power button for one second to turn the gimbal on/off.
