› Popl Digital Business Card - Smart NFC Networking Card - Tap to Share - Compatible with iPhone & Android (Limited Edition Black Lux)
User Manual

Popl Black Lux

Popl Digital Business Card User Manual

Model: Black Lux

INTRODUCTION

The Popl Digital Business Card is an innovative solution for modern networking, allowing you to instantly share your contact information and social media profiles with a simple tap or scan. This manual provides detailed instructions to help you get started and make the most of your Popl card.

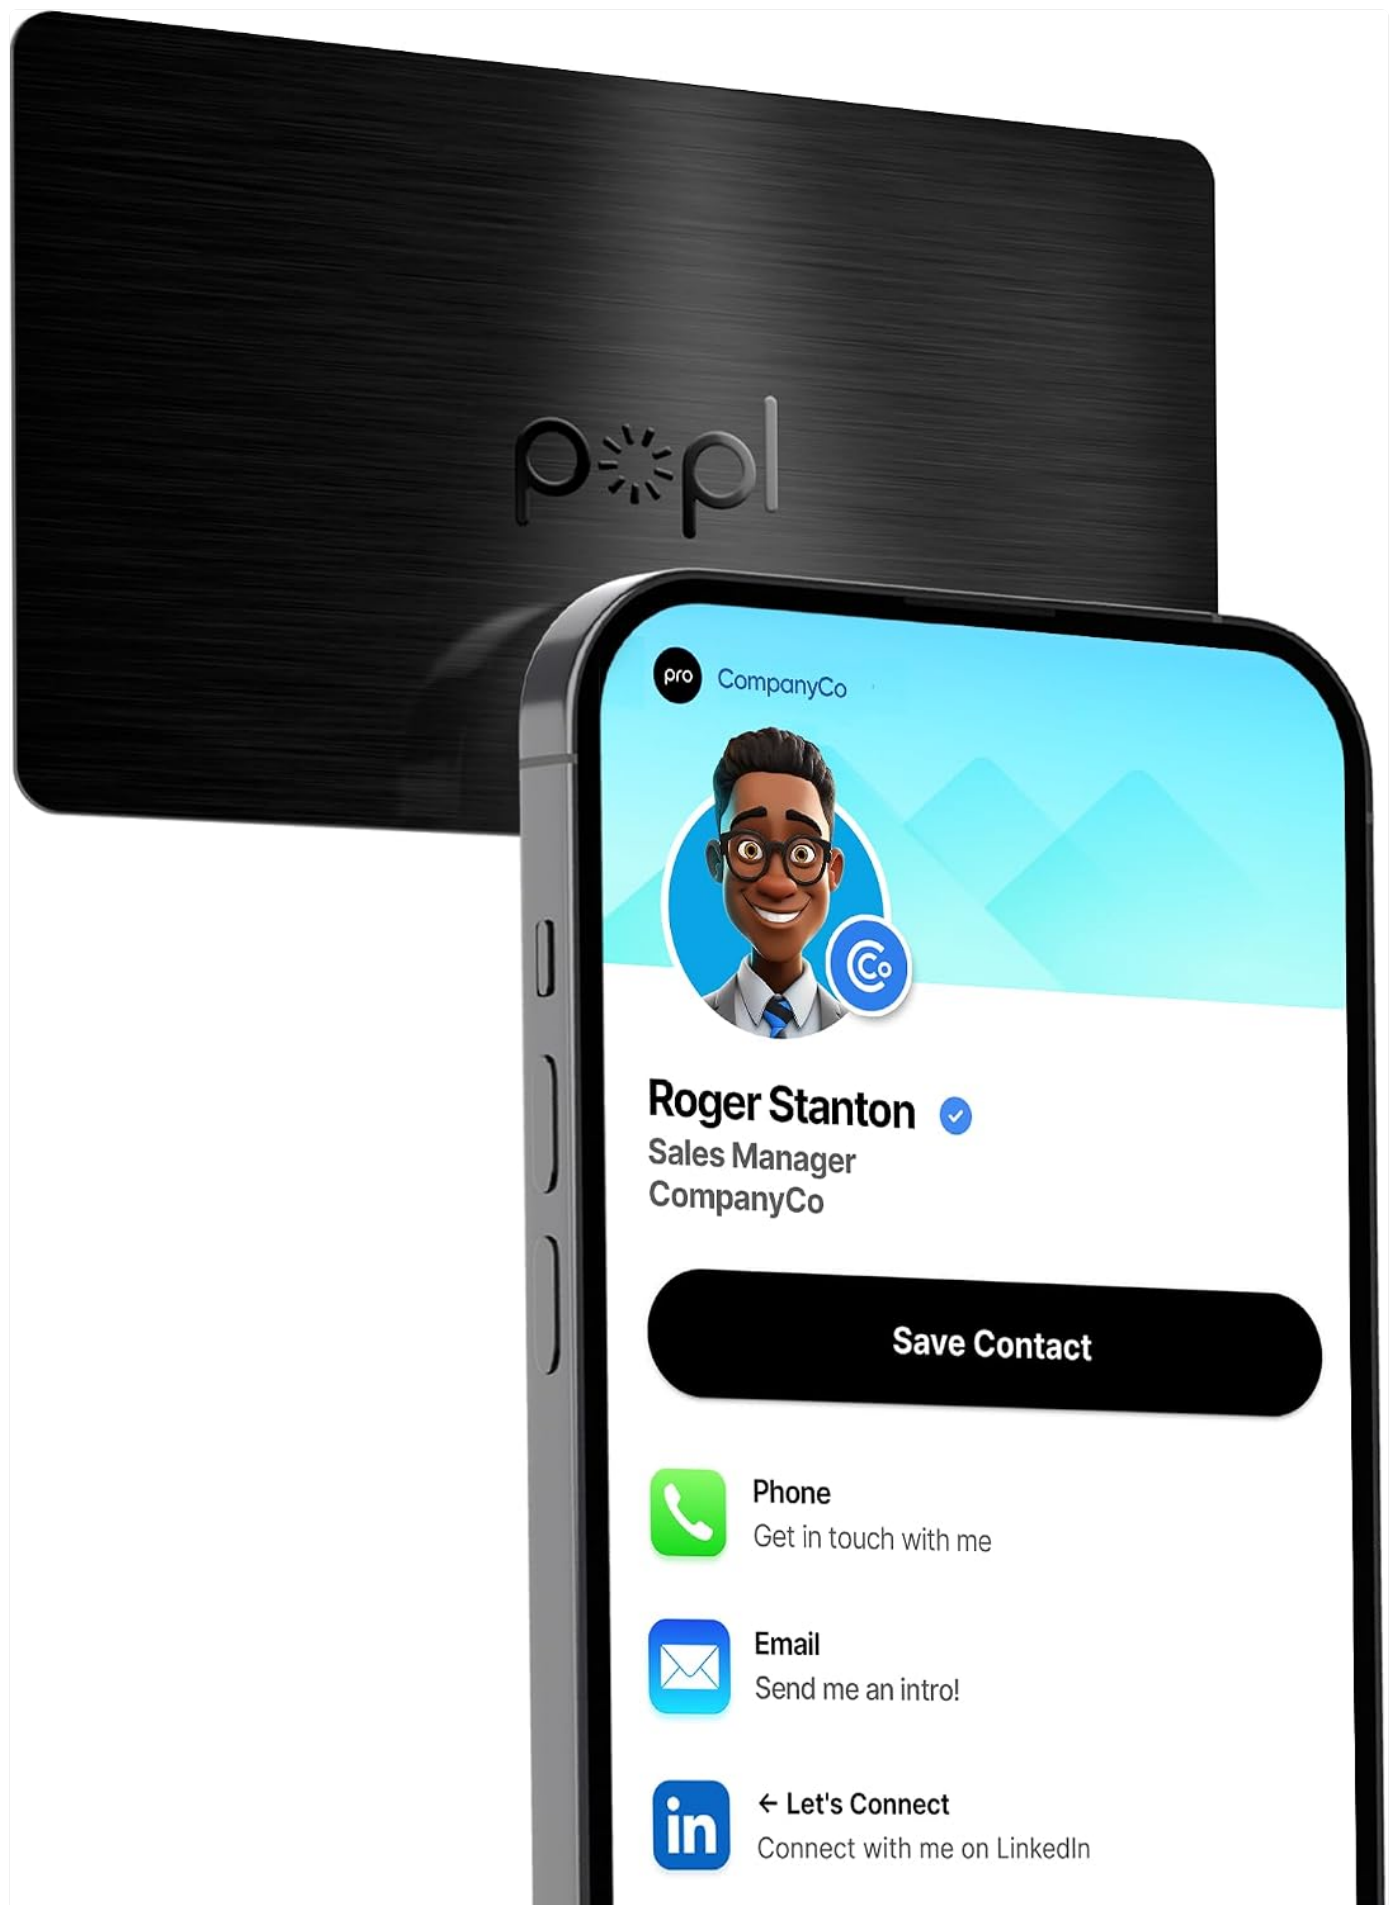

Image: The Popl Digital Business Card in Black Lux, positioned alongside a smartphone showcasing a digital business profile. This illustrates the primary function of the card: to transfer contact information to a mobile device.

Key Features

- **Universal Compatibility:** Share your information with anyone; recipients do not need a Popl app or card.
- **Flexible Usage:** Utilize both free and Pro versions of the Popl app for unlimited shares and advanced business features.
- **Multiple Sharing Methods:** Tap your Popl card to compatible iPhones (XR and newer) and Android devices (NFC enabled), or use the in-app QR code for older iPhones and other devices.
- **Secure and Private:** Link social accounts using only usernames and links, ensuring no passwords are required.

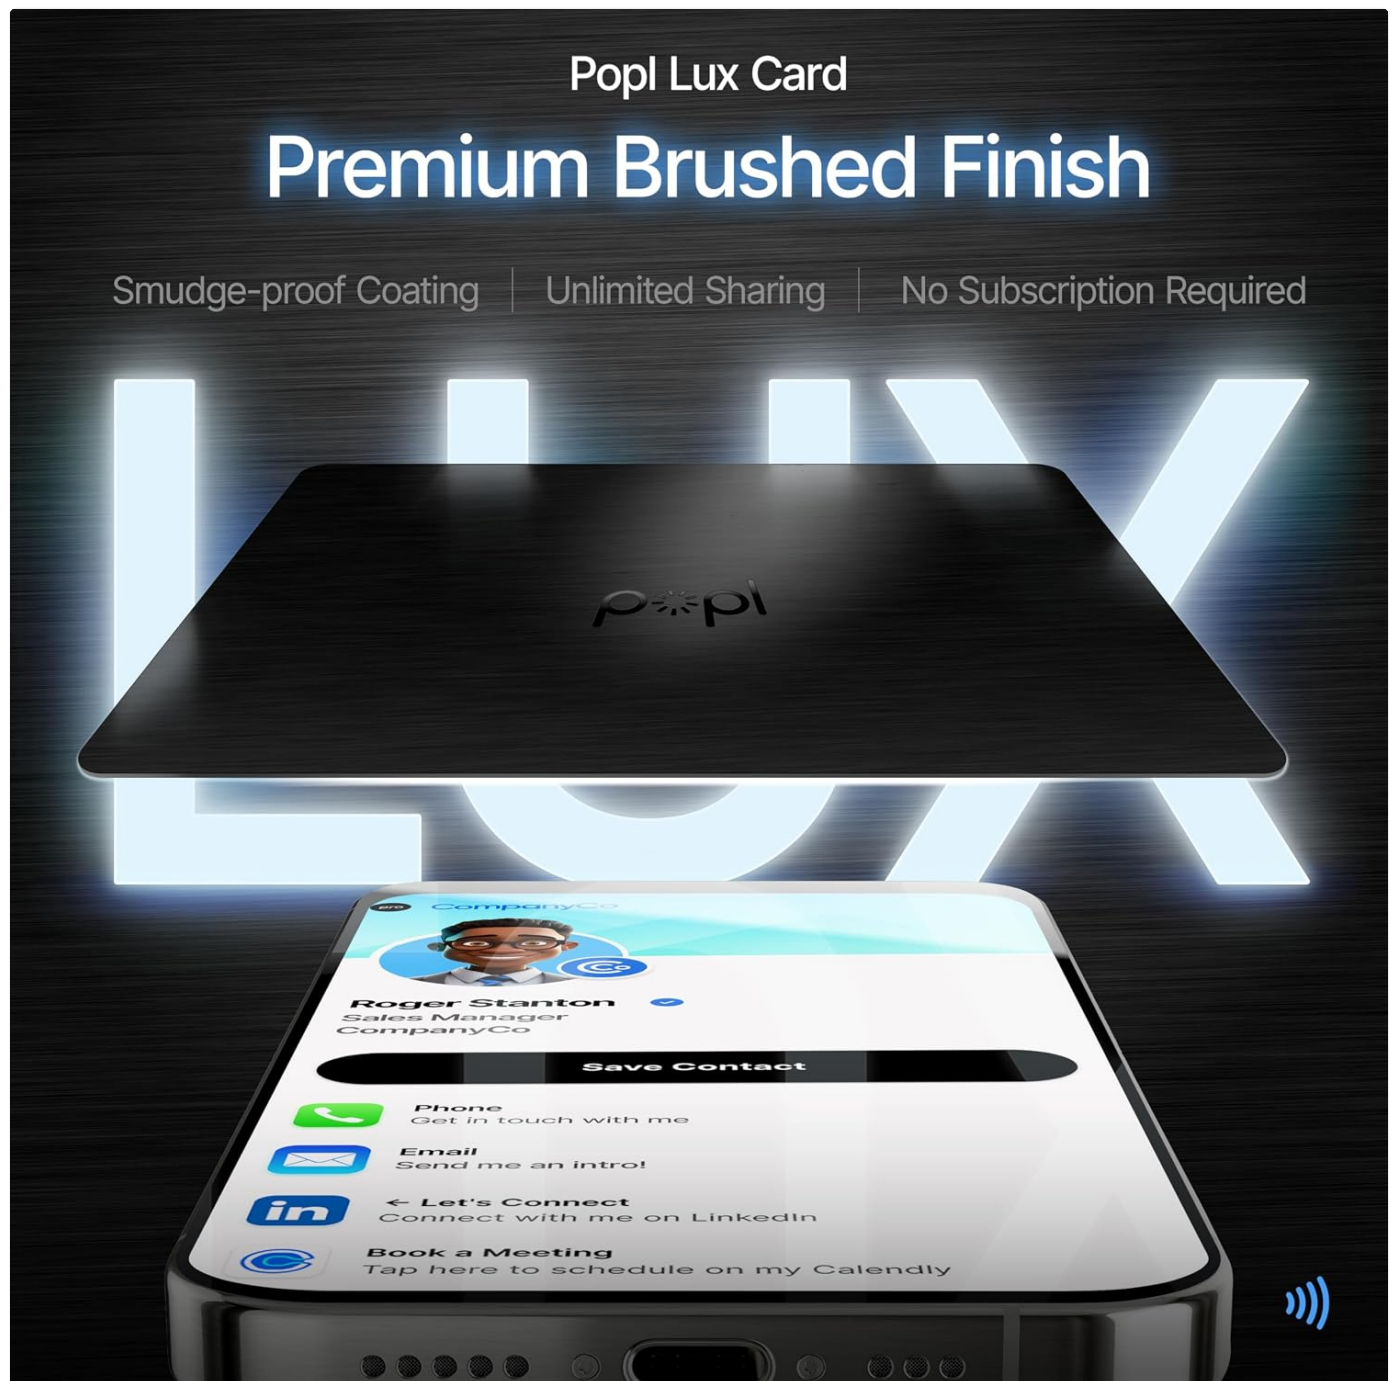

Image: A detailed view of the Popl Lux Card, highlighting its premium brushed finish. Text on the image indicates key attributes such as 'Smudge-proof Coating', 'Unlimited Sharing', and 'No Subscription Required', emphasizing its durability and cost-effectiveness.

X1 Nano-Chip Inside

The Popl X1 NFC chip enables you with lightning-fast sharing capabilities.

SETUP GUIDE

Initial Activation

Follow these steps to activate your Popl Digital Business Card and begin sharing your profile:

1. **Step 1: Order Your Popl Lux Card.** Acquire your Popl Lux Card from an authorized retailer.
2. **Step 2: Login to the Free Popl App.** Download the Popl app from your device's app store and log in to create or manage your digital business profile.
3. **Step 3: Scan QR Code to Activate.** Upon receiving your card, locate the QR code on its surface and scan it using the Popl app to link the card to your profile.
4. **Step 4: Start Sharing Your Info.** Once activated, your Popl Lux Card is ready for use.

Step 1

Order your Popl Lux Card.

Step 2

Login to the free Popl app to add your business info.

Step 3

Once it arrives, scan the QR code on your Popl Lux Card to activate it.

Step 4

Start sharing your info using your new Popl Lux Card!

Image: Step 1 of the setup process, showing the Popl card alongside a smartphone and other accessories, indicating the initial components required.

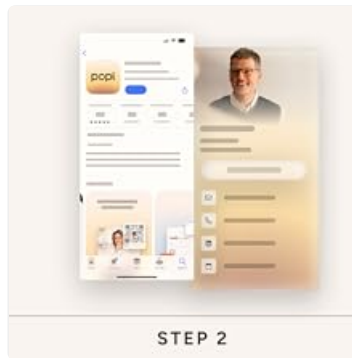

Image: Step 2 of the setup process, illustrating the Popl app's presence on an app store, ready for download and installation on a mobile device.

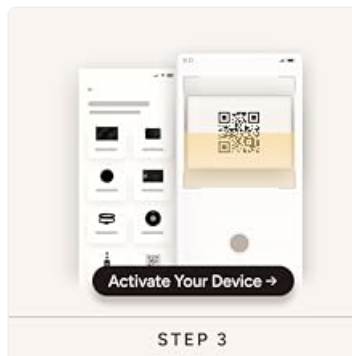

Image: Step 3 of the setup process, displaying the 'Activate Your Device' screen within the Popl app, prompting the user to scan the QR code on their Popl card for activation.

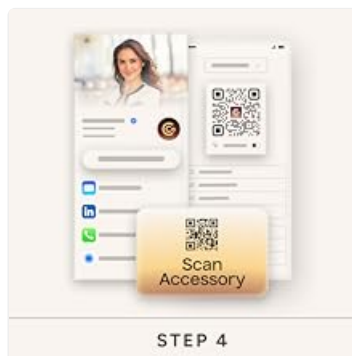

Image: Step 4 of the setup process, showing the 'Scan Accessory' screen in the Popl app, indicating the final step before the card is fully operational for sharing.

OPERATING INSTRUCTIONS

How to Share Your Profile

The Popl card offers two primary methods for sharing your digital profile:

- **Tap-to-Share (NFC):** For iPhone XR and newer, tap your Popl card to the very top of the iPhone. For Android devices, tap your Popl card to the center of the Android phone. Ensure NFC is enabled in the Android settings.
- **Scan QR Code:** For iPhone X and older models, or if NFC is not preferred, use the in-app Popl QR code. The integrated QR code on your card is also a reliable sharing method.

No App Required to Connect

You only need a Popl Card Lux and everyone else can connect with you.

Works on
iPhone and Android

Tap-To-Share™

Tapping is the fastest way to share your Popl Card Lux. It's like magic.

OR

Scan QR to Share

The integrated QR code on your card is the most reliable way to share. Others just open their camera to scan.

Image: A visual comparison of the two main sharing methods: 'Tap-To-Share' via NFC, depicted by a Popl card tapping a phone, and 'Scan QR to Share', showing a phone scanning the QR code on the card. Both methods enable seamless information exchange.

Managing Your Digital Identity

The Popl app serves as your central hub for managing your digital profile. You can update your information, add new

links, and track interactions effortlessly.

Your Digital Identity. Managed Effortlessly.

Join millions of professionals using Popl for their digital business card.

One tool to help you share everything your customers need to know about you.

Get over 50+ links &
5000+ CRM integration apps

Image: The 'Theme & Style' customization screen within the Popl app, showing options to personalize the appearance of your digital card, including card color, link color, custom code, and icon/title settings.

MAINTENANCE

To ensure the longevity and optimal performance of your Popl Digital Business Card, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the card gently with a soft, dry cloth to remove dust or smudges. Avoid abrasive materials or harsh chemicals.
- **Storage:** Store your Popl card in a safe place, away from extreme temperatures, direct sunlight, and strong magnetic fields, which could potentially affect the NFC chip.
- **Durability:** The Popl Lux Card features a premium brushed finish with a smudge-proof coating, designed for daily use. However, avoid excessive bending or scratching to preserve its appearance and functionality.

TROUBLESHOOTING

Common Issues and Solutions

- **Card Not Tapping:** Ensure the recipient's phone is compatible with NFC (iPhone XR/newer, most Androids). For Android, verify NFC is enabled in settings. Try tapping the card to different areas of the phone (top for iPhone, center for Android).
- **QR Code Not Scanning:** Ensure good lighting and a clear view of the QR code. Clean the card surface if smudged. Use the Popl app's built-in QR scanner for best results.
- **Profile Not Updating:** Verify your internet connection. Changes made in the Popl app require an active connection to sync. If you collect leads offline, they will be enriched once you are back online.
- **App Issues:** Ensure your Popl app is updated to the latest version. If problems persist, try restarting the app or your device.

Image: A Popl app screen indicating that new leads collected offline will be enriched once an internet connection is re-established, highlighting the app's ability to function even without immediate connectivity.
