LostCat Queen Size Murphy Bed Cabinet Bed

LostCat Queen Size Murphy Bed Cabinet Bed Instruction Manual

Model: Queen Size Murphy Bed Cabinet Bed

Introduction

Thank you for choosing the LostCat Queen Size Murphy Bed Cabinet Bed. This innovative and space-saving furniture piece is designed to provide a comfortable sleeping solution while maximizing your living area. This manual provides essential information for safe assembly, operation, and maintenance of your new Murphy bed. Please read all instructions carefully before beginning assembly or use.

Safety Information

- **Professional Installation Recommended:** For optimal safety and stability, installation to the wall and floor structure should be performed by a professional or qualified person.
- **Two-Person Assembly:** Assembly requires at least two people to ensure safety and ease of installation.
- **Weight Capacity:** Do not exceed the maximum weight recommendation of 600 lbs (272 kg) for the bed.
- **Mattress Thickness:** Use a mattress with a recommended thickness of 6 inches (15 cm). Mattress is not included.
- **Secure Wall Mounting:** Ensure the unit is securely anchored to a sturdy wall and floor structure to prevent tipping.
- **Keep Clear:** Ensure the area around the bed is clear of obstructions when opening or closing the unit.
- **Children and Pets:** Keep children and pets away from the unit during operation to prevent injury.

Package Contents

Your LostCat Queen Size Murphy Bed Cabinet Bed is shipped in multiple packages (typically 3) and may arrive separately. Please verify all components are present before beginning assembly.

- Murphy Bed Frame Components (Plywood + MDF)
- Wooden Mattress Support Slats
- Dual Piston Metal Folding Mechanism
- Hardware Kit (screws, bolts, connectors, etc.)

- Assembly Tools (basic tools may be included)
- Instruction Manual

Note: Mattress is not included.

Setup (Assembly)

Assembly of the LostCat Murphy Bed requires careful attention to detail and adherence to the provided instructions. Ensure you have ample space and a second person to assist.

1. **Unpack and Identify Parts:** Carefully unpack all packages. Lay out all components and hardware. Refer to the included assembly diagram to identify each part. Many boards have pre-drilled holes for easier alignment.
2. **Assemble Cabinet Frame:** Begin by assembling the main cabinet structure using the designated panels and hardware. Ensure all connections are secure and aligned.
3. **Install Folding Mechanism:** Attach the dual piston metal folding mechanism to the cabinet frame as per the instructions. Ensure the pistons are correctly oriented and securely fastened.

Image: Detailed view of the dual piston metal folding mechanism. Ensure proper installation for smooth operation.

4. **Assemble Bed Frame:** Construct the bed frame, including the wooden mattress support slats. These slats are designed to contour to the body and eliminate the need for a box spring.

5. **Attach Bed Frame to Cabinet:** Connect the assembled bed frame to the folding mechanism within the cabinet. Test the folding action carefully to ensure smooth movement.
6. **Install Support Legs:** Attach the support legs to the bed frame. These legs will flip down when the bed is extended.

Image: Detail of the bed's support leg in the extended position.

7. **Secure to Wall and Floor:** This is a critical safety step. The Murphy bed must be securely anchored to a sturdy wall and floor structure. Use appropriate fasteners for your wall type. Professional installation is highly recommended for this step.
8. **Final Check:** Before placing a mattress, perform a final check of all connections, bolts, and mechanisms to ensure everything is tight and functioning correctly.

Operating Instructions

To Open (Convert from Cabinet to Bed):

1. **Clear the Area:** Ensure there are no objects in front of the cabinet that would obstruct the bed's path.
2. **Grasp Handles:** Locate the handles on the front of the cabinet.
3. **Pull Down:** Gently pull the handles towards you and guide the bed frame downwards. The dual piston mechanism will assist in a smooth, controlled descent.
4. **Flip Down Support Legs:** As the bed frame lowers, flip the integrated support legs down onto the floor to provide stability. Ensure they are fully extended and locked into place.
5. **Position Mattress:** If not already in place, position your Queen size mattress on the support slats.

Image: The Murphy bed fully extended, ready for use.

To Close (Convert from Bed to Cabinet):

1. **Remove Bedding (Optional):** For easier closing, remove pillows and heavy blankets. Lighter bedding and the mattress can typically remain on the bed.
2. **Fold Up Support Legs:** Fold the support legs back into their stored position against the bed frame.
3. **Lift Bed Frame:** Grasp the handles and gently lift the bed frame upwards. The dual piston mechanism will assist in lifting the bed back into the cabinet.
4. **Secure in Cabinet:** Continue lifting until the bed frame is fully retracted into the cabinet and securely latched. Ensure it is flush with the cabinet front.

Image: The Murphy bed neatly folded into its cabinet form.

Maintenance

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Tighten as necessary.
- **Mechanism Lubrication:** If the folding mechanism becomes stiff or noisy, apply a small amount of silicone-based lubricant to the moving parts. Do not over-lubricate.
- **Piston Inspection:** Inspect the gas pistons for any signs of damage or leakage. If a piston fails, contact customer support for replacement.
- **Mattress Care:** Follow the manufacturer's recommendations for mattress care.

Troubleshooting

Problem	Possible Cause	Solution
Bed is difficult to open or close.	Mechanism requires lubrication. Pistons are faulty or incorrectly installed. Obstruction in the path of the bed.	Apply silicone lubricant to moving parts of the mechanism. Inspect pistons for damage; contact support for replacement if needed. Ensure the area is clear before operating.
Bed does not stay securely closed.	Latching mechanism is misaligned or damaged. Pistons are not providing enough resistance.	Check and adjust the latching mechanism. Inspect pistons; contact support if they appear weak.
Bed feels unstable or wobbly.	Loose hardware. Improper wall/floor anchoring. Support legs not fully extended.	Tighten all screws and bolts. Re-check wall and floor anchors; ensure professional installation. Ensure support legs are fully deployed and locked.

Specifications

Feature	Detail
Brand	LostCat
Model	Queen Size Murphy Bed Cabinet Bed
Size	Queen
