DaToo DPL-50

DaToo 2-Inch Aquarium LED Air Bubble Stone Disk User Manual

Brand: DaToo | Model: DPL-50

1. PRODUCT OVERVIEW

The DaToo 2-inch Aquarium LED Air Bubble Stone Disk is designed to enhance your aquatic environment by providing both oxygenation and vibrant lighting. It features multi-color gradient LEDs and a nano-grade bubble stone to create a visually appealing and healthy habitat for your fish.

Image: The DaToo 2-inch Aquarium LED Air Bubble Stone Disk, a compact device for aeration and lighting.

Key Features:

- **Multi-Color Gradient Light Mode:** Six high-brightness LEDs automatically switch between red, green, blue, white, purple, and pink, creating a smooth and natural color transition.
- **Nano-Grade Bubble Stone:** Produces tiny, even bubbles to increase dissolved oxygen content and create a pearl-like visual effect.
- **12V Body-Safe Output Voltage:** Ensures safety for both users and aquatic life.
- **IP68 Waterproof Rating:** Allows for complete submersion in water.
- **High-Quality Dazzle Color Light Beads:** Offers better color saturation, high brightness, and low power consumption without overheating.
- **Easy Installation:** Equipped with three strong bottom suction cups and a power cord suction cup for secure placement.
- **Included Air Tubing:** Comes with a 3.5ft durable air tubing for convenient connection to an air pump (air pump not included).

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x DaToo 2-inch LED Aquarium Bubbling Stone Disk
- 1 x DC 12V 1A Safety Adapter
- 1 x 3.5ft Durable Air Tubing (Inside diameter 3/16")

You Can Get

- **1* 2inch LED Aquarium Bubbling Stone Disk**

- **1* DC 12V 1A Safety Adapter**

- **1* 3.5ft Durable Air Tubing**

3. SPECIFICATIONS

Specification	Value
Input Voltage	100V-240V
Output Voltage	DC 12V 1A
Size (Diameter x Height)	2.13 x 0.59 inches (5.33 x 1.52 cm)

Specification	Value
Air Hole Diameter	3/16 inch
Light Colors	Red, Green, Blue, White, Purple, Pink (Auto Changing)
Waterproof Rating	IP68
Air Tubing Length	3.5 ft
Material	Stone
Item Weight	181 g

4. SETUP INSTRUCTIONS

- 1. Prepare the Bubble Stone:** Before initial use, soak the bubble stone in water for at least 1 hour. This helps ensure optimal bubble diffusion.
- 2. Connect Air Tubing:** Attach one end of the provided 3.5ft air tubing to the air inlet on the side of the LED Air Bubble Stone Disk.
- 3. Connect to Air Pump:** Connect the other end of the air tubing to a compatible air pump (not included). Ensure the air pump is rated 1.5W or more for best performance.
- 4. Position in Aquarium:** Place the LED Air Bubble Stone Disk at the desired location in your aquarium. The three strong bottom suction cups will help secure it firmly to the tank floor.
- 5. Secure Power Cord:** Use the additional power cord suction cup to organize and secure the power cord along the inside or outside of the aquarium, keeping the setup tidy.
- 6. Connect Power:** Plug the DC 12V 1A safety adapter into a power outlet.

Easy To Use

Strong Bottom Suction Cups

Firmly fixed in aquarium, never move or tip over

Power Cord Suction Cup

Make the inside of aquarium more tidy

3.5ft Durable Air Tubing

Solid connection, no need to buy extra, perfect for beginners

5. OPERATING INSTRUCTIONS

Once properly set up and powered, the DaToo LED Air Bubble Stone Disk will automatically begin its operation:

- **Automatic Color Changing:** The six high-brightness LEDs will automatically cycle through a gradient of colors including red, green, blue, white, purple, and pink. The color transition is smooth and natural, creating a dynamic visual effect in your aquarium.
- **Continuous Bubbling:** The connected air pump (not included) will push air through the nano-grade bubble stone, generating a steady stream of fine bubbles. This process continuously oxygenates the water, which is vital for the health of your fish and aquatic plants.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your LED Air Bubble Stone Disk.

- **Cleaning the Bubble Stone:** Over time, algae or mineral buildup may reduce the airflow and bubble production from the nano-grade bubble stone. If this occurs, gently remove the disk from the aquarium. Use a stiff brush (like a toothbrush) to clean the surface of the bubble stone, removing any obstructions. Rinse thoroughly before returning to the tank.
- **General Cleaning:** Periodically wipe the exterior of the disk and power cord with a soft, damp cloth to remove any debris. Ensure the power adapter remains dry.

7. TROUBLESHOOTING

If you encounter any issues with your DaToo LED Air Bubble Stone Disk, please refer to the following common troubleshooting steps:

- **No Bubbles:**

- Ensure the air pump (not included) is properly connected and functioning.
- Check for kinks or blockages in the air tubing.
- Clean the nano-grade bubble stone as described in the Maintenance section to remove any algae or mineral buildup.

- **Lights Not Working:**

- Verify that the power adapter is securely plugged into both the LED disk and a working power outlet.
- Check if the power outlet is functional by plugging in another device.
- Ensure there is no visible damage to the power cord or adapter.

- **Weak Bubbles:**

- Confirm that your air pump is powerful enough (recommended 1.5W or more).
- Clean the bubble stone to improve airflow.

8. WARRANTY AND SUPPORT

The DaToo LED Aquarium Bubbling Stone Disk comes with a one-year warranty from the date of purchase. If you experience any issues or have questions, please contact our professional customer service team, available 24 hours a day, for assistance.

For warranty claims or technical support, please refer to the contact information provided with your purchase or visit the official DaToo website.
