Safecourt Kitchen Juicer

MODEL: JE200 / JE100*User Instruction Manual*

Introduction

Thank you for choosing the Safecourt Kitchen Juicer. This powerful 1300W appliance is designed to extract maximum juice from fruits and vegetables, providing you with fresh, nutrient-rich beverages. Its efficient design, wide feeding chute, and easy-to-clean components make daily juicing simple and convenient. Please read this manual thoroughly before first use to ensure safe and optimal operation.

Important Safety Instructions

- Always ensure the appliance is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or any other liquid.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Always use the food pusher provided.
- Ensure all parts are correctly assembled and the locking bar is securely in place before operating.
- This appliance is for household use only. Do not use outdoors.
- Do not operate the juicer if the power cord or plug is damaged, or if the appliance malfunctions or has been dropped.
- All materials in contact with food are 100% BPA-free, ensuring your juice is free from harmful substances.
- Supervise children when the appliance is in use.

Product Components

Familiarize yourself with the parts of your Safecourt Kitchen Juicer:

1. Food Pusher
2. Feeding Chute
3. Juicer Cover
4. Filter Basket (Titanium reinforced)
5. Juice Collector
6. Pulp Container
7. Motor Base with Control Dial (OFF/LOW/HIGH)
8. Locking Bar
9. Juice Jug with Foam Separator
10. Cleaning Brush

Image: A four-panel image showing the process: 1) Washing a carrot under a faucet, 2) Placing the carrot into the juicer's wide feeding chute, 3) Operating the juicer, and 4) Fresh juice being extracted into the pitcher.

Setup

Before first use, wash all removable parts (except the motor base) in warm, soapy water, rinse thoroughly, and dry. Ensure the appliance is unplugged during assembly.

1. Place the motor base on a stable, flat, and dry surface.
2. Insert the juice collector onto the motor base.
3. Place the titanium-reinforced filter basket firmly into the juice collector.
4. Position the juicer cover over the filter basket and juice collector, ensuring it aligns correctly.
5. Lift the locking bar and secure it into the grooves on the juicer cover until it clicks into place. The juicer will not operate unless the locking bar is securely fastened.
6. Place the pulp container under the pulp spout.
7. Position the juice jug under the juice spout.

Operating Instructions

Prepare your fruits and vegetables by washing them. For most items, pre-cutting is not necessary thanks to the extra-wide 80mm feeding chute. Remove large seeds or hard pits from fruits like peaches or avocados.

1. Ensure the juicer is properly assembled and the juice jug and pulp container are in place.

2. Plug the power cord into a suitable electrical outlet.
3. Turn the control dial to the desired speed setting:
 - **LOW (1):** Ideal for softer fruits and vegetables like oranges, grapes, tomatoes, and leafy greens.
 - **HIGH (2):** Recommended for harder fruits and vegetables such as carrots, apples, beets, and celery.
4. Gradually feed the prepared fruits and vegetables into the feeding chute. Use the food pusher to gently guide them down. Do not force ingredients, as this can strain the motor.
5. The juicer will separate the juice into the jug and the pulp into the pulp container. The integrated foam separator in the juice jug helps ensure a clear, smooth juice.
6. Once juicing is complete, turn the control dial to the "OFF" position and unplug the appliance.

Image: A visual comparison showing less pulp from the Safecourt juicer compared to another, highlighting its high juice yield, alongside a detailed view of the titanium-reinforced filter basket.

Cleaning and Maintenance

Regular cleaning ensures the longevity and hygiene of your juicer. Always unplug the appliance before cleaning.

1. Turn the control dial to "OFF" and unplug the juicer.
2. Unlock the locking bar and remove the juicer cover, filter basket, juice collector, and pulp container.
3. Empty the pulp container and juice jug.
4. Rinse all removable parts under running water. Use the provided cleaning brush to thoroughly clean the filter basket, as pulp can easily get trapped in the mesh.
5. All removable parts are dishwasher-safe (top rack recommended).
6. Wipe the motor base with a damp cloth. Never immerse the motor base in water.
7. Allow all parts to dry completely before reassembling or storing.

Troubleshooting

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; Locking bar not secured; Overheat protection activated.	Ensure plug is firmly in outlet; Secure locking bar until it clicks; Unplug and let cool for 30 minutes before restarting.

Problem	Possible Cause	Solution
Low juice yield or excessive wet pulp.	Incorrect speed setting for ingredients; Filter basket clogged; Overfeeding.	Use HIGH speed for hard produce; Clean filter thoroughly; Feed ingredients slowly and gently.
Appliance stops during operation.	Overload protection activated; Motor overheating.	Turn off, unplug, remove excess pulp/ingredients, and let cool for 30 minutes before restarting. Reduce load next time.
Vibration or loud noise.	Improper assembly; Unbalanced filter basket.	Disassemble and reassemble all parts correctly; Ensure filter basket is seated firmly and not damaged.

Specifications

Brand: Safecourt Kitchen

Model Number: JE200 / JE100

Power: 1200 Watts (Peak 1300W)

Voltage: 230 Volts

Material: Titanium (filter), BPA-free plastics

Color: Silver

Dimensions (L x W x H): 10 x 32 x 40 cm (approx. 3.9 x 12.6 x 15.7 inches)

Item Weight: 4.01 Kilograms (approx. 8.84 lbs)

Number of Speeds: 2 (Low, High)

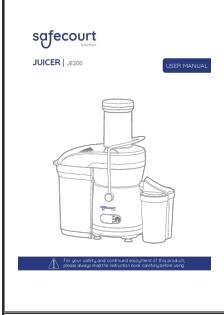

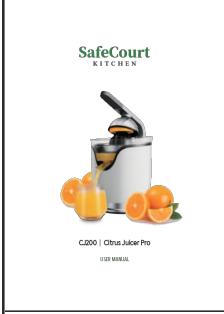

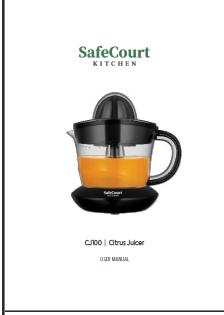

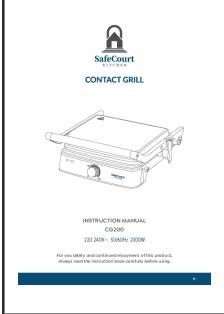

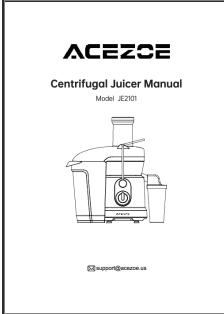

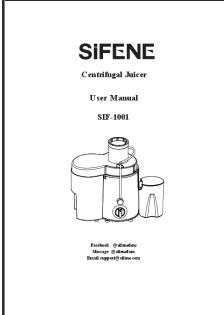

Special Features: Powerful motor, Wide feeding chute, Integrated foam separator, Dishwasher-safe parts
